PRIOR AUTHORIZATION

BlueCHiP for Medicare and Commercial Products

Prior authorization is required for BlueCHiP for Medicare and recommended for Commercial Products.

NOTE: This prior authorization requirement does not apply to services rendered in an emergency room, observation or inpatient setting.

POLICY STATEMENT

BlueCHiP for Medicare and Commercial Products

The physician who orders the cardiology or radiology services must initiate and complete the authorization with the BCBSRI Cardiology and Radiology Management Program vendor. The ordering physician must maintain all documentation to support the clinical appropriateness of the study that is ordered and will complete the authorization accurately.

For BCBSRI Participating Providers

Imaging facilities/hospitals are not allowed to obtain clinical authorization on behalf of the ordering physician. In no circumstance, unless expressly agreed to by BCBSRI in writing, will a physician use a representative of an imaging facility/hospital or anyone with a relationship to an imaging facility/hospital, to facilitate any portion of the authorization process with the Cardiology and Radiology Management Program vendor, including any element of the preparation of necessary documentation of clinical appropriateness. If an imaging facility/hospital is found to be supporting, without BCBSRI express written agreement, any portion of the authorization process, BCBSRI will deem the action a violation of this policy and severe action will be taken up to and including termination from the BCBSRI provider network. If a facility/hospital provides a cardiology or radiology service that has not been authorized, the service will be denied as the financial liability of the facility/hospital and may not be billed to the member.
