

EFFECTIVE DATE: 08|01|2019

POLICY LAST UPDATED: 12|07|2022

OVERVIEW

This policy documents claim filing and reimbursement guidelines for services including payment to the physician, when rendered in a hospital-based clinic.

This policy is applicable to all Medicare Advantage Plans and Commercial Products.

MEDICAL CRITERIA

Not applicable.

PRIOR AUTHORIZATION

Not applicable.

POLICY STATEMENT

Medicare Advantage Plans and Commercial Products

Primary Care and Dual Providers

Effective for dates of service on or after 8/1/2019, BCBSRI requires any services provided by a provider (physician or advanced practice provider) that is credentialed as a Primary Care Physician or Dual Provider to bill their services on a CMS-1500 using their Type 1 NPI number and appropriate Evaluation and Management codes e.g. 99000's series codes or G0438 or G0439 (annual wellness visit/preventive codes for Medicare Advantage members) and correct coding for other services provided. BCBSRI allows for providers to bill Place of Service 11/Office for these services. Billing services in this manner will ensure the members benefit is applied correctly and allows for accurate primary care physician attribution/patient panels.

Non-Primary Care Physicians or non-Dual Providers

Services rendered in a Hospital-Based Clinic by non-Primary Care Physicians or non-Dual Providers are reimbursed a global fee which includes Evaluation and Management services, drugs, administration of drugs, as well as all supplies are part of the clinic global rate. Laboratory or radiology services obtained during the clinic visit are not included in the clinic global rate and are reimbursed according to the applicable benefit.

Non-Primary Care Physicians or non-Dual Providers shall continue to bill services on a UB-04 form. Claims should be filed using the clinic revenue code and the appropriate CPT/HCPCS code for services that are rendered.

Blue Cross & Blue Shield of Rhode Island (BCBSRI) will not separately reimburse a non-Primary Care Physician or non-Dual Provider for a hospital-based clinic visit as the reimbursement will be paid only to the facility as part of the clinic global rate.

COVERAGE

Benefits may vary between groups and contracts. Please refer to the appropriate Benefit Booklet, Evidence of Coverage or Subscriber Agreement for applicable clinic benefits/coverage.

BACKGROUND

As defined by the Centers for Medicare and Medicaid Services (CMS), a hospital-based clinic provides "outpatient service" that includes preventive, diagnostic, therapeutic, rehabilitative, or palliative services. This

definition does not include clinics exclusively designed for and providing laboratory, X-ray, testing, therapy, pharmacy or educational services.

BCBSRI utilizes revenue codes in combination with CPT codes in the hospital-based clinic setting. Mainly the CPT/HCPCS code is used for reimbursement and the revenue code is primarily used to determine the appropriate benefit for that specific clinic.

CODING

For all providers, to ensure correct claims processing, add on codes must be filed on the same claim form as the primary code.

Hospital-based clinics for non-Primary Care Physician or non-Dual Providers should file for reimbursement using “Clinic” revenue 051X with the appropriate fourth digit for the type of clinic and CPT/HCPCS code for the services rendered.

Primary Care Physicians or Dual Providers shall bill their services on a CMS-1500 using appropriate Evaluation and Management codes e.g. 99000’s series codes or G0438 or G0439 the annual wellness visit/preventive codes and correct coding for other services provided. All claims shall be billed with the Type 1 NPI of the rendering provider and BCBSRI allows for claims filed on a CMS-1500 form to be billed with Place of Service 11/Office.

This medical policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your medical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this medical policy. For information on member-specific benefits, call the provider call center. If you provide services to a member which are determined to not be medically necessary (or in some cases medically necessary services which are non-covered benefits), you may not charge the member for the services unless you have informed the member and they have agreed in writing in advance to continue with the treatment at their own expense. Please refer to your participation agreement(s) for the applicable provisions. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice.
