The BCBSRI Blue Gateway will automatically route the inbound file from the Trading Partner to the correct area for processing. You no longer need to select a 'Batch ID' such as 837P_CORP, 837I_CORP or 837D_Corp.

You will need to click the '**REFRESH**' button on the bottom right of the window in order to refresh the contents of your **Downloaded Files** directory. Any files that are for the Trading Partner to download/receive to their system will be in the **/Inbox** on this screen. This will be where your 999's and 999 Plain Language Reports will be posted. If you do not see these reports within a few minutes of your transmission, that means there was a problem with your file.

These reports MUST be monitored by the Trading Partner. If they are not received, please contact the Information Technology (IT) Service Desk at 401-751-1673 or 1-800-343-5743 for assistance.

5.3 Downloading/Receiving a File from BCBSRI's Blue Gateway
