POLICY STATEMENT

Medicare Advantage Plans

Travel and lodging expenses noted in this policy are covered benefits only when associated with approved transplantation services and the criteria for reimbursement are met:

- Criteria for Travel and Accommodation Reimbursement Limited to Transplant Period which is defined as 5 days prior to the transplant and ends when the member returns home after discharge from inpatient (Skilled Nursing or Rehabilitation) Facility
- Travel and Accommodations for follow up visits are excluded from this benefit
- The maximum amount payable for travel and lodging services related to the initial solid organ transplant is limited to \$10,000.00 per Transplant.
- Transplantation service is performed at a Center for Medicare & Medicaid Services' Medicare-approved provider that is greater than 50 miles from the member's home.
- Applies to the patient and 1 companion or 2 companions or caregivers for dependents traveling to and from home/lodging to the approved transplant facility only. (Any additional miles during the stay are ineligible.)
- Automobile expenses (mileage and gas) will be reimbursed at the IRS-medical mile approved rate in effect on the date of travel which can be found at www.irs.gov.
- Lodging includes hotels, motels, extended stay facilities or apartments. It is not a reimbursable expense if staying with family or friends in the area.
- Reimbursement of lodging will be based up to the per diem rate for lodging specified by the US General Service which is available at www.gsa.gov.
- Airfare reimbursement is limited to coach or economy fares.
- Receipts are required to be submitted for airfare and lodging only.
- If member is unable to travel home via private transportation due to bed confined status, then refer to the ambulances policies in the related policy section.
- All requests for reimbursement of covered services must be submitted within 180 days from discharge using the attached form.

BACKGROUND

As noted by CMS in the Medicare Managed Care Manual - Chapter 4, section 10.11, every Medicare Advantage (MA) plan must provide all original Medicare services to its enrollees. For coordinated care plans, in-network transplant services may be provided outside of the plan service area if the services are accessible and available to enrollees, and that service delivery is consistent with community patterns of care for original Medicare beneficiaries who reside in the same area.

MA plans, for reasons of cost (as explained below), may wish to provide a required original Medicare transplant service at a distant location (further away than the normal community patterns of care for that service), even though provision of the service is available locally (within the service area), consistent with community patterns of care for original Medicare beneficiaries who reside in the service area.

The MA plan's provision of transplant services at a distant location, farther away than the normal community patterns of care for transplant services, depends on the local cost of transplants:

- If the local providers of transplants, within the normal community patterns of care for transplants, are not willing to cover transplants for MA enrollees at a mutually agreed upon payment rate, then the MA plan must offer transplants through alternative transplant providers.
- If the local providers of transplants, within the normal community patterns of care for transplants, are willing to cover transplants for MA enrollees at the original Medicare rate or at a mutually agreed upon rate, then, although the MA plan may also offer transplants at a more distant location, the MA plan must allow enrollees the option of obtaining transplant services locally.

When providing an original Medicare service at a more distant location, farther away than the normal community patterns of care for transplants, the MA plan must ensure that the distant location provides at least the same quality and timeliness of services as at the local providers of this service. More specifically, the transplant center at the distant location must be a Medicare-eligible transplant provider and the waiting time for the transplant should not be significantly longer than the waiting within the normal community patterns of care.

In any circumstance in which an MA plan provides transplant services at a more distant location, the MA plan must:

- Provide reasonable transportation for the enrollee and a companion to the distant facility; and
- Provide reasonable accommodations for the enrollee and a companion while present in the distant location for medical care.
