

EFFECTIVE DATE: 01 | 01 | 2015

POLICY LAST UPDATED: 11 | 19 | 2019

OVERVIEW

Physical therapy (PT) is the treatment of disease or injury by the use of therapeutic exercise and other interventions that focus on improving posture, locomotion, strength, endurance, balance, coordination, joint mobility, flexibility, a person's ability to go through the functional activities of daily living, and on alleviating pain. Occupational therapy (OT) is a form of rehabilitation therapy involving the treatment of neuromusculoskeletal and psychological dysfunction through the use of specific tasks or goal-directed activities designed to improve the functional performance of an individual.

Note: this policy also includes the osteopathic manipulative treatment (OMT) codes

MEDICAL CRITERIA

None

PRIOR AUTHORIZATION

Not applicable

POLICY STATEMENT

BlueCHiP for Medicare and Commercial Products

Physical therapy and occupational services are covered when performed to meet the functional needs of a patient who suffers from physical impairment due to disease, trauma, congenital anomalies, or prior therapeutic intervention.

COVERAGE

Benefits may vary between groups and contracts. Please refer to the appropriate Benefit Booklet, Evidence of Coverage or Subscriber Agreement for applicable physical and occupation benefits/coverage.

BACKGROUND

Physical therapy is the treatment of disease or injury by the use of therapeutic exercise and other interventions that focus on improving posture, locomotion, strength, endurance, balance, coordination, joint mobility, flexibility, a person's ability to go through the functional activities of daily living, and on alleviating pain.

Treatment may include active and passive modalities using a variety of means and techniques based upon biomechanical and neurophysiological principles.

Occupational therapy is a form of rehabilitation therapy involving the treatment of neuromusculoskeletal and psychological dysfunction through the use of specific tasks or goal-directed activities designed to improve the functional performance of an individual.

Occupational therapy involves cognitive, perceptual, safety, and judgment evaluations and training. These services emphasize useful and purposeful activities to improve neuromusculoskeletal functions and to provide training in activities of daily living (ADL). Activities of daily living include feeding, dressing, bathing, and other self-care activities. Other occupational therapy services include the design, fabrication, and use of orthoses, and guidance in the selection and use of adapted equipment.

Qualified providers of PT and OT services may include:

- M.D. (medical doctor)
- D.O. (doctor of osteopathy)
- Physical therapist
- Occupational therapist
- Physical or occupational assistants*

*They act at the direction and under the supervision of the treating physical/occupational therapist and in accordance with state laws. They may not provide evaluation services, make clinical judgments or decisions, or take responsibility for the service.

Habilitative services are defined as mean healthcare services that help a person keep, learn, or improve skills and functioning for daily living. A qualified professional provides the healthcare services. Examples include therapy for a child who is not walking or talking at the expected age. These services may include physical and occupational therapy, speech therapy, and other services, performed in a variety of inpatient and/or outpatient settings for people with disabilities.

Sessions

A physical therapy session is typically defined as up to 1 hour of PT (treatment and/or evaluation) or up to 3 PT modalities provided on any given day. These sessions may include:

- therapeutic exercise programs, including coordination and resistive exercises, to increase strength and endurance;
- various modalities including, but not limited to, thermotherapy, cryotherapy, hydrotherapy, and electrical stimulation; massage, traction, or mobilization techniques; and
- patient and family education in home exercise programs.

An occupational therapy session is typically defined as up to 1 hour of occupational therapy (treatment and/or evaluation) on any given day. These sessions may include services such as:

- basic activities of daily living and self-care training;
- higher level independent living skills instruction;
- functionally oriented upper extremity exercise programs;
- cognitive, perceptual, safety, and judgment evaluations and training;
- upper extremity orthotic and prosthetic programs; and
- training of the patient and family in home exercise programs.

Plan of Care

The documentation in the plan of care for physical and occupations therapy typically includes all of the following:

- specific statements of long- and short-term goals;
- measurable objectives;
- a reasonable estimate of when the goals will be reached; typically an expectation of significant functional improvement within sixty (60) days of the initial therapy visits;
- the specific modalities and exercises to be used in treatment; and
- the frequency and duration of treatment.

The plan of care should be updated as the patient's condition changes.

CODING

BlueCHIP for Medicare and Commercial Products

The following codes are covered:

Note: When any of the CPT below are filed, one of the following modifiers must be appended to the CPT code to distinguish the discipline under which the service is delivered. Claims filed without the required modifier will deny:

GO – Services delivered under an outpatient OT plan of care

GP – Services delivered under an outpatient PT plan of care

Note: Providers who file with bill type 032X, 033X, and 034X are exempt from appending the physical, and occupational modifiers, when billing with HCPCS codes for physical and occupational services.

- 97127** Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing and sequencing tasks), direct (one-on-one) patient contact
- 97161** Physical therapy evaluation: low complexity
- 97162** Physical therapy evaluation: moderate complexity
- 97163** Physical therapy evaluation: high complexity
- 97164** Re-evaluation of physical therapy (this code is not separately reimbursed)
- 97165** Occupational therapy evaluation, low complexity
- 97166** Occupational therapy evaluation, moderate complexity
- 97167** Occupational therapy evaluation, high complexity
- 97168** Occupational therapy re-evaluation (this code is not separately reimbursed)
- 97010** Application of a modality to 1 or more areas: hot or cold packs
- 97012** Application of a modality to 1 or more areas; traction, mechanical
- 97014** Application of a modality to 1 or more areas; electrical stimulation (unattended)
- 97016** Application of a modality to 1 or more areas; vasopneumatic devices
- 97018** Application of a modality to 1 or more areas; paraffin bath
- 97022** Application of a modality to 1 or more areas; whirlpool
- 97024** Application of a modality to 1 or more areas; diathermy (e.g., microwave)
- 97026** Application of a modality to 1 or more areas; infrared
- 97028** Application of a modality to 1 or more areas; ultraviolet
- 97032** Application of a modality to 1 or more areas; electrical stimulation (manual), each 15 minutes
- 97033** Application of a modality to 1 or more areas; iontophoresis, each 15 minutes
- 97034** Application of a modality to 1 or more areas; contrast baths, each 15 minutes
- 97035** Application of a modality to 1 or more areas; ultrasound, each 15 minutes
- 97036** Application of a modality to 1 or more areas; Hubbard tank, each 15 minutes
- 97039** Unlisted modality (specify type and time if constant attendance)
- 97110** Therapeutic procedure, 1 or more areas, each 15 minutes; therapeutic exercises to develop strength and endurance, range of motion and flexibility
- 97112** Therapeutic procedure, 1 or more areas, each 15 minutes; neuromuscular reeducation of movement, balance, coordination, kinesthetic sense, posture, and/or proprioception for sitting and/or standing activities
- 97113** Therapeutic procedure, 1 or more areas, each 15 minutes; aquatic therapy with therapeutic exercises
- 97116** Therapeutic procedure, 1 or more areas, each 15 minutes; gait training (includes stair climbing)
- 97124** Therapeutic procedure, 1 or more areas, each 15 minutes; massage, including effleurage, petrissage and/or tapotement (stroking, compression, percussion)
- 97129** Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; initial 15 minutes **New effective 1/1/2020**

- 97130 Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; each additional 15 **New effective 1/1/2020**
- 97139 Unlisted therapeutic procedure (specify)
- 97140 Manual therapy techniques (e.g., mobilization/ manipulation, manual lymphatic drainage, manual traction), 1 or more regions, each 15 minutes
- 97150 Therapeutic procedure(s), group (2 or more individuals)
- 97530 Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes
- 97535 Self-care/home management training (e.g., activities of daily living (ADL) and compensatory training, meal preparation, safety procedures, and instructions in use of assistive technology devices/adaptive equipment) direct one-on-one contact, each 15 minutes
- 97537 Community/work reintegration training (e.g., shopping, transportation, money management, avocational activities and/or work environment/modification analysis, work task analysis, use of assistive technology device/adaptive equipment), direct one-on-one contact, each 15 minutes
- 97542 Wheelchair management (e.g., assessment, fitting, training), each 15 minutes
- 97545 Work hardening/conditioning; initial 2 hours
- 97546 Work hardening/conditioning; each additional hour (list separately in addition to code for primary procedure)
- 97750 Physical performance test or measurement (e.g., musculoskeletal, functional capacity), with written report, each 15 minutes
- 97755 Assistive technology assessment (e.g., to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minutes
- 97760 Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(s), lower extremity(s) and/or trunk, each 15 minutes
- 97761 Prosthetic training, upper and/or lower extremity(s), each 15 minutes
- 97763 Orthotic(s)/prosthetic(s) management and/or training, upper extremity(ies), lower extremity(ies), and/or trunk, subsequent orthotic(s)/prosthetic(s) encounter, each 15 minute
- 97799 Unlisted physical medicine/rehabilitation service or procedure
- G0515 Development of cognitive skills to improve attention, memory, problem solving (includes compensatory training), direct (one-on-one) patient contact, each 15 minutes (effective 1/1/2018)

The following codes are not covered

- 97169 Athletic training evaluation, low complexity
- 97170 Athletic training evaluation, moderate complexity
- 97171 Athletic training evaluation, high complexity
- 97172 Re-evaluation of athletic training evaluation

Osteopathic Manipulative Treatment (OMT)

The following osteopathic manipulative treatment (OMT) codes are covered as part of the members physical and occupation benefits

Note: An evaluation and management (E/M) code may be reported separately using modifier 25 IF the patient's condition requires a significant, separately identifiable E/M service above and beyond the usual pre service and post service work associated with the procedure.

- 98925 Osteopathic manipulative treatment (OMT) 1-2 body regions involved
- 98926 Osteopathic manipulative treatment (OMT) 3-4 body regions involved
- 98927 Osteopathic manipulative treatment (OMT) 5-6 body regions involved
- 98928 Osteopathic manipulative treatment (OMT) 7-8 body regions involved

98929 Osteopathic manipulative treatment (OMT) 9-10 body regions involved

This medical policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your medical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this medical policy. For information on member-specific benefits, call the provider call center. If you provide services to a member which are determined to not be medically necessary (or in some cases medically necessary services which are non-covered benefits), you may not charge the member for the services unless you have informed the member and they have agreed in writing in advance to continue with the treatment at their own expense. Please refer to your participation agreement(s) for the applicable provisions. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice.
