

**EFFECTIVE DATE:** 03 | 18 | 2020

**POLICY LAST UPDATED:** 04 | 08 | 2020

## OVERVIEW

This **TEMPORARY** policy documents the billing and medical record documentation requirements when a provider renders a Telemedicine/Telehealth or Telephone only Preventive Medicine Evaluation and Management (E&M) Visits for both adults and children (Well-Child Exams) or Annual Wellness Visits (AWV) for Medicare Advantage members during the COVID-19 crisis/the timeframe this policy is in effect.

This policy is applicable to in-network providers for BlueCHiP for Medicare and Commercial Products.

Refer to the Related Policies section for other policies related to services rendered during this designated timeframe.

**This policy is effective for dates of service on or after March 18, 2020.**

Blue Cross & Blue Shield of Rhode Island (BCBSRI) reserves the right to implement and revoke this policy without the contractual sixty-day (60) notification for a change in policy that is normally required under BCBSRI contracts with its providers. This would apply both for the effective date, due to the urgent and emergent nature of a pandemic, as well as for the withdrawal of the policy.

**Notice of the implementation, update or withdrawal of this policy will be communicated to BCBSRI providers via a notice on BCBSRI's provider website/portal under Alerts and Updates.**

## POLICY STATEMENT

### BlueCHiP for Medicare and Commercial Products

During the timeframe this policy is in effect, BCBSRI will **TEMPORARILY** allow for Preventive Medicine E&M Services for both adults and children (Well-Child Exam) and AWV for Medicare Advantage members to be provided through telemedicine/telehealth or telephone only encounters in an effort to reduce the need for in-person treatment and support social distancing efforts, as well as to ensure that providers are able to continue to provide medically necessary and clinically appropriate care during the course of this public health emergency.

BCBSRI will reimburse Preventive Medicine Evaluation and Management Visits and Annual Wellness Visits encounters provided via telemedicine/telehealth or telephone only at 100% of the in-office allowable amount.

NOTE: Services performed by Advanced Practitioners will be reimbursed at a contracted proportion of the physician fee schedule as is the practice for in-office services in accordance with the related policy, Advanced Practitioners.

Additionally, during the timeframe this policy is in effect, BCBSRI will allow the components of the Preventive Medicine E&M and AWV to be conducted on two (2) separate dates of service.

Claims submitted for reimbursement must meet the following guidelines:

1. The first portion/part of the patient encounter would be to perform the Preventive Medicine E&M or AWV components of the exam that are clinically appropriate to be performed by telemedicine/telehealth or telephone only. The encounter must be documented by the appropriate procedure code for the Preventive E&M or AWV service e.g. 99382, 99395 or G0438 that the provider would report if the service was provided in the office. This portion/part of the encounter should be reported on the date of service the telemedicine/telehealth or telephone only service takes place. Claims must be filed with **Place of Service (POS) 02** (Telehealth) to indicate that this part of the service was rendered as a telemedicine/telehealth or telephone only visit.
2. The second portion/part of the patient encounter is intended to perform/meet the face-to-face visit components/physical requirements of the Preventive Medicine E&M or the AWV exam e.g. digital rectal or breast exam, provide immunizations, etc. e.g. 90471. Only those services that are provided on that date of service that are separate from the Preventive Medicine E&M or the AWV exam should be billed/reported on the second date of service. The main procedure code for the Preventive E&M or AWV e.g. 99395 or G0438 would NOT be reported on the second date of service as it was already reported on the initial date of service. Claims must be filed with **Place of Service 11** (Office) or other appropriate POS where the exam takes place.
3. The claim filed for the Preventive Medicine E&M or AWV with the appropriate CPT/HCPCS code **MUST** be submitted only **ONCE** on the initial date of service the telemedicine/telehealth or telephone encounter occurs.
4. The provider must ensure they file **ALL** applicable CPT codes for health assessments and/or screenings that take place for each encounter. There is no change for reporting/coding of orders furnished by the provider for additional testing such as for laboratory tests, radiology etc.
5. There is no change in the reporting of Category I or Category II codes needed to meet HEDIS requirement and/or BCBSRI's quality program as the result of this policy.
6. The documentation in the members' medical record **MUST** reflect both encounters. The progress note for the face-to-face encounter **MUST** indicate/reference the date of the initial telemedicine/telehealth or telephone only encounter, and it should be tied to the initial encounter in the patient record/EMR for future review by BCBSRI.
7. BCBSRI will consider reimbursement for a separate sick E&M service e.g. 99212 on the date of service the face-to-face portion of the Preventive Medicine E&M or AWV takes place if the patient raises a separate health concern which would not normally be addressed during a Preventive Medicine E&M or AWV (e.g. incidental complaints by the patient) for which a separate encounter would normally be billed. Documentation requirements for the separately identifiable sick E&M Service are expected to meet all typical documentation requirements for a separate encounter. **The members standard cost share/benefit for a sick visit would apply to the separately identifiable and billed E&M visit.**
8. This policy is not applicable to the "Welcome to Medicare" physical examination HCPCS code G0402; Initial preventive physical examination; face-to-face visit, services limited to new beneficiary during the first 12 months of Medicare enrollment. (G0402) as that visit must be a face to face visit.

**NOTE: BCBSRI reserves the right to audit medical records as well as administrative records related to adherence to all the requirements of this policy, e.g. to verify the nature of the services provided, the medical necessity and clinical appropriateness to provide such service via telemedicine and/or telephone as well as the appropriateness of the level of evaluation and management coding. Documentation must contain the details of the provider-patient encounter.**

#### **COVERAGE**

Benefits may vary between groups and contracts. Please refer to the appropriate Benefit Booklet, Evidence of Coverage or Subscriber Agreement for applicable preventive benefits/coverage.

## **CODING**

### **BlueCHIP for Medicare and Commercial Products**

**The following codes are covered, when rendered with Place of Service 02 Telehealth, when the guidelines in the policy are met:**

- 99381 Initial comprehensive preventive medicine evaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures, new patient; infant (age younger than 1 year)

This medical policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your medical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this medical policy. For information on member-specific benefits, call the provider call center. If you provide services to a member which are determined to not be medically necessary (or in some cases medically necessary services which are non-covered benefits), you may not charge the member for the services unless you have informed the member and they have agreed in writing in advance to continue with the treatment at their own expense. Please refer to your participation agreement(s) for the applicable provisions. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice.
