

Payment Policy | Payments for Outpatient Service Performed when a Member is Admitted as an Inpatient to a Different Hospital

EFFECTIVE DATE: 11|01|2011
POLICY LAST UPDATED: 02|16|2022

NOTE: The effective date of this policy relates to the date Blue Cross & Blue Shield of Rhode Island (BCBSRI) created documentation to reflect reimbursement processes that are established and do not indicate a change in the payment process.

OVERVIEW

There may be occasions where a member is admitted as an inpatient at a hospital and needs medical services that are not available at that hospital. In some of these instances, instead of discharging the member and transferring to another hospital, the member is simply transported to another hospital or other freestanding provider to receive the needed services as an outpatient, and then returned to the hospital where he or she was admitted. When this situation occurs, it is necessary to clarify how the providers will be reimbursed.

POLICY STATEMENT

In situations as described above, BCBSRI will reimburse the hospital where the member is admitted as an inpatient. BCBSRI's contractual arrangements with its network hospitals for inpatient care, whether based on Diagnosis Related Group (DRG), per diem, case rate, or any other methodology, is all-encompassing and represents the total amount allowed, less any portion for which the member is responsible.

Any services performed by another hospital, facility, or other freestanding provider will not be reimbursed separately by BCBSRI, unless those services, when rendered in the inpatient setting, are separately reimbursable (e.g., professional services). Reimbursements for all other services are the responsibility of the inpatient facility.

Example: A member is inpatient at an inpatient rehabilitation facility and is transferred for radiation treatment to another facility. BCBSRI would reimburse the professional component to the radiation treatment provider and the rehabilitation facility would be responsible for reimbursing any additional services.
