

EFFECTIVE DATE: 03|01|2026
POLICY LAST UPDATED: 01|07|2026

OVERVIEW

The intent of this policy is to document the criteria and prior authorization requirement for the removal of surgically implanted devices.

MEDICAL CRITERIA

Medicare Advantage Plans and Commercial Products

Removal Only

Removal Only of a surgically implanted device is considered medically necessary when:

- the insertion of the device was determined to be medically necessary.

Removal Only of a surgically implanted device is considered medically necessary when:

- the insertion of the device was determined to be NOT medically necessary, and one of the following indications is present:
 - complication, OR
 - infection

Removal and Reinsertion, Replacement or Revision of a Device

In instances where the appropriate Current Procedural Terminology (CPT) code for removal of a device represents the removal AND/OR reinsertion, replacement or revision of a device:

- the removal must be reviewed using the above removal criteria,
- the reinsertion/replacement/revision must be reviewed to determine medical necessity.
 - Note: In most instances, the criteria from the Medical Necessity policy would be used for review of reinsertion/replacement/revision. However, in other instances, a medical policy may exist for the specific device, or the New Technology and Miscellaneous Services policies can be referenced. Please see Related Policies section.

PRIOR AUTHORIZATION

Medicare Advantage Plans and Commercial Products

Prior authorization is required for Medicare Advantage Plans and recommended for Commercial Products and is obtained via the online tool for participating providers. See the Related Policies section.

POLICY STATEMENT

Medicare Advantage Plans and Commercial Products

Removal of a surgically implanted device is considered medically necessary when medical criteria are met.

Reimplantation of the device is considered not medically necessary, when the initial implantation was determined to be not medically necessary.
