What do we cover?

Like all Medicare health plans, we cover everything that Original Medicare covers - and *more*.

- **Our plan members get *all* of the benefits covered by Original Medicare. For some of these benefits, you may pay more in our plan than you would in Original Medicare.** For others, you may pay less.
- **Our plan members also get *more than what is* covered by Original Medicare.** Some of the extra benefits are outlined in this booklet.

BlueCHiP for Medicare Group Preferred

(HMO-POS): We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, <http://www.BCBSRI.com/>.
- Or, call us and we will send you a copy of the formulary.

How will I determine my drug costs?

BlueCHiP for Medicare Group Preferred

(HMO-POS): Our plan groups each medication into one of four "tiers." You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Later in this document we discuss the benefit stages that occur: Initial Coverage, Coverage Gap, and Catastrophic Coverage.

Coverage Gap																			
	<p>Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$2,960.</p> <p>After you enter the coverage gap, you pay 45% of the plan’s cost for covered brand name drugs and you pay the following for covered generic drugs until your costs total \$4,700, which is the end of the coverage gap. Not everyone will enter the coverage gap.</p> <p>Under this plan, you may pay even less for the brand and generic drugs on the formulary. Your cost varies by tier. You will need to use your formulary to locate your drug’s tier. See the chart that follows to find out how much it will cost you.</p> <p style="text-align: center;">Standard Retail Cost-Sharing</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <thead> <tr> <th style="padding: 5px;">Tier</th> <th style="padding: 5px;">Drugs Covered</th> <th style="padding: 5px;">One-month supply</th> <th style="padding: 5px;">Two-month supply</th> <th style="padding: 5px;">Three-month supply</th> </tr> </thead> <tbody> <tr> <td style="padding: 5px;">Tier 1 (Generic)</td> <td style="padding: 5px;">All</td> <td style="padding: 5px;">\$6 copay</td> <td style="padding: 5px;">\$12 copay</td> <td style="padding: 5px;">\$18 copay</td> </tr> </tbody> </table> <p style="text-align: center;">Standard Mail Order Cost-Sharing</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <thead> <tr> <th style="padding: 5px;">Tier</th> <th style="padding: 5px;">Drugs Covered</th> <th style="padding: 5px;">One-month supply</th> <th style="padding: 5px;">Three-month supply</th> </tr> </thead> <tbody> <tr> <td style="padding: 5px;">Tier 1 (Generic)</td> <td style="padding: 5px;">All</td> <td style="padding: 5px;">Not Offered</td> <td style="padding: 5px;">\$15 copay</td> </tr> </tbody> </table>	Tier	Drugs Covered	One-month supply	Two-month supply	Three-month supply	Tier 1 (Generic)	All	\$6 copay	\$12 copay	\$18 copay	Tier	Drugs Covered	One-month supply	Three-month supply	Tier 1 (Generic)	All	Not Offered	\$15 copay
