

Large Group Account Migration to the Digital Health Plan (DHP) Web Enrollment Tool

Beginning in November 2012, we will be migrating our large group accounts to our Digital Health Plan (DHP) web enrollment tool. The migration will take place approximately 75-90 days before each account's renewal date. Account-specific migration dates and enrollment details regarding the transition will be communicated in advance of the migration.

- Please feel free to call the field service representative assigned to your account with questions.
- **If you are not currently using web enrollment**, please contact your Blue Cross field service representative to learn more.
