Calculating the Family Rate

Add the rates for each individual to determine the total monthly payment for a family plan.

Example: A married couple with two children under 21 enrolling in **BlueCHiP Direct 4800**

Mother 40:	\$333.65
Father 41:	\$339.91
Dependent under 21:	\$199.72
Dependent under 21:	\$261.07
Total family rate:	\$1,134.35

Note: Rates are determined per individual. The premium rate for family coverage is based on the number of individuals in the family that enroll in coverage and the age of each family member. If you enroll more than three children under the age of 21, only the three oldest children will be included in your premium.

500 Exchange Street • Providence, RI 02903-2699
