HELPFUL TIPS

- Read all information provided, especially this Subscriber Agreement. Coverage for your medical services (services rendered by a *provider* other than a pharmacy) is described in the Summary of Medical Benefits and Section 3.0 – How Your Health Services Are Covered. Refer to the Table of Contents for page numbers.
- Your prescription drug coverage (services rendered by a pharmacy) is described in the Pharmacy Benefits section. Refer to the Table of Contents for page numbers.
- If you have any coverage riders, see the Table of Contents for the page number where you can find information about the rider in this *agreement*.
- Become familiar with services excluded from coverage (See Section 4.0 - Health Services Not Covered Under This Agreement and all related exclusions.)
- In Section 8.0 - Glossary, there is a list of definitions of words used throughout this *agreement*. It is very helpful to become familiar with these words and their definitions.
- Identification Cards (ID) are provided to all *members*. The ID card must be shown when obtaining health care services. Your ID card should be kept in a safe location, just like money, credit card or other important documents. BCBSRI should be notified immediately if your ID card is lost or stolen.
- Our list of *network providers* changes from time to time. You may want to call our Customer Service Department in advance to make sure that a *provider* is a *network provider*.
- As required by state law R.I. Gen. Laws § 27-18-78, each enrolling subscriber and his/her enrolling dependents is required to provide the name of their primary care physician. However, a delay in enrollment or cancellation of coverage will not occur if the name of your primary care physician is not provided at the time of application. Although a referral from a primary care physician is not needed to receive covered health care services from a specialist physician, having a primary care physician can help manage your health care services.
- You are encouraged to become involved in your health care treatment by asking *providers* about all treatment plans available and their costs. You also are encouraged to take advantage of the preventive health services offered under this *agreement* to help you stay healthy and find problems before they become serious.

SUMMARY OF MEDICAL BENEFITS

Your Plan: HealthMate Coast-to-Coast

This Summary of Benefits is part of *your* Subscriber Agreement. It describes the cost share amounts *you* must pay for covered services. Some *benefit limits* are provided here with additional *benefit limits* provided in the *Covered Health Care Services* section mentioned below. Do not rely on this chart alone. Be sure to read all parts of *your* Subscriber Agreement to understand the requirements *you* must follow to receive all of *your* coverage. For a full description of *benefit limits*, covered services and exclusions please see:

- Summary of Pharmacy Benefits for benefit coverage levels of prescription drugs and diabetic equipment/supplies purchased at a pharmacy;
- *Covered Health Care Services* - Section 3;
- Health Care Services Not Covered Under This *Agreement* – Section 4;
- Glossary – Section 8, for definitions of italicized words or phrases used throughout this *agreement*.

**Preauthorization* is recommended for services marked with an asterisk (*). Please see *Preauthorization* in Section 1 and Section 8 for more information.

IMPORTANT NOTE: All of our payments at the benefit levels noted below are based upon a fee schedule called our *allowance*. If you receive services from a *network provider*, the *provider* has agreed to accept our *allowance* as payment in full for covered health care services, excluding your copayments, *deductible*, and the difference between the *maximum benefit* and our *allowance*, if any. If you receive covered health care services from a *non-network provider*, you will be responsible for the *provider's* charge. You will then be reimbursed based on the lesser of the *provider's* charge, our *allowance*, or the *maximum benefit*; less any *copayments* and *deductibles*, if any. The *deductible* and *maximum out-of-pocket expense* is calculated based on the lower of our *allowance* or the *provider's* charge, unless otherwise specifically stated in this *agreement*.

1.4 You and Blue Cross & Blue Shield of Rhode Island

We, Blue Cross & Blue Shield of Rhode Island, agree to provide coverage for *medically necessary covered health care services* listed in this *agreement*. (The term *medically necessary* is defined in Section 8.0) If a service or category of service is not specifically listed as covered, it is not covered under this *agreement*. Only services that we have reviewed and

determined are eligible for coverage under this *agreement* are covered. All other services are not covered.

We only cover a service listed in this *agreement* if it is *medically necessary*. We review medical necessity in accordance with our medical policies and related guidelines.

This *agreement* provides coverage for health care services that we have reviewed and determined are eligible for coverage. Health care services which we have not reviewed or which we have reviewed and determined are not eligible for coverage are not covered under this *agreement*. If a service or category of service is not listed as covered, it is not covered under this *agreement*. Section 3.0 lists the health care services covered under this *agreement* along with their related exclusions. Section 4.0 lists general exclusions.

When possible, we review *new services* within six (6) months of the occurrence of one of the events described below to determine whether the *new service* will be eligible for coverage under this *agreement*:

- the assignment of an American Medical Association (AMA) Current Procedural Terminology (CPT) code in the annual CPT publication;
- final FDA approval;
- the assignment of processing codes other than CPT codes or approval by governing or regulatory bodies other than the FDA;
- submission to us of a claim meeting the criteria of (a), (b) or (c) above; and
- generally, the first date an FDA approved prescription drug is available in pharmacies (for prescription drug coverage only). For information about prescription drug *formulary* changes, please see Section 3.28 – Prescription Drugs and Diabetic Equipment/Supplies.

During the review period described above, *new services* are not covered under this *agreement*.

A health care service remains non-covered (excluded) if any of the following occur:

- a service is not assigned a CPT or other code;
- a service is not approved by the FDA or other governing body;
- we do not review a service within six (6) months of the occurrence of one of the events described above; OR
- we make a determination, after review, not to cover the service under this *agreement*.

Entitlements for payment shall not be more than our *allowance*, as defined in Section 8.0. All our payments are subject to the terms and conditions outlined in this *agreement*.

Genetic Information

This *agreement* does not limit your coverage based on genetic information.

We will not:

- adjust premiums based on genetic information;
- request or require an individual or family *members* of an individual to have a genetic test; or
- collect genetic information from an individual or family *members* of an individual before or in connection with enrollment under this *agreement* or at any time for underwriting purposes.

This *agreement* provides coverage only for *medically necessary* care. We do not practice medicine, furnish health care, or make medical judgments.

We review *claims* for payment to determine if the *claims*:

- were properly authorized;
- constitute medically necessary services for the purpose of benefit payment; and
- are covered health care services under this *agreement*.

The determination by us of whether a service is *medically necessary* is solely for the purpose of *claims* payment and the administration of health *benefits* under this *agreement*. It is not an exercise of professional medical judgment.

1.13 Your Responsibility To Pay Your Providers

Covered health care services may be subject to *benefit limits*, *deductibles*, and *copayments* as shown in the Summary of Medical Benefits and Summary of Pharmacy Benefits. It is your responsibility and obligation under this *agreement* to pay *network providers* the *deductible*, *copayment*, and the difference between the *maximum benefit* and our *allowance* (if any) that may apply to *covered health care services*.

Your *provider* may require payment at the time of service or may bill you after the service. If you do not pay your *provider*, he or she may decline to provide current or future services or may pursue payment from you. Your *provider* may, for example, begin collection proceedings against you. For more information, see Section 5.0 - How Your Covered Health Care Services Are Paid.

2.0 ELIGIBILITY

This section of the *agreement* describes:

- who is eligible for coverage;
- when coverage begins;
- how to add or remove family members;

- continuation of coverage.

2.1 Who is an *Eligible Person*

You: You are eligible to enroll in coverage under this *agreement* provided that you:

- meet the minimum work-hour requirements; and

The date on which you have met your *employer's/agent's* eligibility requirements and are entitled to apply for coverage under this *agreement* is your eligibility date.

- Your legal, according to the laws of the state in which you were married, when your marriage was formed by obtaining a marriage license, having a marriage ceremony, and registering the marriage with the appropriate state or local official.
- Your common law spouse, according to the law of the state in which your marriage was formed. Your spouse by common law of the opposite gender is eligible to enroll for coverage under this *agreement*. To be eligible, you and your common law spouse must complete and sign our Affidavit of Common Law Marriage and send us the required documentation. Please call us to obtain the Affidavit of Common Law Marriage.

- Former Spouse: In the event of a divorce, your former spouse will continue to be eligible for coverage provided that your divorce decree requires you to maintain continuing coverage under a family policy in accordance with state law. In that case, your former spouse will remain eligible on your policy until the earlier of:

 - ii. the date provided by the judgment for divorce; or

- Foster Children: Your foster children who permanently live in your home are eligible to enroll for coverage under this *agreement*.
- Children of your covered domestic partner.

We may request more information from you to confirm your child's eligibility.

Disabled Dependents

In accordance with Rhode Island General Law § 27-20-14, when your unmarried child who is enrolled for coverage under this *agreement* reaches the maximum dependent child age indicated in the Summary of Benefits and is no longer considered eligible for coverage, he or she continues to be an *eligible person* under this *agreement* if he or she is a disabled dependent.

If you have an unmarried child of any age who is medically certified as disabled and is chiefly dependent on you for support and care because of mental impairment or physical disability, which can be expected to result in death or can be expected to last for a continuous period of not less than twelve months, that child is an eligible disabled dependent under this *agreement*. If you have a child whom you believe satisfies these conditions, you must call us to obtain the form necessary to verify the child's disabled status and show proof of the disability. This form must be filled out and submitted to us. Periodically thereafter, you may be asked to show proof that this disabling condition still exists to maintain coverage for the child as a dependent.

2.2 When Your Coverage Begins

When First Eligible

When you are first eligible, you and your eligible dependents may enroll by making written application to us through your *employer* for coverage within the first thirty-one (31) days following your eligibility date. So long as we receive your membership application within that timeframe and your membership fees are paid, your coverage begins on the first day of the month following your eligibility date.

We must receive your application within the first thirty-one (31) days of your becoming eligible for coverage, or we will deny your application.

If you or your dependents fail to enroll at this time, you cannot enroll in this *agreement* unless you do so through an Open Enrollment Period or a Special Enrollment Period.

Open Enrollment

An Open Enrollment Period will be held each year for coverage to be effective on the first day of the *plan year*. You and/or your eligible dependents may enroll at this time by making written application during the open enrollment period.

Special Enrollment Period

After your initial effective date, you may enroll your eligible dependents for coverage through a Special Enrollment Period after you experience a change in family status, a loss of private health coverage, or a change in eligibility for Medicaid or a State Children's Health Insurance Program (CHIP) as described below.

With a change in family status, you must make written application within the thirty (30) days following the event. You and/or your eligible dependents will qualify for a Special Enrollment Period as follows:

- if you get married, coverage begins the first day of the month following your marriage;
- if you have a child born to the family, coverage begins on the date of the child's birth;
- if you have a child placed for adoption with your family, coverage begins on the date the child is placed for adoption with your family.

In addition, if you lose private health coverage, you must make written application within the thirty (30) days following the event. Coverage begins the first day of the month following the loss of private health coverage. If you or your eligible dependents have a loss of coverage on the first day of the month, coverage under this *agreement* begins on the first day of that month. You or your eligible dependents will qualify for a Special Enrollment Period if each of the following conditions is met:

- The eligible person seeking coverage had other coverage at the time that he or she was first eligible for coverage under this *agreement*;
- The person waived coverage under this *agreement* due to being covered on another plan; and
- The coverage on the other plan is terminated as a result of:
 - loss of eligibility for the coverage (including as a result of legal separation, divorce, death, termination of employment, or a reduction in the number of hours of employment),
 - *employer* contributions towards such coverage being terminated, or
 - COBRA, due to continuation, is exhausted.

With a change in eligibility for Medicaid or a Children's Health Insurance Program (CHIP), you must make written application within sixty (60) days following your change in eligibility. Coverage will begin on either the first day of the month following the event or, if the event occurs on the first day of a month, coverage under this *agreement* begins on the first day of that month. You and/or your eligible dependents will qualify for a Special Enrollment Period as follows:

- you and/or your eligible dependent are terminated from Medicaid or CHIP coverage due to a loss of eligibility; or
- you and/or your eligible dependent become eligible for premium assistance, under your *employer's* coverage, through Medicaid or CHIP.

In addition, you may also be eligible for the following Special Enrollment Period if you apply within thirty (30) days following the Special Enrollment event:

- if you or your dependent lose minimum essential coverage, coverage begins the first day of the following month.

Coverage for Members who are Hospitalized on their Effective Date

If you are in the *hospital* on your effective date of coverage, health care services related to such hospitalization are covered as long as: (a) you notify us of your hospitalization within forty-eight (48) hours of the effective date, or as soon as is reasonably possible; and (b) *covered health care services* are received in accordance with the terms, conditions, exclusions and limitations of this *agreement*. As always, *benefits* paid in such situations are subject to the Coordination of benefits provisions described in Section 6.0.

2.3 How to Add or Remove Coverage for Family Members

You must notify your *employer* if you want to add family *members* according to the provisions described above in Section 2.2.

If you want to remove family *members* from your coverage, you must notify your *employer* in advance of the requested removal date and your *employer* must send notification to us.

2.4 When Your Coverage Ends

When We End This Agreement

Coverage under this *agreement* is guaranteed renewable. It can be canceled for the following reasons.

This *agreement* will end:

- if you leave your place of work;
- if you decide to discontinue coverage. We must receive your notice to end this *agreement* prior to the requested date of cancellation. If we do not receive your notice prior to the requested date of cancellation, you or your *employer* may be responsible for paying another month's membership fees;
- if you or your *employer* does not pay any required membership fees within thirty-one (31) days of the date they are due. If your *employer* does not pay the required fees, the termination will be effective five (5) days after we mail you a notice of discontinuance;
- if you cease to be an *eligible person*;
- if we cease to offer this type of coverage;
- if your *employer* contracts with another insurer or entity to provide or administer benefits for the *covered health care services* provided by this *agreement*, your group's agreement with us will end. You will NOT be offered membership in our direct pay plan;

if fraud is determined by us. Fraud includes, but is not limited to, misuse of your identification card (ID card) and any intentional misrepresentation of a material fact made by you, or on your behalf, that affects your coverage. Fraud may result in retroactive termination. You will be responsible for all costs incurred by Blue Cross & Blue Shield of Rhode Island due to the fraud. Blue Cross & Blue Shield of Rhode Island may decline reinstatement under your group coverage, or any other coverage that may become available in the future.

This *agreement* will end for a covered dependent if the dependent no longer qualifies as an eligible dependent.

If this *agreement* terminates for one of the reasons listed above a termination notice will be sent to you thirty (30) days before the termination date. The notice will indicate the reason why this *agreement* ended.

When your coverage ends, you will be entitled to apply for direct pay membership from Blue Cross & Blue Shield of Rhode Island or through HealthSource RI. You must meet the eligibility

requirements. We must receive an application and membership fees within sixty (60) days from the date your group membership ends. If you do not reside in Rhode Island, you do not qualify to enroll in our direct pay plans. You may be able to obtain coverage through an insurance company in the state in which you reside.

Retroactive Cancellations

Rescind/Rescission means a cancellation or discontinuance of coverage that has a retroactive effect. A cancellation is not a rescission if it:

- only has a prospective effect (as described above); or
- applies retroactively to the extent that such cancellation is due to the failure to timely pay premiums.

We may rescind your coverage if you or your dependents commit fraud. Fraud includes, but is not limited to, intentional misuse of your identification card (ID card) or intentional misrepresentation of material fact. Any benefit paid in the past will be voided. You will be responsible to reimburse us for all costs and claims paid. We must provide you a written notice of a rescission at least 30-days in advance. This notice will provide you the opportunity to appeal this decision. Please see Section 5.1 – Adverse Benefit Determination.

Except for non-payment, we will not contest this policy after it has been in force for a period of two years from the later of the plan effective date or latest reinstatement date.

2.5 Continuation of Coverage

If your coverage is terminated, you may be eligible to continue your coverage in accordance with state or federal law.

Continuation of Coverage According to State Law

If your employment is terminated because of involuntary layoff or death, or as a result of the workplace ceasing to exist, or the permanent reduction in size of the workforce, the *benefits* of this agreement may be continued in accordance with Rhode Island General Laws c. 27-19.1, provided that you continue to pay the applicable premiums. The period of this continuation will be for up to eighteen (18) months from your termination date, but in any event not to exceed the shorter of the period which represents the period of continuous employment preceding termination with your *employer*. The continuation period will end for any person covered under your policy on the date such person becomes employed by another group and eligible for benefits under another group *plan*.

Extended Benefits

If you are totally disabled on the day your *employer's* agreement ends and you require continued care, your coverage will continue for twelve (12) months if:

- the service provided is listed as a covered benefit under this agreement; AND
- the care you receive relates to or arises out of the disability you had on the day this agreement ended.

Extended *benefits* apply ONLY to the *subscriber* who is totally disabled. If you desire to receive coverage for continued care upon termination of this agreement, you must provide us with proof that you are totally disabled. We will make a determination whether your condition constitutes a total disability and you will have the right to appeal our determination or to take legal action as described in Section 7.0.

Your coverage will NOT be continued if you become eligible for coverage under another agreement.

Continuation of Coverage According to Federal Law

If coverage under this *agreement* for you or your covered dependents is terminated and your coverage was made available through the group health *plan* of an *employer* of 20 or more employees, you may continue to be eligible for coverage according to federal law. This law is the Consolidated Omnibus Budget Reconciliation Act of 1986 as amended from time to time (“*COBRA*”). Your *employer* is responsible for making *COBRA* coverage available to you, and for complying with all of *COBRA*’s requirements. The information provided below is a general summary of the *COBRA* requirements in place when this *agreement* was drafted and should not be relied upon when making coverage decisions. You should contact your *employer* if you have any questions about *COBRA*.

Qualifying Events: In order to be eligible for *COBRA* continuation, you need to have experienced a Qualifying Event. A Qualifying Event is one of the events listed below which would result in loss of coverage if not for the *COBRA* continuation:

- (a) The death of the covered employee.
- (b) The termination (other than by reason of such employee’s gross misconduct), or reduction of hours, of the covered employee’s employment.
- (c) The divorce or legal separation of the covered employee from the employee’s spouse.
- (d) The covered employee becoming entitled to *benefits* under (enrolled in) Medicare.
- (e) A dependent child ceasing to be a dependent child under the generally applicable requirements of the *agreement*.
- (f) A bankruptcy proceeding with respect to the *employer* from whose employment the covered employee retired at any time. In the case of a bankruptcy, a loss of coverage includes a substantial elimination of coverage within one year before or after the date of commencement of the proceeding.
- (g) Employees who leave civilian employment positions to perform active duty military service in the United States Uniformed Services.

Election: If you are eligible for *COBRA* continuation and you experience a Qualifying Event, you must make an election with your *employer* for *COBRA* continuation coverage to begin. Your *employer* will contact you and provide you with an opportunity to elect *COBRA* continuation if you would lose coverage due to (a), (b), (d), or (f) above. If you experience the event listed in (c), (e), or (g) you must notify your *employer* within 60 days in order for your *employer* to send election forms.

Premium: You must pay premiums in order to continue to be covered. *COBRA* continuation coverage is generally at 102% of the applicable premium, or 150% of the applicable premium during the period of extended continuation due to disability as described below. Your *employer* will notify you of the specific applicable premium.

Duration of Coverage: *COBRA* continuation may continue until the earlier of the following events:

1. The date on which the maximum period of coverage is exhausted. The maximum periods of coverage are:
 - 18 Months if *COBRA* continuation is available due to Qualifying Event (b).

- 24 months while serving active duty military service if *COBRA* continuation is available due to Qualifying Event (g).
 - 36 Months if *COBRA* continuation is available due to Qualifying Events (a), (c), (d), (e), or (f).
 - Extension for disability: In the case you or one of your dependents is determined, under title II or XVI of the Social Security Act, to have been disabled at any time during the first 60 days of continuation coverage, the maximum period may be extended from 18 months to 29 months (with respect to you and all of your covered dependents). To qualify for this extension you must provide a copy of the Social Security ruling letter to the *employer* within 60 days of receipt, but prior to the expiration of the 18 months.
2. The date on which the *employer* ceases to provide any group health *plan* to any employee.
 3. The date on which coverage ceases due to the failure to pay any required premium when due.
 4. The date on which the covered person becomes covered on another group health *plan* that does not contain a pre-existing conditions clause for which the covered person does not have sufficient creditable coverage.
 5. The date on which the covered person becomes entitled to (enrolled in) Medicare coverage.
 6. In the event coverage is extended for up to 29 months due to disability, the first day of the month during such period of extension in which the covered person is determined to no longer be disabled.

If you have any questions regarding *COBRA* continuation, you are encouraged to contact your *employer*.

3.0 COVERED HEALTH CARE SERVICES

We agree to provide coverage for *medically necessary covered health care services* listed in this *agreement*. If a service or category of service is not specifically listed as covered, it is not covered under this *agreement*. Only services that we have reviewed and determined are eligible for coverage under this *agreement* are covered. All other services are not covered. See Section 1.2 for how we identify *new services* and our guidelines for reviewing and making coverage determinations.

We only cover a service listed in this *agreement* if it is *medically necessary*. We review medical necessity in accordance with our medical policies and related guidelines. The term *medically necessary* is defined in Section 8.0 - Glossary. It does not include all medically appropriate services.

The amount of coverage we provide for each health care service differs according to whether or not the service is received:

- as an inpatient;
- as an outpatient;
- in your home;
- in a doctor's office; or
- from a pharmacy.

Also coverage differs depending on whether:

- the health care provider is a *network provider* or *non-network provider*;
- *deductibles*, *copayments*, or *maximum benefit* apply;
- you have reached your *plan year maximum out-of-pocket expense*;
- there are any exclusions from coverage that apply; or
- our *allowance* for a *covered health care service* is less than the amount of your *copayment* and *deductible* (if any). In this case, you will be responsible to pay up to our *allowance* when services are rendered by a *network provider*.

Please see the Summary of Medical Benefits to determine the *benefit limits* and amount that you pay for the *covered health care services* listed below.

Please see the Summary of Pharmacy Benefits to determine the *benefit limits* and amount that you pay for prescription drug and diabetic equipment and supplies purchased at a pharmacy.

3.1 Ambulance Services

Ground Ambulance

In accordance with Rhode Island General Law § 27-20-55, ground ambulance services are covered as listed in the Summary of Medical Benefits.

Local professional or municipal ground ambulance services are covered when it is *medically necessary* to use these services, rather than any other form of transportation, included, but not limited, to the following::

- from a hospital to home or to a skilled nursing facility or to a rehabilitation facility after being discharged as an inpatient;
- to the closest available hospital emergency room immediately in an emergency situation; or

- from a physician's office to an *emergency* room.

Our *allowance* for the ground ambulance includes the services rendered by an emergency medical technician or paramedic, drugs, supplies and cardiac monitoring.

Air and Water Ambulance

Medically necessary air and water ambulance services are covered up to the *maximum benefit limit* as shown in the Summary of Medical Benefits. When you receive services from a *network provider* you are responsible to pay the *deductible* and *copayment* (if any), and the difference between our *allowance* and the *maximum benefit limit*. You are responsible to pay up to the total *charge* when a *non-network provider* renders air or water ambulance services.

Air ambulance service means transportation by a helicopter or fixed wing plane. The aircraft must be a certified ambulance. The crew, maintenance support crew and aircraft must meet the certification requirements and hold a certificate for air ambulance operators under Part 135 of the Federal Aviation Administration (FAA) regulations.

Water ambulance means transportation by a boat. The boat must be specially designed and equipped for transporting the sick or injured. It must also have such other safety and lifesaving equipment per state or local regulation.

Use of an air or water ambulance is *medically necessary* when the time needed to move a patient by land, or the instability of transportation by land, may threaten a patient's condition or survival. It is also *medically necessary* if the proper equipment needed to treat the patient is not available on a ground ambulance.

The patient must be transported for treatment to the nearest facility that can provide a level of care for the patient's illness. It must have available the type of physician or physician specialist needed to treat the patient's condition.

We will only cover air and water ambulance services originating and ending in the United States and its territories. Our *allowance* for the air or water ambulance includes the services rendered by an emergency medical technician or paramedic, drugs, supplies and cardiac monitoring.

Related Exclusions

This *agreement* does NOT provide coverage for:

- air or water ambulance transportation unless the destination is an acute care hospital. (Some examples of non-covered air or water ambulance services include transport to a physician's office, nursing facility, or a patient's home); and
- transport from cruise ships when not in United States waters.

3.2 Autism Services

This *agreement* provides coverage for the following services for the treatment of autism spectrum disorders as stated in the Summary of Medical Benefits and Summary of Pharmacy Benefits:

- Applied behavior analysis when:
 - provided and/or supervised by an individual licensed by the state in which the service is rendered including:
 - a. a licensed applied behavior analyst; or

- b. a licensed applied behavior assistant analyst under the supervision of a licensed applied behavior analyst; or
- c. a psychologist with equivalent experience as an applied behavior analyst or a psychologist practicing within their scope of practice.

Preauthorization is recommended for applied behavior analysis. See the Summary of Medical *Benefits* and Summary of Pharmacy *Benefits* for the amount that you pay.

- Physical therapy, occupational therapy, speech therapy, psychological and psychiatric services, and prescription drugs.

When physical therapy, occupational therapy and speech therapy services are rendered as part of the treatment of autism spectrum disorder, a *benefit limit* will not apply to these services and *preauthorization* is not required. For services not rendered as part of the treatment of autism spectrum disorder, please refer to the relevant sections of this *agreement* for any *benefit limits* or *preauthorization* recommendations.

We may require submission of medical records or a treatment plan, including the frequency and duration of treatment.

Related Exclusions

- This *agreement* does not provide coverage for applied behavioral analysis when rendered by a *provider* that does not meet the credentialing/licensing requirements noted above.

This coverage for autism spectrum disorders does not affect any obligation of a school district, a state or other governmental entity to provide services to an individual under an individualized family service *plan*, an individualized education *program*, or similar services required under state or federal law. This means that, for services related to autism spectrum disorders, no *benefits* are provided for services that are furnished by school personnel.

3.3 Behavioral Health Services

Behavioral health services are the evaluation, management, and treatment of a patient with a mental health or *substance use* disorder.

For the purposes of this *agreement* mental health disorder shall be defined as mental illness. Mental illness means:

- Any mental disorder and substance use disorder that is listed in the most recent revised publication or the most updated volume of either the Diagnostic and Statistical Manual of Mental Disorders (DSM) published by the American Psychiatric Association or the International Classification of Disease Manual (ICD) published by the World Health Organization;
- Substance use disorder does not include addiction to or abuse of tobacco and/or caffeine.

This *agreement* provides parity in the *benefits* for behavioral health services. This means that coverage of *benefits* for mental health and *substance use* disorders is generally comparable to, and not more restrictive than, the *benefits* for physical health.

Financial requirements (such as *deductibles* or *copayments*) or quantitative treatment limits (such as visit *benefit limits*) that may apply to behavioral health services within a category

(such as *inpatient* services received from a *network provider*) are not more restrictive than those that apply to most of the medical *benefits* within that same category.

This *agreement* applies different levels of financial requirements to different tiers of prescription drug without regard to whether a prescription drug is generally prescribed for physical or mental health and/or *substance use* disorders. These factors include cost, efficacy, generic versus brand name, and mail order versus retail pharmacy pick-up. See Section 3.28 - Prescription Drugs.

The *agreement* may impose a variety of limits affecting the scope or duration of *benefits* that are not expressed numerically. An example of these types of treatments limit is *preauthorization*. *Preauthorization*, concurrent *utilization review*, and *retrospective utilization review* is applied to behavioral health services in the same way as medical *benefits*. Mental disorders are covered under Section A. **Mental Health Services**. Substance use disorders are covered under Section B. **Substance Use Disorder Treatment**.

Asthma Education

Medically necessary asthma education sessions are covered when the service is prescribed by a physician and performed by a certified asthma educator. The asthma education session can be rendered in a *doctor's* office, *outpatient* department of a *hospital*, or in a *hospital* based clinic.

Other asthma related *covered health care services* including, but not limited to, office visits rendered by a *provider* (other than a certified asthma educator), medical equipment and supplies, and prescription drugs are subject to the benefit rules that apply to the specific services. For information about office visits, see Section 3.24 - Office Visits. For medical equipment and supplies, see Section 3.9 - Durable Medical Equipment, Medical Supplies, Enteral Formula or Food, and Prosthetic Devices. See the Summary of Medical Benefits for *benefit limits* and the amount that you pay. For prescription drugs, see the Pharmacy Benefits section and the Summary of Pharmacy Benefits.

3.12 Emergency Room Services

We cover *hospital* emergency room services only for an *emergency*. See Section 8.0 for the definition of an *emergency*. If your condition needs immediate or urgent, but non-*emergency* care, contact your *doctor* or use an *urgent care center*.

If you have an accident or medical *emergency* that needs emergency room services and your first visit to the emergency room occurs within twenty-four (24) hours of the accident or onset of symptoms, this *agreement* covers the *hospital* emergency room services and the *doctor's* services.

Bandages, crutches, canes, collars, and other supplies incidental to your treatment in the emergency room are covered as part of our *allowance* for the emergency room services.

Some additional services provided in the emergency room (such as an MRI, MRA, or physician consultations) are not considered part of the emergency room *allowance* and may require additional copayments. The amount that you pay is based on the type of service being rendered. For surgery services provided outside the emergency room see Section 3.35 - Surgery Services. For a specialist exam, see Section 3.24 - Office Visits. For diagnostic imaging, lab and machine tests see Section 3.37. See the Summary of Medical Benefits for *benefit limits* and the amount that you pay for each type of service

If you are admitted to a *non-network hospital* from the emergency room, BCBSRI recommends you obtain *preauthorization* to receive *inpatient* services. Call our Customer Service Department at (401) 459-5000 or 1-800-639-2227 with any questions you have about your coverage.

Follow-up care (such as suture removal, fracture care or wound care) should be obtained from your primary care physician or a specialist.

Related Exclusions

This *agreement* does NOT cover:

- *hospital* or other facility's services for treatment received in an emergency room for a non-*emergency* condition;
- follow-up visits to the emergency room;
- dental injuries incurred as a result of biting or chewing.

3.13 Experimental/Investigational Services

This *agreement* only provides coverage for certain *experimental/investigational* services as required by:

- Rhode Island General Laws Sections § 27-20-60 entitled "Coverage for individuals participating in approved clinical trials", and
- Rhode Island General Laws Title 27, Chapter 55, entitled "Off Label Use of Prescription Drugs".

In accordance with Rhode Island General Law §27-20-60, this *agreement* provides coverage for *members* participating in approved clinical trials.

You are qualified to participate in a clinical trial if:

- you are eligible, according to the trial protocol, and
- a *network provider* has concluded that your participation would be appropriate; or

- you provide medical and scientific information establishing that your participation in such trial would be appropriate.

RIGL § 27-20-60 describes what an approved clinical trial is. In summary, it means a phase I, phase II, phase III, or phase IV clinical trial that is being done to prevent, detect or treat cancer or a life-threatening disease or condition (a disease or condition from which the likelihood of death is probable unless the course of the disease or condition is interrupted).

To qualify to be a clinical trial it must:

- be federally funded, or
- be conducted under an investigational new drug application reviewed by the Food and Drug Administration, or
- be a drug trial that is exempt from having such an investigational new drug application.

If a *network provider* is participating in a clinical trial, and the trial is being conducted in the State in which you reside, then you may be required to participate in the trial through the *network provider*.

Coverage under this *agreement* includes routine patient costs for *covered health care services* furnished in connection with participation in the trial. These include *covered health care services* that are typically covered for a patient who is not enrolled in a clinical trial.

The amount you pay for is based on the type of service. For information about office visits, see Section 3.24 - Office Visits. For surgical procedures see Section 3.35 - Surgery Services. For lab, radiology, and machine tests see Section 3.37 - Tests, Imaging, and Labs. See the Summary of Medical Benefits for *benefit limits*. For prescription drugs, see Section 3.28.

In a clinical trial, this *agreement* does not cover:

- the investigational item, device, or service itself; or
- items or services provided solely to satisfy data collection and that are not used in the direct clinical management; or
- a service that is clearly inconsistent with widely accepted standards of care.

RIGL § 27-55 explains how coverage under this *agreement* is available for off label prescription drugs for cancer or disabling or life-threatening chronic disease if the prescription drug is recognized as a treatment for cancer or disabling or life-threatening chronic disease in accepted medical literature.

Related Exclusions

This *agreement* does NOT cover any treatments, procedures, facilities, equipment, drugs, devices, supplies, or services that are *experimental* or *investigative* except as described above.

Treatments, procedures, facilities, equipment, drugs, devices, supplies, or services will be recognized as having been proven effective in clinical medicine only if one of the following apply:

- Final approval for the use of a specific service for a specific condition from the appropriate governmental regulatory body; OR

- Demonstrated, reliable evidence based upon an entry in at least one of the three standard reference compendia (shown in Section 3.12); OR
- Sound scientific studies published in authoritative, peer reviewed medical journals that:
 - show statistically significant outcomes about the effectiveness of the service, and
 - permit a consensus of opinion that the service improves the *member's* net health outcome, and
 - show it is as beneficial as any established alternatives, and
 - show that the improvement is attainable outside the *investigational* setting; OR
- The determination by an expert medical consultant retained by us, for the purpose of reviewing a particular service, that the service is not *experimental/investigational* for that particular *member's* case.

A service is considered *experimental/investigational*, and therefore excluded if one or more of the following circumstances are true:

- Is under study to determine the maximum tolerated dose, its toxicity, its safety, its efficacy, or its efficacy as compared with a standard means of treatment or diagnosis; or
- The prevailing opinion among experts about the service is that further studies or clinical trials are necessary to determine its maximum tolerated dose, its toxicity, its safety, its efficacy, or its efficacy as compared with the standard means of treatment or diagnosis; or
- The current belief in the pertinent specialty of the medical profession in the United States is that the service or supply should not be used for the diagnosis or indications being requested outside of clinical trials or other research settings because it requires further evaluation for that diagnosis or indications. We will determine the applicability of this criterion based on:
 - Published reports in authoritative, peer-reviewed medical literature; AND
 - Reports, publications, evaluations, and other sources published by government agencies, such as the National Institutes of Health, the FDA, and the Agency for Healthcare Research and Quality; or
- If the benefit in question is a drug, a device, or other supply that is subject to approval by the FDA, and at least one of the following criteria apply:
 - it has not received FDA approval; or
 - it has limited FDA approval under regulations such as Treatment Investigational New Drugs; or
 - it has FDA approval but the indication for the drug or device, or the dosage, is not an accepted off-label use. We will judge this criterion through review of reports published in authoritative peer-reviewed United States medical literature OR entries in one or more of the following drug compendia:
 - i. The AMA Drug Evaluations;
 - ii. The American Hospital Formulary Service Drug Information;
 - iii. The U.S. Pharmacopoeia Dispensing Information; or
- The Institutional Review Board (IRB) of the *provider* of the service or supply acknowledges that use of it is *experimental/investigational* and is subject to the approval of the IRB; or
- The *provider* IRB requires the patient (or parent or guardian) to give an informed consent for the service or supply that states the service or supply is *experimental/investigational*, or federal law requires such a consent; or

- The research protocols related to the requested service or supply state or show the service or supply is *experimental/investigational*.

We will make a determination whether a service is *experimental/investigational*. If you disagree with our determination, you have the right to appeal or to take legal action as described in Section 7.0.

This agreement does not cover services for a newborn child who remains hospitalized after thirty (30) days and has not been added to a family membership. See Section 2.2 - When Your Coverage Begins - Special Enrollment.

Statement of Rights Under the Newborns' and Mothers' Health Protection Act

Under federal law, group health plans and health insurance issuers offering group health insurance coverage generally may not restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a delivery by cesarean section. However, the plan or issuer may pay for a shorter stay if the attending provider (e.g., your physician, nurse midwife, or physician assistant), after consultation with the mother, discharges the mother or newborn earlier.

Also, under federal law, plans and issuers may not set the level of benefits or out-of-pocket costs so that any later portion of the 48-hour (or 96-hour) stay is treated in a manner less favorable to the mother or newborn than any earlier portion of the stay.

In addition, a plan or issuer may not, under federal law, require that a physician or other health care provider obtain authorization for prescribing a length of stay of up to 48 hours (or 96 hours).

Inpatient

In accordance with Rhode Island General Law §27-20-17.1, this *agreement* cover a minimum *inpatient hospital* stay of forty-eight (48) hours from the time of a vaginal delivery and ninety-six (96) hours from the time of a cesarean delivery.

- If the delivery occurs in a hospital, the hospital length of stay for the mother or newborn child begins at the time of delivery (or in the case of multiple births, at the time of the last delivery).
- If the delivery occurs outside a hospital, the hospital length of stay begins at the time the mother or newborn is admitted as a hospital inpatient in connection with childbirth.

Any decision to shorten these stays shall be made by the attending physician in consultation with and upon *agreement* with you. In those instances where you and your infant participate in an early discharge, you will be eligible for:

- Up to two (2) home care visits by a skilled, specially trained registered nurse for you and/or your infant, (any additional visits must be reviewed for medical necessity); and
- A pediatric office visit within twenty-four (24) hours after discharge.

See Section 3.24 - Office Visits for coverage of home and office visits.

We cover *hospital services* provided to you and your newborn child. Your newborn child is covered for services required to treat injury or sickness. This includes the necessary care and treatment of medically diagnosed congenital defects and birth abnormalities as well as routine well-baby care.

You must file all *claims* within one *calendar year* of the date you receive a *covered health care service*. *Member* submitted *claims* that arrive after this deadline are invalid unless:

- it was not reasonably possible for you to file your *claim* prior to the filing deadline; AND

Any payments to you or the provider fulfill any responsibility of either the plan or Blue Cross & Blue Shield of Rhode Island under this *agreement*. Your *benefits* are personal to you and cannot be assigned, in whole or in part, to another person or organization.

Network providers file *claims* for you and must do so within one hundred and eighty (180) days of providing a *covered health care service* to you.

Non-network providers may or may not file *claims* for you. If the *non-network provider* does not file the *claim* on your behalf, you will need to file the *claim* yourself. To file a *claim*, please send us an itemized bill including the following:

5.1 How Network Providers Are Paid

This *agreement* pays *network providers* directly for *covered health care services*. You are responsible for *copayments*, *deductibles*, and the difference between the *maximum benefit* and our *allowance*, if any, which may apply to a *covered health care service*. The copayments and deductibles you are responsible for are determined at the date of service and will not be retroactively adjusted for payments we make to *providers* under *provider incentive*, risk-sharing, *care coordination*, *value-based* or similar programs. *Network providers* agree not to bill, charge, collect a deposit from, or in any way seek reimbursement from you for a *covered health care service*, except for the *copayments*, *deductibles*, and the difference between the *maximum benefit* and our *allowance*, if any, which may apply to a *covered health care service*.

It is your obligation to pay a *network provider* your *copayment*, *deductible*, and the difference between the *maximum benefit* and our *allowance*. If you do not pay the *network provider*, the *provider* may decline to provide current or future services to you. The *provider* may pursue payment from you. See Section 1.13 - Your Responsibility to Pay Your Providers for more information.

Not all of the individual *providers* at a *network* facility will be *network providers*. It is your responsibility to make sure that each *provider* from whom you receive care is in the *network*. However, if you receive certain types of services at a *network* facility, and there are *covered health care services* provided with those services by a *non-network provider* outside of your control, we will reimburse you for those *covered health care services* based upon our *allowance* at the *network* level of *benefits* when the services have been rendered:

- during an *inpatient* admissions at a *network* facility under the supervision of a *network* physician;
- while receiving *outpatient* services performed at a *network* facility under the supervision of a *network* physician; and
- while receiving *emergency* room services at a *network* facility.

Out-of-Network authorization requests to seek *covered health care services* from a *non-network provider* are only approved when a *covered health care service* cannot be provided by a *network provider*. When this happens, please call our Customer Service Department to discuss the options and they will assist you with the process of obtaining a network authorization. Services rendered with an approved network authorization will be paid based on *network provider benefit* level, as shown in the Summary of Benefits table. You will be responsible to pay the difference between the *maximum benefit* and our *allowance*, and any applicable *copayments* and *deductibles* (if any). If we approve a network authorization for you to receive services from a *non-network provider*, we reimburse you or the *non-network provider* up to the *maximum benefit* or our *allowance*, less any *copayments* and *deductibles* (if any), which may apply to a *covered health care service*.

5.2 How Non-Network Providers Are Paid

You are responsible for paying all *charges* from a *non-network provider*. You are liable for the difference between the amount that the *non-network* health care *provider* bills and the payment made for covered health care services. The copayments and deductibles you are responsible for are determined at the date of service and will not be retroactively adjusted for payments we make to *providers* under *provider incentive*, risk-sharing, *care coordination*, *value-based* or similar programs. Generally, we send reimbursement to you; but, we reserve the right to reimburse a *non-network provider* directly.

We reimburse you or a *non-network provider* up to the *maximum benefit* or our *allowance*, less any *copayments* and *deductibles* which may apply to a *covered health care service*. We reimburse *non-network provider* services using the same guidelines used to pay *network providers*. If an *allowance* for a specific *covered health care service* cannot be determined by reference to a fee schedule, reimbursement will be based upon a calculation that reasonably represents the amount paid to *network providers*.

Generally, our payment for *non-network provider* services will not be more than the amount that is paid for *network provider* services. Payments made to you are personal. You cannot transfer or assign any of your right to receive payments under this *agreement* to another person or organization.

5.3 Coverage for Services Provided Outside of the Service Area (BlueCard) Out of Area Services

Overview

BCBSRI has a variety of relationships with other Blue Cross and/or Blue Shield Licensees. Generally, these relationships are called “Inter-Plan Arrangements.” These Inter-Plan Arrangements work based on rules and procedures issued by the Blue Cross Blue Shield Association (“Association”). Whenever you access healthcare services outside the geographic area BCBSRI serves the claim for those services may be processed through one of these Inter-Plan Arrangements. The Inter-Plan Arrangements are described below.

When you receive care outside of BCBSRI service area, you will receive it from one of two kinds of providers. Most providers (“participating providers”) contract with the local Blue Cross and/or Blue Shield Plan in that geographic area (“Host Blue”). Some providers (“nonparticipating providers”) don’t contract with the Host Blue. We explain below how we pay both kinds of providers.

Inter-Plan Arrangements Eligibility – Claim Types

All claim types are eligible to be processed through Inter-Plan Arrangements, as described above, except for all Dental Care Benefits, and those Prescription Drug Benefits or Vision Care Benefits that may be administered by a third party contracted by us to provide the specific service or services.

BlueCard® Program

Under the BlueCard® Program, when you receive covered health care services within the geographic area served by a Host Blue, BCBSRI will remain responsible for doing what we agreed to in the contract. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating providers.

When you receive covered health care services outside our service area and the claim is processed through the BlueCard Program, the amount you pay for covered health care services is calculated based on the lower of:

- the billed covered charges for your covered services; or
- the negotiated price that the Host Blue makes available to BCBSRI.

Often, this “negotiated price” will be a simple discount that reflects an actual price that the Host Blue pays to your healthcare provider. Sometimes, it is an estimated price that takes into account special arrangements with your healthcare provider or provider group that may include types of settlements, incentive payments and/or other credits or charges. Occasionally, it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing also take into account adjustments to correct for over- or underestimation of past pricing of claims, as noted above. However, such adjustments will not affect the price we have used for your claim because they will not be applied after a claim has already been paid.

Special Cases: Value-Based Programs

BlueCard® Program

If you receive covered health care services under a Value-Based Program inside a Host Blue's service area, you will not be responsible for paying any of the Provider Incentives, risk-sharing, and/or Care Coordinator Fees that are a part of such an arrangement, except when a Host Blue passes these fees to us through average pricing or fee schedule adjustments.

The following defined terms only apply to Section 5.3:

- *Care Coordinator Fee* is a fixed amount paid by us to providers periodically for *Care Coordination* under a *Value-Based Program*.
- *Care Coordination* is organized, information-driven patient care activities intended to facilitate the appropriate responses to an enrolled *member's* healthcare needs across the continuum of care.
- *Value-Based Program (VBP)* is an outcomes-based payment arrangement and/or a *coordinated care* model facilitated with one or more local *providers* that is evaluated against cost and quality metrics/factors and is reflected in *provider* payment.
- *Provider Incentive* is an additional amount of compensation paid to a healthcare *provider* by us, based on the *provider's* compliance with agreed-upon procedural and/or outcome measures for a particular group of covered persons.

Inter-Plan Programs: Federal/State Taxes/Surcharges/Fees

Federal or state laws or regulations may require a surcharge, tax or other fee that applies to insured accounts. If applicable, we will include any such surcharge, tax or other fee as part of the claim charge passed on to you.

Nonparticipating Providers Outside Our Service Area

1. Subscriber Liability Calculation

When covered health care services are provided outside of our service area by nonparticipating providers, the amount you pay for such services will normally be based on either the Host Blue's nonparticipating provider local payment or the pricing arrangements required by applicable state law. In these situations, you may be responsible for the difference between the amount that the nonparticipating provider bills and the payment we will make for the covered health care services as set forth in this paragraph. Federal or state law, as applicable, will govern payments for out-of-network emergency services.

2. Exceptions

In certain situations, we may use other payment methods, such as billed covered charges, the amount we would pay to a local non-network provider or a special negotiated payment to determine the amount we will pay for services provided by nonparticipating providers. In these situations, you may be liable for the difference between the amount that the nonparticipating provider bills and the payment we will make for the covered health care services as set forth in this paragraph.

BlueCard Worldwide® Program

If you are outside the United States (hereinafter "BlueCard service area"), you may be able to take advantage of the BlueCard Worldwide® Program when accessing covered health care services/Covered Services. The BlueCard Worldwide Program is unlike the BlueCard Program available in the BlueCard service area in certain ways. For instance, although the BlueCard Worldwide Program assists you with accessing a network of inpatient, outpatient and professional providers, the network is not served by a Host Blue. As such, when you receive

care from providers outside the BlueCard service area, you will typically have to pay the providers and submit the claims yourself to obtain reimbursement for these services.

If you need medical assistance services (including locating a doctor or hospital) outside the BlueCard service area, you should call the BlueCard Worldwide Service Center at 1.800.810.BLUE (2583) or call collect at 1.804.673.1177, 24 hours a day, seven days a week. An assistance coordinator, working with a medical professional, can arrange a physician appointment or hospitalization, if necessary.

- **Inpatient Services**

In most cases, if you contact the BlueCard Worldwide Service Center for assistance, hospitals will not require you to pay for covered inpatient services, except for your cost-share amounts/deductibles, coinsurance, etc. In such cases, the hospital will submit your claims to the BlueCard Worldwide Service Center to begin claims processing. However, if you paid in full at the time of service, you must submit a claim to receive reimbursement for [covered healthcare services/Covered Services. Preauthorization is recommended for non-emergency inpatient services.

- **Outpatient Services**

Physicians, urgent care centers and other outpatient providers located outside the BlueCard service area will typically require you to pay in full at the time of service. You must submit a claim to obtain reimbursement for covered health care services. Preauthorization is recommended for outpatient services.

- **Submitting a BlueCard Worldwide Claim**

When you pay for [covered health care services outside the BlueCard service area, you must submit a claim to obtain reimbursement. For institutional and professional claims, you should complete a BlueCard Worldwide International claim form and send the claim form with the provider's itemized bill(s) to the BlueCard Worldwide Service Center (the address is on the form) to initiate claims processing. Following the instructions on the claim form will help ensure timely processing of your claim. The claim form is available from BCBSRI, the BlueCard Worldwide Service Center or online at www.bluecardworldwide.com. If you need assistance with your claim submission, you should call the BlueCard Worldwide Service Center at 1.800.810.BLUE (2583) or call collect at 1.804.673.1177, 24 hours a day, seven days a week.

6.0 HOW WE COORDINATE YOUR BENEFITS WHEN YOU ARE COVERED BY MORE THAN ONE PLAN

Introduction

This Coordination of Benefits ("COB") provision applies when you or your covered dependents have health care benefits under more than one *plan*.

We follow the COB rules of payment issued by the Rhode Island Office of the Health Insurance Commissioner (OHIC) in Regulation 48 and by the National Association of Insurance Commissioners (NAIC). The COB rules have been adopted by the Rhode Island Office of the Health Insurance Commissioner (OHIC). From time to time these rules may change before we issue a revised Subscriber Agreement. We use the COB regulations in effect at the time of coordination to determine benefits available to you.

If this provision applies, the order of benefit determination rules as stated in this section will determine whether we pay benefits before or after the *benefits* of another plan.

6.1 Definitions

The following definitions listed in this section apply only to Section 6 of this Subscriber Agreement:

ALLOWABLE EXPENSE means the necessary, reasonable and customary item of expense for health care which is:

- covered at least in part under one or more *plans* covering the person for whom the *claim* is made; AND
- incurred while this *agreement* is in force.

When a *plan* provides health care benefits in the form of services, the reasonable cash value of each service is considered as both an *allowable expense* and a benefit paid.

Vision care services covered under other plans are not considered an *allowable expense* under this *agreement*.

BENEFITS means any treatment, facility, equipment, drug, device, supply or service for which you receive reimbursement under a *plan*.

CLAIM means a request that benefits of a *plan* be provided or paid.

PLAN means any health insurance benefit package provided by an organization as defined in Section 8.0 – Glossary.

PRIMARY PLAN means a plan whose benefits for a person's health care coverage must be determined without taking the existence of any other plan into consideration.

SECONDARY PLAN means a *plan* which is not a *primary plan*.

6.2 When You Have More Than One Plan with Us

If you are covered under more than one agreement with us, you are entitled to covered benefits under both plans. If one agreement has a benefit that the other(s) does not, you are entitled to coverage under the agreement that has the benefit. The total payments you receive will never be more than the total cost for the services you receive.

6.3 When You Are Covered By More Than One Insurer

Covered benefits provided under any other plan will always be paid before the *benefits* under our *plan* if that insurer does not use a similar coordination of benefits rule to determine coverage. The plan without the coordination of benefits provision will always be the *primary* plan.

Benefits under another plan include all *benefits* that would be paid if *claims* had been submitted for them.

If you are covered by more than one plan and both insurers use similar coordination of benefits rules to determine coverage, we use the following conditions to determine which plan covers you first:

- whether you are the main *subscriber* or a dependent;
- if married, whether you or your spouse was born earlier in the year; the length of time each spouse has been covered;
- if a parental custody or divorce decree applies; or
- if Medicare is your other coverage. If so, then Medicare guidelines apply.

(1.) Non-Dependent/Dependent - If you are covered under a plan and you are the main *subscriber*, the *benefits* of that plan will be determined before the *benefits* of a *plan* which covers you as a dependent. If, however, you are a Medicare beneficiary, then, in some instances, Medicare will be Secondary and the plan which covers you as the main *subscriber* or as a dependent will provide the benefits first.

If one of your dependents covered under this *plan* is a student, and has additional coverage through a student plan, then the *benefits* from the student plan will be determined before the *benefits* under this *plan*.

(2.) Dependent Child/Parents Not Separated or Divorced - If dependent children are covered under separate plans of more than one person (i.e. "parents" or individuals acting as "parents"), the *benefits* of the plan covering the parent born earlier in the year will be determined before those of the parent whose birthday falls later in the year. If both parents have the same birthday, the *benefits* of the plan which covered the parent longer are determined before those of the plan which covered the other parent for a shorter period of time. The term "birthday" only refers to the month and day in a *calendar year*, not the year in which the person was born. If the other plan does not determine *benefits* according to the parents' birth dates, but by parents' gender instead, the other plan's gender rule will determine the order of *benefits*.

(3.) Dependent Child/Parents Separated or Divorced - If two or more plans cover a person as a dependent child of divorced or separated parents, the plan responsible to cover *benefits* for the child will be determined in the following order:

- first, the plan of the parent with custody of the child;

- then, the plan of the spouse of the parent with custody of the child; AND
- finally, the plan of the parent not having custody of the child.

If the terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the parent's *benefits* under that parent's plan has actual knowledge of those terms, the *benefits* of that plan are determined first and the *benefits* of the plan of the other parent are the *secondary* plan.

If the terms of a court decree state that the parents share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the plans covering the child will follow the order of benefit determination rules outlined in Section 6.3 (2) above.

(4.) Active/Inactive Employee - If you are covered under another health plan as an employee (not laid off or retired), your *benefits* and those of your dependents under that plan will be determined before *benefits* under this *plan*. The *plan* covering the active employee and dependents will be the primary *plan*. The *plan* covering that same employee as inactive (retired or laid off) will be the secondary plan for that employee and dependents.

(5.) COBRA/Rhode Island Extended Benefits (RIEB) – If this plan is provided to you under COBRA or RIEB, and you are covered under another plan as an employee, retiree, or dependent of an employee or retiree, the plan covering you as an employee, retiree or dependent of an employee or retiree will be primary and the COBRA or RIEB plan will be the secondary plan.

(6.) Longer/Shorter Length of Coverage - If none of the above rules determine the order of *benefits*, the *benefits* of the plan which covered a *member* or *subscriber* longer are determined before those of the plan which covered that person for the shorter term.

In general, if you use more *benefits* than you are covered for during a benefit period, the following formula is used to determine coverage:

The insurer covering you first will cover you up to its allowance. Then, the other insurer will cover any allowable *benefits* you use over that amount. It will never be more than the total amount of coverage that would have been provided if *benefits* were not coordinated.

$$\begin{array}{l} \text{Maximum } \textit{benefits} \text{ paid by primary insurer} \\ + \quad \text{Any remaining } \textit{allowable expense} \text{ to be paid by secondary insurer} \\ \hline \text{Total Benefits Payable} \end{array}$$

6.4 Our Right to Make Payments and Recover Overpayments

If payments which should have been made by us according to this provision have actually been made by another organization, we have the right to pay those organizations the amounts we decide are necessary to satisfy the rules of this provision. These amounts are considered *benefits* provided under this *plan* and we are not liable for them.

If we have made payments for *allowable expenses* which are more than the maximum amount needed to satisfy the conditions of this provision, we have the right to recover the excess amounts from: the person to or for whom the payments were made; any other insurers; and/or any other organizations (as we decide). As the *subscriber*, you agree to pay back any excess

Subscriber Agreement

amount, provide information and assistance, or do whatever is necessary to recover this excess amount. When determining the amount of payments made we include the reasonable cash value of any *benefits* provided in the form of services.

- we determined that you were not eligible for coverage (for example, a *rescission* of coverage occurred);

If we deny payment for a service for medical reasons, you will receive the denial in writing.

Your *doctor* may also file a *medical appeal* on your behalf. Your *doctor* can contact the Physician and Provider Service Center to start the medical appeal.

Within ten (10) business days of receipt of a written or verbal *medical appeal*, the Grievance and Appeals Unit will mail or call you to phone acknowledge of our receipt of the *medical appeal*.

You are entitled to the following levels of review when seeking a *medical appeal*.

Level 1 Review

You may file a Level 1 review by making a request for such review to us within one hundred and eighty (180) calendar days of the initial determination letter. You may do so by calling our Customer Service Department, but we strongly suggest that you submit your request in writing to ensure your request is accurately reflected. At any time during the Level 1 review (or Level 2 Review, see below), you may supply additional information by mailing it to the address listed

above. You may request copies of information relevant to your appeal (free of charge) by contacting our Grievance and Appeal Unit.

For pre-service (before services are rendered) or concurrent (during a patient's hospital stay or course of treatment) appeals, you will receive written notification of the determination on a Level 1 review within fifteen (15) calendar days of receipt of the appeal. If you are requesting reconsideration (Level 1 review) of a service that was denied after you already obtained the service (retrospectively), then you will receive written notification of our determination within fifteen (15) business days of our receipt of the appeal.

Level 2 Review

You may request a Level 2 review (preferably in writing) if our denial was upheld during the Level 1 review process. Your Level 2 review will be reviewed by a *provider* in the same or similar specialty as your treating *provider*. You must submit your request for a Level 2 review within one hundred and eighty (180) calendar days of receipt of the Level 1 determination letter. Upon request for a Level 2 review, we will provide you with the opportunity to inspect the medical file and add information to the file.

You will receive written notification of a determination on a Level 2 pre-service or concurrent review within fifteen (15) calendar days of receipt of the appeal request. If the service you are requesting review of was denied after you already obtained the service (retrospectively), you will receive written notification of our determination within fifteen (15) business days of receipt of the appeal request.

Expedited (Urgent) Review

You may ask for an expedited (urgent) appeal if:

- an urgent *preauthorization* request for health care services has been denied (See Section 1.6 – Preauthorization for additional information about urgent *preauthorization* requests);
- the circumstances are an emergency; or
- you are in an *inpatient* setting.

A review is considered emergent or urgent if, in the opinion of an individual applying the judgment of a prudent layperson possessing an average knowledge of health and medicine, applying time periods for making a non-urgent appeal determination could seriously jeopardize your life or your health or your ability to regain maximum function. Likewise, a review is considered emergent or urgent if, in the opinion of a physician with knowledge of your health condition, applying time periods for making a non-urgent claim determination would subject you to severe pain that cannot be adequately managed without the care or treatment that is the subject of the appeal.

To request you or your physician or provider must call the Grievance and Appeals Unit at (401) 459-5000 or 1-800-639-2227 or fax your request to (401) 459-5005.

An expedited appeal determination for services that have not yet been rendered (a pre-service review) will be made not later than seventy-two (72) hours or in less than seventy-two (72) hours (taking into consideration medical exigencies) from the receipt of the request.

Services that have already been rendered (retrospective review) are not eligible for expedited (urgent) review.

External Appeal

If you remain dissatisfied with the determination, you may request an external review by an outside review agency. There is no minimum dollar amount that a *claim* must be in order to file an external appeal. To request an external review you must submit your request in writing to us within four (4) months of your receipt of the determination. We will forward your request to the outside review agency within five (5) business days, or two (2) business days for an expedited external appeal.

We may charge you a filing fee up to \$25.00 per *claim* and \$75.00 per claimant per *plan year* payable to us. We are responsible for any costs and fees from the outside review agency for the external appeal, not to exceed \$75.00 per *benefit year*. We will refund you if the denial is reversed and will waive the fee if it imposes an undue hardship on you.

For all non-emergency appeals, the external appeal agency will notify you of its determination within ten (10) business days of the agency's receipt of the information.

For all emergency external appeals, the external appeals agency will notify you of its determination no later than seventy-two (72) hours from the agency's receipt of the appeal.

The determination by the outside review agency is binding upon us.

This External Appeal is voluntary. This means you may choose to participate in this level of appeal, or you may file suit in an appropriate court of law (Please see Legal Action, below).

7.4 Legal Action

If you are dissatisfied with the decision on your claim, and have complied with applicable state and federal law, you are entitled to seek judicial review. This review will take place in an appropriate court of law.

Note: *Once a member or provider receives a decision at one of the several levels of appeal (Level 1, Level 2, External, and Legal Action), the member or provider may not ask for an appeal at the same level again, unless additional information that could impact such decisions can be provided.*

Under state law, you may not begin court proceedings prior to the expiration of sixty (60) days after the date you filed your claim. In no event may legal action be taken against us later than three (3) years from the date you were required to file the claim (see Section 6.1).

For *members* covered by a group (employer sponsored) health plan, your plan may be subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Under federal law, if your plan is subject to ERISA you may have the right to bring legal action under section 502(a) of ERISA after you have exhausted all available administrative appeals. For appeals other than medical appeals, federal law requires that you pursue a final decision on an administrative appeal prior to filing suit under section 502(a) of ERISA. For medical appeals, federal law requires that you pursue a Level 2 review prior to filing a suit under section 502(a) of ERISA. You are not required to submit your claim to external review prior to filing a suit under section 502(a) of ERISA. Consult your employer to determine whether this applies to you and what your rights and obligations may be. If you are dissatisfied with the decision on

your claim, and have complied with applicable state and federal law, you are entitled to seek judicial review. This review will take place in an appropriate court of law.

7.5 Grievances Unrelated to Claims

We encourage you to discuss any *complaint* that you may have about any aspect of your medical treatment with the health care *provider* that furnished the care. In most cases, issues can be more easily resolved when they are raised when they occur. If, however, you remain dissatisfied or prefer not to take up the issue with your *provider*, you may access our *complaint* and grievance procedures.

You may also access our *complaint* and grievance procedures if you have a *complaint* about our service or about one of our employees. In order to start a grievance, please call our Customer Service Department. The Customer Service Department will log in your call and begin working towards the resolution of your *complaint*.

The grievance procedures described in this Section 7.4 do not apply to medical necessity determinations (see Section 7.3), *complaints* about payments (see Section 7.2), *claims* of medical malpractice or to allegations that we are liable for the professional negligence of any *doctor*, *hospital*, health care facility or other health care *provider* furnishing services under this *plan*.

7.6 Our Right to Withhold Payments

We have the right to withhold payment during the period of investigation on any *claim* we receive that we have reason to believe might not be eligible for coverage. We will also conduct pre-payment review on a *claim* we have reason to believe has been submitted for a service not covered under this *plan*. We will make a final decision on these *claims* within sixty (60) days after the date you filed said *claim*.

We also have the right to perform post-payment reviews of *claims*. If we determine misrepresentation was used when you filed the *claim*, or if we determine that a *claim* should not have been paid for any reason, we may take all necessary steps (including legal action) to recover funds paid to you or to a *provider*.

7.7 The Plan's Right of Subrogation and/or Reimbursement

Definitions

SUBROGATION means the *plan* can use your right to recover money from a third party that caused you to be hurt or sick. The *plan* may also recover from any insurance company (including uninsured and underinsured motorist clauses and no-fault insurance) or other party.

REIMBURSEMENT means the *plan's* right to be paid back any payments, awards or settlements that you receive from a third party. The *plan* can collect up to the amount of any benefit or any payment we made.

Subrogation

This *plan* may recover money from a third party that causes you to be hurt or sick. If that party has insurance, this *plan* may recover money from the insurance company. The *plan's* recovery will be based on the *benefit* or payment we made under this *plan*. For example, if you are hurt in a car accident and the *plan* pays for your hospital stay, the *plan* can collect the amount paid for your hospital stay from the auto insurer. If you do not try to collect money from

Subscriber Agreement

the third party who caused you to be hurt or sick, you agree that the *plan* can. The *plan* may do so on your behalf or in your name. The *plan's* right to be paid will take priority over any claim for money by a third party. This is true even if you have a claim for punitive or compensatory damages.

Reimbursement

If the *plan* gives you *benefits* or makes payment for services under this *plan* and you get money from a third party for those services, you must pay the *plan* back. This is true even if you receive the money after a settlement or a judgment. For example, if your auto insurance pays for your emergency room visit after a car accident, you must reimburse the *plan* for any *benefit* payment that was made.

The *plan* can collect the money no matter where it is or how it is designated. You must pay the *plan* back even if you do not get back the total amount of your claim against the third party. The *plan* can collect the money you receive even if it is described as a payment for something other than health care expenses. The *plan* may offset future payments under this *plan* until the *plan* has been paid an amount equal to what you were paid by a third party. If the *plan* must pay legal fees in order to recover money from you, the *plan* can recover these costs from you. Also, the amount that you must pay the *plan* cannot be reduced by any legal costs that you have.

If you receive money in a settlement or a judgment and do not agree with the *plan's* right to *reimbursement*, you must keep an amount equal to the *plan's* claim in a separate account until the dispute is resolved. If a court orders that money be paid to you or any third party before your lawsuit is resolved, you must tell the *plan* quickly so the *plan* can respond in court.

Member Cooperation

You must give the *plan* information and help the *plan*. This means you must complete and sign all necessary documents to help the *plan* get money back. You must tell the *plan* in a timely manner about the progress of your claim with a third party. This includes filing a claim or lawsuit, beginning settlement discussions, or agreeing to a settlement in principle, etc. It also means that you must give the *plan* timely notice before you settle any claim. You must not do anything that might limit the *plan's* rights under this Section. The *plan* may take any action necessary to protect the *plan's* right of *subrogation* and/or *reimbursement*.

When a defined term is used in this *agreement*, it will be italicized.

AGREEMENT means this document. It is a legal contract between you and Blue Cross & Blue Shield of Rhode Island.

ALLOWANCE is the amount a *provider* has agreed to accept for a *covered health care service*. Our *allowance* for a *covered health care service* may include payment for other related services. See How Your Covered Health Care Services Are Paid and the Summary of Benefits for services subject to *copayments*, *deductibles (if any)*, and *maximum benefits*. For information about how we pay for health care services outside of our service area, please see Coverage for Services Provided Outside of the Service Area (*BlueCard*) section.

When you receive *covered health care services* from a *network provider*, the *provider* has agreed to accept our *allowance* as payment in full. You will be responsible to pay your *copayments*, *deductibles*, and the difference between the *maximum benefit* and our *allowance*, if any.

When you receive *covered health care services* from a *non-network provider*, you will be responsible for the *provider's charge*. Our reimbursement will be based on the lesser of our *allowance*, the *non-network provider's charge*, or the *maximum benefit*, less any *copayments* and *deductibles*, if any.

BENEFITS means any treatment, facility, equipment, drug, device, supply or service that you receive reimbursement for under this *agreement*.

This *agreement* does not cover *developmental services* unless specifically listed as covered.

DEDUCTIBLE means the amount that you must pay each *plan year* before we begin to pay for certain *covered health care services*. The *network provider* and *non-network provider calendar year deductibles* are added up separately. - the most appropriate in terms of type, amount, frequency, setting, duration, supplies, or level of service which can safely be provided to the *member*, i.e. no less expensive professionally acceptable alternative is available.

We will make a determination whether a health care service is *medically necessary*. You have the right to appeal our determination or to take legal action as described in Section 7.0. We review medical necessity on a case-by-case basis.

THE FACT THAT YOUR *DOCTOR* PERFORMED OR PRESCRIBED A PROCEDURE DOES NOT MEAN THAT IT IS *MEDICALLY NECESSARY*. We determine medical necessity solely for purposes of *claims* payment under this *agreement*.

NETWORK PROVIDER (NETWORK) is a *provider* that has entered into an agreement with us or a Blue Cross or Blue Shield *plan* of another state.

NEW SERVICE means a service, treatment, procedure, facility, equipment, drug, device, or supply we previously have not reviewed to determine if the service is eligible for coverage under this *agreement*.

- *Calendar year* means that the coverage is based on a twelve (12) month period beginning on January 1st and ending on December 31st.
- *Plan year* means coverage is based on a period of twelve (12) consecutive months that are not a *calendar year* (for example, July 1st in one year through June 30th in the following year). A *plan year* is also the one-year period that begins on the anniversary date of your *employer's* group agreement.

For more information about the type of plan year that applies to your coverage, please call our Customer Service Department or contact your employer directly.

PREAUTHORIZATION is a process that determines if a health care service qualifies for benefit payment. The *preauthorization* process varies depending on whether the service is a medical procedure or a prescription drug. *Preauthorization* is not a guarantee of payment, as the process does not take benefit limits into account.

Preauthorization is the approval that we advise you to seek before receiving certain *covered health care services*. Selected prescription drugs bought at a pharmacy require *prescription drug preauthorization*. (See the Summary of Pharmacy Benefits for details.) *Preauthorization* ensures that services are *medically necessary* and performed in the most appropriate setting. *Network providers* are responsible for obtaining *preauthorization* for all applicable *covered health care services*. *BlueCard providers* are responsible for obtaining *preauthorization* for all applicable *inpatient facility covered health care services*. If a BCBSRI *network provider* or a *BlueCard provider* (for *inpatient facility covered health care services* only) does not obtain *preauthorization*, you are not liable for the cost of the *covered health care service*.

You are responsible for obtaining *preauthorization* when the *provider* is *non-network* or for *non-inpatient facility* services rendered by a *BlueCard provider* or facility. If you do not obtain *preauthorization* and the services are determined to be not *medically necessary* or the setting in which the services were received is determined to be inappropriate, we will not cover these services/facilities and you will be responsible for the cost of these services. You have the right to appeal our determination or to take legal action as described in the *Adverse Benefit Determinations and Appeals* section.

You may ask for *preauthorization* by telephoning us. For *covered health care services* (other than behavioral health services), call our Customer Service Department at (401) 459-5000 or 1-800-639-2227.

For behavioral health services (mental health and *substance use disorder*), call (401) 277-1344 or 1-800-274-2958.

We encourage you to contact us at least two (2) working days before you receive any *covered health care service* for which *preauthorization* is recommended.

Definitions

The following definitions apply to this section. Other definitions that are not specific to this section (such as *copayment* and *deductible* (if any)) are found in the Glossary.

DISPENSING GUIDELINES means:

- the prescription order or refill must be limited to the quantities authorized by your *doctor* not to exceed the quantity listed in the Summary of Pharmacy Benefits;
- the prescription must be *medically necessary*, consistent with the *doctor's* diagnosis, ordered by a *doctor* whose license allows him or her to order it, filled at a pharmacy whose license allows such a prescription to be filled, and filled according to state and federal laws;
- the prescription must consist of *legend drugs* that require a *doctor's* prescription under law or compound medications made up of at least one *legend drug* requiring a *doctor's* prescription under law;
- bulk powders and chemicals used in compound prescriptions, not approved by the FDA, are not covered unless listed on our formulary; and
- the prescription must be dispensed at the proper place of service as determined by our Pharmacy and Therapeutics Committee. For example, certain prescription drugs may only be covered when obtained from a pharmacy.

Quantity limits may apply to certain prescription drugs:

- certain prescription drugs are subject to additional quantity limits based on criteria that we have developed, subject to our periodic review and modification.
- quantity limits may restrict the amount of pills dispensed per 30-day period, the number of prescriptions orders or refills in a specified time period, or the number of prescriptions orders or refills ordered by a provider or multiple providers;
- You may obtain a current list of prescription drugs that have been assigned maximum quantity levels for dispensing by visiting our website or calling our Customer Service Department.

FORMULARY means the prescription drugs and dosage forms covered under this *agreement*. Some prescription drugs are not in the *formulary*. If a prescription drug is not in our *formulary*, then it is not covered under this *agreement*. A committee of physicians and pharmacists develop the prescription drug *formulary* listing which is subject to periodic review and change.

The committee decides the tier placement of drugs in the *formulary*, which determines the amount you will pay.

When possible, new prescription drugs are reviewed within six (6) months of the occurrence of one of the events described below to determine whether the prescription drug is eligible for coverage under this *agreement*:

- final FDA approval;
- the first date generally available in pharmacies (for prescription drugs only).

To obtain coverage information for a specific prescription drug or to get a copy of the most current *formulary* listing, visit our website or, you may call our Customer Service Department at for information.

LEGEND DRUG is a drug that federal law does not allow the dispensing of without a prescription.

NETWORK PHARMACY means any pharmacy that has an agreement to accept our *pharmacy allowance* for prescription drugs and diabetic equipment/supplies covered under this *agreement*. All other pharmacies are **NON-NETWORK PHARMACIES**. The one exception and for the purpose of *specialty prescription drugs*, only specialty pharmacies that have an agreement to accept our *pharmacy allowance* are *network pharmacies* and all others pharmacies are *non-network pharmacies*.

PHARMACY ALLOWANCE means the lower of:

- the amount the pharmacy *charges* for the prescription drug;
- the amount we or our PBM have negotiated with a *network pharmacy*; or
- the maximum amount we pay any pharmacy for that prescription drug.

PRESCRIPTION DRUG PREAUTHORIZATION is the advance approval that must be obtained before we provide coverage for certain prescription drugs. *Prescription drug preauthorization* is not a guarantee of payment, as the process does not take benefit limits into account. The process for obtaining *prescription drug preauthorization* is described below.

You must ask the prescribing physician to request *prescription drug preauthorization* for certain preferred brand name and non-preferred brand name prescription drugs and certain specialty prescription drugs, if the specialty prescription drug is bought at a *network pharmacy*. If the specialty prescription drug is bought at a *non-network pharmacy*, *prescription drug preauthorization* is not required. For details see **Pharmacy Program for Prescription Drugs and Diabetic Equipment/Supplies Purchased at a Pharmacy** listed below.

Services for which *prescription drug preauthorization* is required are marked with a (+) symbol in the Summary of Pharmacy Benefits. To obtain the required *prescription drug preauthorization* for certain covered prescription drugs (as described above), please request your prescribing physician to call our pharmacy benefits administrator, using the number listed for the "Pharmacist" on the back of your ID card.

SITE OF SERVICE means, for the purposes of this *agreement*, the three types of pharmacies which include:

- retail pharmacies,
- specialty pharmacies, and
- mail order pharmacy.

SPECIALTY PRESCRIPTION DRUG is a type of prescription drug in our *formulary* that generally is identified by, but not limited to, features such as:

- being produced by DNA technology,
- treats chronic or long term disease,
- requires customized clinical monitoring and patient support, and
- needs special handling.

Generally, specialty pharmacies dispense *specialty prescription drugs*. Contact Customer Service for further details and information about *specialty prescription drugs* and specialty pharmacies. For the purposes of this *agreement*, we have designated certain prescribed prescription drugs to be *specialty prescription drugs* in our *formulary*. To obtain coverage information for any specific *specialty prescription drug* or to obtain a copy of the most current *formulary* listing, visit our website or, you may call our Customer Service Department.

TYPE OF SERVICE means, for the purposes of this *agreement*, the two kinds of prescription drugs which are defined as:

- generic, preferred brand name, and non-preferred brand name prescription drugs; and
- *specialty prescription drugs*.

Overview

Prescription drugs bought at a pharmacy are subject to the *benefit limits* as shown in the Summary of Pharmacy Benefits. For details, see **Pharmacy Program for Prescription Drugs and Diabetic Equipment/Supplies Purchased at a Pharmacy** listed below.

Generic, preferred brand name, and non-preferred brand name prescription drugs dispensed and administered by a licensed health care *provider* (other than a pharmacy) are subject to the *benefit limit* as shown in the Summary of Medical Benefits. *Specialty prescription drugs* are not separately reimbursed when dispensed by a professional *provider* unless bought from a Specialty Pharmacy. For details, see **Section 3.28 - Prescription Drugs Dispensed and Administered by a Licensed Health Care Provider (other than a Pharmacy)**.

Pharmacy Program for Prescription Drugs and Diabetic Equipment/Supplies Purchased at a Pharmacy **Introduction**

This section provides coverage information for prescription drugs in our *formulary* and diabetic equipment and supplies that are bought at a pharmacy. Generic, preferred brand name, and non-preferred brand name prescription drugs may be dispensed at a retail pharmacy, a specialty pharmacy, a mail order pharmacy, or by a *provider* other than a pharmacy (See Section 3.28 for details about coverage when dispensed by a *provider* other than a pharmacy). *Specialty prescription drugs* must be dispensed at a specialty pharmacy or a *non-network pharmacy*. If a professional provider dispenses a *specialty prescription drug*, it is not separately reimbursed unless obtained from a specialty pharmacy. The administration of the *specialty prescription drug* is covered.

For information about the administration of specialty Prescription Drugs, see the following subsections located in the *Covered Health Care Services* Section;—

- Behavioral Health;
- Home Health Care;
- Infertility Services;

If you are dispensed a *specialty prescription drug* from a Rhode Island *network provider*, the charge for the *specialty prescription drug* is not reimbursed and the Rhode Island *network provider* may not seek reimbursement from you. If you are dispensed a *specialty prescription drug* from a *non-network provider* or by a *provider* that participates with an out of state Blue Cross or Blue Shield plan, the charge for the *specialty prescription drug* is not reimbursed. You are liable to pay the charge for the *specialty prescription drug*.

Prescription drugs are reimbursed based on the *type of service* and the *site of service*. See the Summary of Pharmacy Benefits for *benefit limits* and the amount that you pay.

This prescription drug *plan formulary* has a four-tiered *copayment* structure. The *copayment* for a prescription drug will vary by tier. For more information about our *formulary*, and to see the tier placement of a particular prescription drug, visit our website or call our Customer Service Department.

See the Summary of Pharmacy Benefits for *benefit limits* and *level of coverage*.

Mail Order Pharmacy

Maintenance and non-maintenance generic, preferred brand name, or non-preferred brand name prescription drugs and diabetic equipment and supplies may be bought from a *network* mail order pharmacy. The prescription is limited to the *benefit limit* and the amount that you pay shown in the Summary of Pharmacy Benefits. For mail order instructions, please call our Customer Service Department.

Covered Diabetic Equipment/Supplies

The following diabetic equipment and supplies can be bought at a *network pharmacy*:

- Glucometers;
- Test Strips;
- Lancet and Lancet Devices; and
- Miscellaneous Supplies (including calibration fluid).

See the Summary of Pharmacy Benefits for *benefit limits* and the amount that you pay.

How Covered Prescription Drugs and Diabetic Supplies/Equipment Are Paid

When you buy covered prescription drugs and diabetic equipment and supplies from a *network pharmacy*, you will be responsible for the *copayment* and *prescription drug deductible* (if any) shown in the Summary of Pharmacy Benefits at the time you buy the prescription drugs and diabetic equipment and supplies. Coverage is based on our *pharmacy allowance*.

This *agreement* does NOT cover generic, preferred brand name, and non-preferred brand name prescription drugs or diabetic equipment and supplies when bought at *non-network pharmacies*. If you buy generic, preferred brand name, and non-preferred brand name prescription drugs or diabetic equipment and supplies from *non-network pharmacies*, you will be responsible to pay the charge for the prescription drug or diabetic equipment and supplies at the time the prescription is filled.

If you buy *specialty prescription drugs* from a retail *network pharmacy* or a *non-network pharmacy*, you will be responsible to pay the charge for the *specialty prescription drug* at the time the prescription is filled. You may submit a *claim* to us and we will reimburse you directly. You will be responsible for the *copayment* shown in the Summary of Pharmacy Benefits and the difference between the *charge* and the *pharmacy allowance*. See Section How Your Covered Health Care Services Are Paid for further information.

How to Obtain Prescription Drug Preauthorization

Prescription drug preauthorization is required for certain *specialty prescription drugs*. To obtain *prescription drug preauthorization*, the prescribing *provider* must submit a completed *prescription drug preauthorization* request form.

The prescribing *provider* may obtain a prescription drug *preauthorization* form by visiting our website or calling the Physician and *Provider Service Center*. *Preauthorization* requests can be by fax, by phone, or by mail to our pharmacy *benefit manager*. See Contact Information at the beginning of this section for contact details.

Prescription drugs that require *prescription drug preauthorization* will only be approved when our clinical guidelines are met. The guidelines are based upon clinically appropriate criteria that ensure that the prescription drug is appropriate and cost-effective for the illness, injury or condition for which it has been prescribed.

We will send to you written notification of the *prescription drug preauthorization* determination within two (2) business days of receipt of all medical documentation required to conduct the review, but not to exceed fourteen (14) calendar days from the receipt of the request.

Expedited Preauthorization Review Process:

You may request an expedited review if the circumstances are an emergency. Due to the urgent nature of an expedited review, your prescribing *provider* must either call or fax the completed form to and indicate the urgent nature of the request. If an expedited dose optimization review is received by us, we will respond to you with a determination within seventy-two (72) hours or in less than seventy-two (72) hours (taking into consideration medical exigencies) following receipt of the request.

Note: If you have not obtained *prescription drug preauthorization* before you pick up the prescription drug from the pharmacy for the first time, you can ask us to consider reimbursement later. To do this, you must follow the *prescription drug preauthorization* process described above and submit your request for review, along with a copy of your receipt, within fifteen (15) days of picking up the prescription. If our clinical guidelines are met for the prescription drug, we will approve your claim to be reimbursed retroactively less the applicable *copayment* or *deductible*. If our clinical guidelines are not met for the prescription drug, you will be responsible for the cost of the prescription drug. If you are not satisfied with the *prescription drug preauthorization* determination, you can submit a Medical Appeal. See Medical Appeals Procedure section for information on how to file a Medical Appeal.

To obtain a list of the *specialty prescription drugs* that require *prescription drug preauthorization*, visit our website or call our Customer Service Department.

How to Obtain Dose Optimization

Dose optimization is the most effective dose and measured quantity of a generic, preferred brand name, and non-preferred brand name prescription drug to be taken at one time. Under this *agreement*, certain generic, preferred brand name, and non-preferred brand name prescription drugs may NOT be covered if you are taking multiple daily doses of a prescription drug that is available to be taken once per day at a higher dose. To obtain a list of the prescription drugs subject to dose optimization, visit our website or, you may call our Customer Service Department.

When dose optimization applies, the *network pharmacy* will consult with your prescribing *provider* and with the prescribing *provider's* approval, the single daily dose of the prescription drug will be dispensed. If you choose to buy the multiple daily dose of the lower strength prescription drug, it will NOT be covered under this *agreement*.

If your prescribing provider deems it *medically necessary* that you continue to take multiple daily doses of a lower strength generic, preferred brand name, or non-preferred brand name prescription drug, *prescription drug preauthorization* is required and must be obtained before we provide coverage. To request *prescription drug preauthorization*, the prescribing *provider* must complete and submit a dose optimization authorization form and follow the same process outlined in the above section – How To Obtain Prescription Drug *Preauthorization*. Our notification timeline, the ability to request an expedited review, and the ability to submit a request for reimbursement after payment as described in the above section also apply to requests for prescription drug *preauthorization* related to dose optimization. Coverage for multiple daily doses of a lower strength generic, preferred brand name, or non-preferred brand name prescription drug will only be approved when the dose optimization guidelines are met.

Formulary Exception Process

We have a *formulary* exception process that allows you to request coverage for a prescription drug that is not in our *formulary*.

This process is available when:

- (i) the requested *prescription drug* has a generic equivalent on the *formulary*; or
- (ii) the requested prescription drug does not have a generic equivalent on the *formulary* or any other circumstance where the requested *prescription drug* is not on our *formulary*.

(i) For a *formulary* exception where the requested prescription drug has a generic equivalent, you or your prescribing *provider* may submit a *Formulary Exception Request* form to our Grievance and Appeal Unit (GAU). The form will request medical information describing the clinical reason why you are unable to be treated with the generic medication. This form may be obtained from GAU. The GAU may be reached by phone at 401-459-5784.

The completed *Formulary Exception Request* form is mailed to:

Blue Cross & Blue Shield of Rhode Island
Attention: Grievance and Appeals Unit
500 Exchange Street
Providence, Rhode Island 02903

(ii) For a *formulary* exception where the requested prescription drug does NOT have a generic equivalent on the *formulary*, the prescribing *provider* may submit a Medical Exception Form to our pharmacy *benefits* manager. You or your *provider* may obtain a Medical Exception Form by visiting our website or calling the Physician and *Provider* Service Center. Requests can be submitted by fax, by phone, or by mail to our pharmacy *benefit* manager. See Contact Information at the beginning of this section for contact details.

Note: You may request an expedited review if the circumstances are an *emergency* or you are undergoing a current course of treatment using a non-*formulary* drug. Due to the urgent nature of an expedited review, your prescribing *provider* must call or fax the completed form and indicate the urgent nature of the request. See Contact Information at the beginning of this section for contact details. If an expedited *formulary* exception review is received by us, we will respond to you with a determination within twenty-four (24) hours following receipt of the request.

For both types of formulary exceptions noted above, a written determination will be sent to you and to your *doctor*.

If we grant your request for a formulary exception, the amount you pay will be the copayment at the highest non-specialty formulary tier. Other applicable benefit requirements, such as step therapy edits, are not waived by this exception and must be reviewed separately.

If we deny your request for a formulary exception, that denial is an *adverse benefit determination*. Please see Adverse Benefit Determinations section for information on how to appeal our decision.

Co-payment reduction

Certain prescription drugs will have a reduced *copayment* for members with diabetes, asthma, and chronic obstructive pulmonary disease (COPD). To obtain a specific list of the included drugs, call our Customer Service Department or visit our website.
