

At Blue Cross & Blue Shield of Rhode Island (BCBSRI), we are committed to offering you the highest quality and most cost-effective healthcare available. That is why we routinely reevaluate our Medicare Advantage network of healthcare providers and make adjustments as needed. As a result, starting January 1, 2018, the following providers and skilled nursing facilities (SNFs) will no longer be participating in our network.

Provider Name	Specialty	Address	Telephone

The skilled nursing facilities and providers listed in this letter were notified of BCBSRI's intent to remove them from the network and revoke their participation in any of the products that BCBSRI offers. If any of the individual providers listed are part of a group practice, other providers within that same practice may still be participating within the BCBSRI network. Please call the number on the back of your member ID card if you need assistance finding a new provider. Individual professional providers have the ability to appeal their termination. However, if they choose not to appeal or are unsuccessful in their appeal, they will not be participating in the BCBSRI provider network as of January 1, 2018. These are new changes to our provider network and are not reflected in the latest publication of the provider directory.
