

Blue MedicareRxSM Value Plus (PDP) 2014 Formulary (List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 04/01/2014. For more recent information or other questions, please contact Blue MedicareRx Value Plus, at 1-888-620-1748 or, for TTY/TDD users, 1-866-236-1069, 24 hours a day, 7 days a week, or visit www.RxMedicarePlans.com.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take. When this drug list (formulary) refers to “we,” “us”, or “our,” it means Blue MedicareRxSM (PDP). When it refers to “plan” or “our plan,” it means Blue MedicareRx Value Plus.

This document includes a list of the drugs (formulary) for our plan which is current as of April 1, 2014. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, premium and/or copayments/coinsurance may change on January 1, 2015.

What is the Blue MedicareRx Value Plus Formulary?

A formulary is a list of covered drugs selected by Blue MedicareRx Value Plus in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Blue MedicareRx Value Plus will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Blue MedicareRx Value Plus network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2014 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2014 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of April 1, 2014. To get updated information about the drugs covered by Blue MedicareRx Value Plus, please contact us. Our contact information appears on the front and back cover pages.

If we have a mid-year non-maintenance formulary change, we will provide a notice in the monthly Explanation of Benefits or mail you a formulary update which provides a complete list of changes that have occurred since the printing of the formulary. You may also access our formulary and information showing changes to, additions, and/or deletions of formulary medications on our Web site at www.RxMedicarePlans.com. To get updated information about the drugs covered by Blue MedicareRx Value Plus, please contact us. Our contact information appears on the front and back cover pages.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 7. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular.” If you know what your drug is used for, look for the category name in the list that begins on page number 7. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 51. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Blue MedicareRx Value Plus covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Blue MedicareRx Value Plus requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Blue MedicareRx Value Plus before you fill your prescriptions. If you don't get approval, Blue MedicareRx Value Plus may not cover the drug.
- **Quantity Limits:** For certain drugs, Blue MedicareRx Value Plus limits the amount of the drug that Blue MedicareRx Value Plus will cover. For example, Blue MedicareRx Value Plus provides 12 units per prescription for RELPAX. This may be in addition to a standard one month or three month supply.
- **Step Therapy:** In some cases, Blue MedicareRx Value Plus requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Blue MedicareRx Value Plus may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Blue MedicareRx Value Plus will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 7. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Blue MedicareRx Value Plus to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Blue MedicareRx Value Plus formulary?” on page 3 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Care and ask if your drug is covered.

If you learn that Blue MedicareRx Value Plus does not cover your drug, you have two options:

- You can ask Customer Care for a list of similar drugs that are covered by Blue MedicareRx Value Plus. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Blue MedicareRx Value Plus.
- You can ask Blue MedicareRx Value Plus to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Blue MedicareRx Value Plus Formulary?

You can ask Blue MedicareRx Value Plus to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Blue MedicareRx Value Plus limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Blue MedicareRx Value Plus will only approve your request for an exception if the alternative drug is included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 98-day transition supply, consistent with the dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If you change your level of care, such as a move from a hospital to a home setting, and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover up to a temporary 30-day supply (or 31-day supply if you are a long-term care resident) when you go to a network pharmacy. After your first 30-day supply, you are required to use the plan's exception process.

Our transition supply will not cover drugs that Medicare does not allow Part D plans to cover or drugs that are covered under Medicare Part B.

For more information

For more detailed information about your Blue MedicareRx Value Plus prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Blue MedicareRx Value Plus, please contact us. Our contact information, along with the date we last updated the formulary, appear on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit www.medicare.gov.

Blue MedicareRx Value Plus's Formulary

The formulary that begins on page 7 provides coverage information about some of the drugs covered by Blue MedicareRx Value Plus. If you have trouble finding your drug in the list, turn to the Index that begins on page 51.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., SYNTHROID) and generic drugs are listed in lower-case italics (e.g., *levothyroxine sodium*).

The information in the Requirement/Limits column tells you if Blue MedicareRx Value Plus has any special requirements for coverage of your drug. The abbreviations you may see in the drug listing include:

- B/D stands for drugs covered under Medicare Part B or D.
- QL stands for Quantity Limits.
- PA stands for Prior Authorization.
- ST stands for Step Therapy.
- LA stands for Limited Access. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Customer Care at 1-888-620-1748, 24 hours a day, 7 days a week. TTY/TDD users should call 1-866-236-1069.
- NMO stands for No Mail Order. This prescription drug is not available through mail order service.

Explanation of Tiers and Copayments/Coinsurance:

Blue MedicareRx Value Plus Initial Coverage Stage

Tier Label/Description	Retail or Out-of-Network* 30-day supply/ Long-term Care 31-day supply		Mail Order 90-day supply for drugs on Tiers 1, 2, 3, 4 and 5
	Preferred Network Pharmacy	Other Network Pharmacy	
Tier 1: Preferred Generic Certain generic drugs that are available at the lowest copayment	\$1	\$4	\$1
Tier 2: Non-Preferred Generic Higher cost generic drugs available at a higher copayment than Tier 1 generic drugs	\$6	\$12	\$12
Tier 3: Preferred Brand Many common brand name drugs and some higher cost generic drugs, many of which may have lower cost options available on Tier 1 or Tier 2	\$35	\$45	\$70
Tier 4: Non-Preferred Brand Non-preferred generic and non-preferred brand name drugs, many of which may have lower cost options available on Tier 1, Tier 2 and Tier 3	\$85	\$95	\$170
Tier 5: Specialty Tier Unique and/or very high-cost drugs of which you pay a percentage of the total drug cost	27%	27%	N/A [†]

[†] For Specialty Tier Drugs in 2014, our plans will not offer a 90-day retail or mail order drug supply.

* In addition to your copayment, at an out-of-network pharmacy you will pay the difference between the actual charge and what you would have paid at a preferred network or other network pharmacy. Amounts you pay may vary at out-of-network pharmacies.
