

Integrated Consumer-Driven Health Plans (CDHPs)

Ancillary Administrative Services Contract

Starting in January, we will begin introducing new consumer spending accounts (Flexible Spending Accounts, Health Savings Accounts and Health Reimbursement Accounts) that will be fully integrated with our health plans. This will allow for streamlined administration of your benefits, as well as tools to help your employees manage their healthcare expenses. Please refer to the enclosed brochures for more information on these products.

If you decide to purchase a consumer spending account for your employees, please be sure to complete the enclosed Ancillary Administrative Services Contract. Please check the box for the spending account that you would like to add to your plan and write the name of the medical plan in the space provided, and ensure the contract is signed by a company officer.

If you decide that you would not like to purchase a consumer spending account at this time, we request that you check the "None" box and return the signed form. This will act as an opt-out clause for this product, ensuring that your account does not get changed.

Please submit the Ancillary Administrative Services Contract as soon as you have made your selection for the year, so that we can ensure your benefits are set up in a timely manner.

Questions? Please talk to your BCBSRI account representative or broker.
