

Blue Cross & Blue Shield of Rhode Island

270/271 Health Care Eligibility Benefit Inquiry and Response Companion Guide (Real-Time and Batch)

HIPAA version 5010

Version 1.21 Status: **Published**

October 27, 2014

PREFACE

This Companion Guide supplements the ASC X12 270/271 (005010X279A1) 5010 Technical Reports Type 3 (TR3) and Errata adopted under HIPAA. Its purpose is to clarify the rules and specify the data content when data is electronically transmitted to Blue Cross & Blue Shield of Rhode Island (hereinafter "BCBSRI"). The rules for transmitting data detailed herein are compliant with both X12 syntax and the 5010 TR3s. This Companion Guide does not convey information that in any way exceeds the requirements or usages of data expressed in the 5010 Technical Reports Type 3 (TR3s and Errata).

DISCLAIMER

This *Companion Guide* is considered a living document, and as such, the information provided herein will be subject to change after July 1, 2011 in the event that BCBSRI revises its policies or HIPAA Transactions and Code Sets law is updated or amended.

1.0 Introduction

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) requires that all health insurance payers in the United States comply with the electronic data interchange (EDI) standards for health care as established by the Secretary of Health and Human Services (HHS).

The ANSI X12N 5010 TR3s and Erratas adhere to the final HIPAA Transaction Regulations and have been established as the standards of compliance for electronic transactions. The 5010 TR3s are available electronically at www.wpc-edi.com.

2.0 Scope

This 270/271 Health Care Eligibility Benefit Inquiry and Response Companion Guide is designed for use in conjunction with the ANSI ASC X12N 270/271 (005010X279A1) Health Care Eligibility Benefit Inquiry and Response 5010 TR3. The specifications contained within this Companion Guide define current functions and provide supplemental information specific to Blue Cross & Blue Shield of Rhode Island (BCBSRI). The information presented is for clarification and does not contradict any requirements in the ANSI X12N 5010 TR3s and Erratas.

The tables in **Section 7.1** and **Section 7.2** detail the additional information directly related to loops, segments, or data elements specific to BCBSRI transactions.

3.0 Trading Partners

A BCBSRI EDI trading partner is any business partner (provider, billing service, software vendor, employer group, financial institution, etc.) who transmits to or receives electronic data from BCBSRI.

In order to register as a BCBSRI Trading Partner and begin testing, it is necessary to complete the Trading Partner Registration (TPR) form. In addition, trading partners must print out and complete a copy of the Trading Partner Agreement (TPA) before partner testing can begin. Both documents are located on the BCBSRI Web site:

(https://www.bcbsri.com/BCBSRIWeb/providers/provider_network_system/companion_guides.jsp). Both original documents must be returned to:

Director, EDI & Electronic Information Exchange ATTN: EDI Trading Partner Agreement & Registration Blue Cross & Blue Shield of Rhode Island 500 Exchange Street Providence, RI 02903

4.0 Working with BCBSRI

BCBSRI will work closely with its trading partners to establish effective communication protocols and to resolve any connectivity issues that may arise regarding the exchange of HIPAA-related electronic transactions.

Version: 1.21 October 27, 2014 Page 1 of 57

4.1 Contact Information

The following contact information is provided to assist in the process of implementing 270/271 transactions or if you should encounter any 270/271 transaction production issues:

Call the Information Technology (IT) Service Desk which supports BCBSRI, at 401-751-1673 or1-855-721-4211.

5.0 Payer Connectivity/Communications

5.1 Transmission Administrative Procedures

BCBSRI's EDI & Electronic Information Exchange staff will establish logon IDs, passwords and a HIPAA transaction mailbox for each trading partner approved for testing. If a Trading Partner wishes to do Real-Time transactions, they will need to be assigned a logon ID & password by EDI & Electronic Information Exchange staff.

5.2 Retransmission Procedures

In the event that issues arise requiring trading partners to resubmit transactions, BCBSRI/IT Service Desk support personnel will confirm that it is necessary to retransmit the file(s) in question and will forward specific information to the trading partner.

5.3 Communications Protocols

The communications will utilize Internet browser technology (IP Protocol) to the secure BCBSRI Web page, Sterling File Gateway via HTTPS (with certificate) using IE 7.0 or greater or Secure File Transfer Protocol (SFTP) using SSH keys. It is required that all trading partners have Internet access with an industry standard browser.

BCBSRI provides a Web-based application known as BCBSRI Sterling File Gateway that enables trading partners to:

- Submit (send) HIPAA transactions
- Receive HIPAA transaction responses
- View history files (directory) of all transactions sent and received (only possible for batch files submitted. Not for real time.)
- BCBS Maintains 30 days of history for Batch transactions in each Trading Partners mailbox directory.

BCBSRI accepts Real-Time transmissions from Trading Partners. To send Real-Time transmissions, please refer to the *BCBSRI 27x Real-Time API Document* located at:

 $\underline{\text{https://www.bcbsri.com/BCBSRIWeb/providers/provider_network_system/companion_guides.jsp} \ .$

5.3.1 Passwords

Trading Partner access will be verified by the logon ID and password whenever the BCBSRI Connect Enterprise system is accessed. Operation procedures will assure that logons and passwords are initiated, monitored and maintained in a secure manner.

Version: 1.21 October 27, 2014 Page 2 of 57

5.3.2 Connecting to BCBSRI via EDI Gateway

Please go to www.bcbsri.com and select the **Providers** tab, **HIPAA** and **Documentation** to view or print *BCBSRI EDI Gateway*, a document that provides detailed instructions on how to connect to the BCBSRI Connect Enterprise System. If necessary, also reference the *BCBSRI EDI Gateway Dialup Networking Guide* for specific data communications set-up instructions.

6.0 Receiver/Sender Identifiers

6.1 ISA-IEA Control Structure/Envelopes

Sender ID interchange control segments: Use ID Qualifier code ZZ in ISA05. The BCBSRI assigned Submitter ID must be used in ISA06 and GS02. ID limited to 8 characters with a leading alpha prefix. Prefixes: P = Production, T = Test.

Receiver ID interchange control segments: Use ID Qualifier code ZZ in ISA07. The Receiver ID provided by BCBSRI in the Trading Partner Agreement must be used in ISA08 and GS03.

6.1.1 ISA Delimiters

BCBSRI systems will accept the valid delimiters listed below and request that the use of delimiters be restricted to the following:

- * = Element Delimiter
- : = Composite Delimiter
- ~ = Terminator Delimiter
- ^, {= Repetition Delimiter (ISA11)

6.2 GS-GE Control Segments/Envelopes

Sender ID interchange control segments: Submitter = GS02.

Receiver ID interchange control segments: Receiver = GS03.

Sender IDs will be assigned.

GS Segments/Reference Codes:

		Batch	Real-Time
Functional Identifier Code	GS01	HS	HS
Application's Sender Code	GS02	TXXXXXXX (Test) PXXXXXXX (Production)	TRXXXXXX (Test) PRXXXXXX (Production)
Application's Receivers Code	GS03	222774	R222774
Date	GS04	Date (ccymmdd)	Date (ccyymmdd)
Time	GS05	Time (hhmm)	Time (hhmm)
Group Control Number	GS06	Required	Required
Responsible Agency Code	GS07	X	X
Version/Release/Industry Identifier Code	GS08	005010X279A1	005010X279A1

D = 4 = I=

Deal Time

7.0 BCBSRI Specific Business Rules and Limitations

7.1 270 Eligibility Inquiry

General: The eligibility information returned is not a guarantee of claims payment. BCBSRI will follow the HIPAA search rule as described in Section 1.4.8 of the 270/271 5010 Technical Report Type 3 (TR3). BCBSRI will respond to eligibility requests with all coverage information available for the patient identified as of the eligibility date requested (or the current date).

Valid Submitters: BCBSRI will only accept transactions from valid trading partners whose submitter IDs are on file. BCBSRI will reject any transmission if the submitter ID cannot be validated.

Enveloping Data: The 270 Real-Time requests must be limited to one patient request per ISA-IEA, GS-GE and ST-SE envelope configuration. BCBSRI will accept single GS-GE groups within a single ISA-IEA of the transaction envelope for Real-Time transaction. Each group must be of the same transaction type

The only exceptions to this rule are Batch requests. BCBSRI will accept multiple GS-GE groups within a single ISA-IEA of the transaction envelope for Batch 270 transactions.

Note: Real-Time and Batch transactions cannot be mixed in the same ISA-IEA, GS-GE grouping

Transaction Editing: All HIPAA (005010X279A1) 5010 Technical Reports Type 3 (TR3s) and Errata's data requirements must be met including the required data elements to support the HIPAA search rules. If the required data elements are not sent within the transaction set ST-SE, the eligibility response will be returned with the appropriate AAA segment value

The following are specific BCBSRI rules applicable to 270 Eligibility Inquiry transactions:

Item	Loop ID Segment Description and Element Name	Referenc e (REF) Designat or	HIPAA TR3 Page Numb er	Comments
1.	Header Level			
	Hierarchical Structure Code	BHT01	63	Value 0022.
	Transaction Set Purpose Code	BHT02	64	Only value 13 is applicable to BCBSRI eligibility requests.
2.	2100A - INFORMATION SOURCE			
	NAME Entity Identifier Code	NM101	69	Value PR (Payer).
	Entity Identifier Code	NM108	71	Value Pl.
	Identification Code Qualifier	14111100	, ,	value i i.
		NM109	71	Submitters value with 00370 or 00870.
	Information Source Primary Identifier			
3.	2100B INFORMATION RECEIVER	NIM4 OO	77	Value VV
	NAME Identify the eligibility/benefit receiver	NM108 NM109	77 78	Value XX NPI is required.
	Teceivei	INIVITUS	70	ivi i is required.

				1
4.	2000C- SUBSCRIBER TRACE NUMBER Trace Number	TRN02	91	Required when subscriber is the patient
5.	2100C – SUBSCRIBER NAME Subscriber Last Name	NM103	93	Required if subscriber is patient.
	Subscriber First Name	NM104	93	Required if subscriber is the patient.
	Subscriber Primary Identifier	NM109	96	Always required. Note: Use BCBSRI ID exactly as it appears on the member's ID card, this includes the alpha prefix.
	Provider Information Reference Qualifier	PRV02	105	Value HPI
	Reference Code	PRV03	106	NPI is required
	Subscriber Date of Birth	DMG02	108	Required if subscriber is patient.
	Subscriber Date of Eligibility	DTP	123	If no date submitted, BCBSRI will assume request is for eligibility status for the current date.
				If the date submitted is in the future, BCBSRI will only respond with status as of the current date valid until end of current month.
				If eligibility request is previous to current date, it must be within 1 year of the transaction date.
				Accumulated remaining deductible and out of pocket maximum are only returned for current date of request.
6.	2110C – SUBSCRIBER ELIGIBILITY OR BENEFIT INQUIRY INFORMATION	EQ	125	BCBSRI allows only a single EQ segment per request. BCBSRI recommends to use a specific HIPAA service type(s) in EQ01
				Refer to APPENDIX A for HIPAA Service Types
7.	2100D – DEPENDENT NAME Dependent Last Name	NM103	152	Required if Dependent is patient.
	Dependent First Name	NM104	152	Required if Dependent is patient.
	Dependent Date of Birth	DMG02	165	Required if Dependent is patient.
	Dependent Date	DTP	180	If no date submitted, BCBSRI will assume request is for eligibility status for the current date.
				If the date submitted is in the future, BCBSRI will only respond with status as of the current date valid until end of current month.
				If eligibility request is previous to current date, it must be within 1 year of the transaction date
				Accumulated remaining deductible and out of pocket maximum are only returned for current date of request.
8.	2110D – DEPENDENT ELIGIBILITY OR BENEFIT INQUIRY INFORMATION	EQ	182	BCBSRI allows only a single EQ segment per request. BCBSRI recommends to use a specific HIPAA service type(s) in EQ01

Version: 1.21 October 27, 2014 Page 5 of 57

		Refer to Common Service types/APPENDIX A

7.2 271 Eligibility Response

The following are specific BCBSRI rules applicable to 271 Eligibility Response transactions:

Item	Loop ID Segment Description and Element Name	Reference (REF) Designator	TR3	Comments
1.	2100B – INFORMATION RECEIVER NAME NM1 Segment	NM1	233	Will return information as received on the 270 transaction.
2.	2100C – SUBSCRIBER NAME NM1 Segment	NM1		Will return information as stored in the BCBSRI system when we uniquely identify the subscriber in the 270 request.
3.	2110C - SUBSCRIBER ELIGIBILITY OR BENEFIT INFORMATION	ЕВ	289	Eligibility and benefit information will be returned at this level if the subscriber is the patient.
4.	2100D - DEPENDENT NAME NM1 Segment	NM1		Will return information as stored in the BCBSRI system when we uniquely identify the member in the 270 request.
5.	2110D - DEPENDENT ELIGIBILITY OR BENEFIT INFORMATION	EB	393	Eligibility information will be returned at this level if the member is the patient.

7.3 Common Service Types (Baseline Service Types)

Baseline service types are HIPAA service types which are not supported for specific service type response and will return response with plan level and common benefits associated with members eligibility. Please refer to Appendix B. for all Service types expected to respond as baseline service types.

For example, when the Information Source (Blue Cross & Blue Shield of Rhode Island) receives a benefit request for Orthopedic (service type BK), the response will be Baseline Response as shown in Appendix A.

**If there is no benefit for the request type the system will not generate that service type in the response.

Version: 1.21 October 27, 2014 Page 6 of 57

** 271 responses will include Service Type 30 (Plan level Coverage) in all responses.

7.4 270 Eligibility Inquiry Submission (Example)

In the following explanation, the prefix "T" signifies "test," and the prefix "P" signifies "production."

As illustrated in the example below:

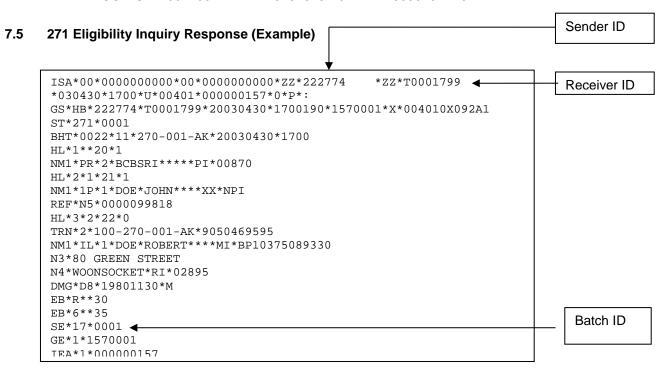

- the ISA Sender ID for Real-Time or batch submissions are TXXXXXXX or PXXXXXXX.
- in 270 Real-Time submissions, the GS02 Sender ID is TRXXXXXX or PRXXXXXX.
- the Receiver ID for Real-Time is GS R222774.
- one Real-Time request within one Transaction Set Header (ST) or one Group Segment (GS) will be accepted.

For **Real-Time**, the GS segment would appear as follows:

Version: 1.21 October 27, 2014 Page 55 of 57

When a request is for a non-BCBSRI member, a submitter will receive a 271 transaction indicating the request was forwarded to another entity. If multiple requests are submitted within an ST/SE, the 271 responses from the other entities will be received individually. If Real-Time is indicated, requests will be handled as non Real-Time.

8.0 999 Implementation Acknowledgement

The 999 informs the submitter that the functional group arrived at the destination. It may include information about the syntactical quality of the functional group and the implementation guide compliance.

Level 2 editing will be performed. A 999 would occur if a transaction set resulted in both Level 1 and Level 2 errors. If a Real-Time 270 is received without NPI information, a 271 Real-Time will be returned with **AAA*N**43*C~**. If a 270 Batch file is received without NPI information, the system will return a 999 & Plain Language report detailing the errors.

8.1 999 Implementation Acknowledgement (Rejection/Error)

In the event that a transmission is rejected, a 999 Implementation Acknowledgment (Rejection/Error), detailing the reasons for rejection will be issued for the convenience of the trading partner.

BCBSRI meets all requirements of SNIP, (Strategic National Implementation Process), (HIPAA) Level 4 for all inbound transactions.

Multiple 999s could occur if a transaction set resulted in both Level 1, 2 and/or Level 4 errors.

9.0 Certification and Testing

BCBSRI has partnered with Foresight to provide a 24/7 online tool for self-service transaction validation. To use this tool, download the Trading Partner Registration (TPR) form from the www.bcbsri.com Web site. Complete the form and return to the EDI Trading Partner Coordinator at the address given. Upon receipt of this signed TPR, BCBSRI will provide you with a User ID and password allowing you to access the Foresight HIPAA Web site.
