El Servicio al cliente también tiene servicios de intérprete de idiomas gratis disponibles para las personas que no hablan inglés.

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Blue Cross & Blue Shield of Rhode Island. When it refers to “plan” or “our plan,” it means Group BlueCHiP for Medicare.

This document includes a list of the drugs (formulary) for our plan which is current as of August 1, 2015. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2016, and from time to time during the year.

## What is the BlueCHiP for Medicare Formulary?

A formulary is a list of covered drugs selected by Group BlueCHiP for Medicare in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Group BlueCHiP for Medicare will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Group BlueCHiP for Medicare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

## Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2016 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2016 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of August 1, 2015.

To get updated information about the drugs covered by Group BlueCHiP for Medicare, please contact us. Our contact information appears on the front and back cover pages.

In the event of any mid-year non-maintenance formulary changes, you will receive a notice if the drug you are currently using is affected by the change. An updated version of the 2016 Group Formulary and a listing of the changes will be available on [www.bcbsri.com](http://www.bcbsri.com). The updated Formulary and the listing of changes will also be available upon request by contacting the BlueCHiP for Medicare Concierge Team.

## How do I use the Formulary?

There are two ways to find your drug within the formulary:

### Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents." If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

### Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 109. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## What are generic drugs?

Group BlueCHiP for Medicare covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Group BlueCHiP for Medicare requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Group BlueCHiP for Medicare before you fill your prescriptions. If you don't get approval, Group BlueCHiP for Medicare may not cover the drug.
- **Quantity Limits:** For certain drugs, Group BlueCHiP for Medicare limits the amount of the drug that Group BlueCHiP for Medicare will cover. For example, Group BlueCHiP for Medicare provides 4 patches per 28 days per prescription for BUTRANS. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Group BlueCHiP for Medicare requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Group BlueCHiP for Medicare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Group BlueCHiP for Medicare will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Group BlueCHiP for Medicare to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Group BlueCHiP for Medicare Formulary?" on this page for information about how to request an exception.

## What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact the BlueCHiP for Medicare Concierge Team and ask if your drug is covered.

If you learn that Group BlueCHiP for Medicare does not cover your drug, you have two options:

- You can ask the BlueCHiP for Medicare Concierge Team for a list of similar drugs that are covered by Group BlueCHiP for Medicare. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Group BlueCHiP for Medicare.
- You can ask Group BlueCHiP for Medicare to make an exception and cover your drug. See below for information about how to request an exception.

## How do I request an exception to the Group BlueCHiP for Medicare Formulary?

You can ask Group BlueCHiP for Medicare to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Group BlueCHiP for Medicare limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Group BlueCHiP for Medicare will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

## What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 91-day supply and may be up to a 98-day transition supply, consistent with the dispensing increment (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will

cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If you change your level of care, such as a move from a hospital to a home setting, and you need a drug that is not on our formulary or if your ability to get your drugs is limited, we will cover a one-time temporary supply for up to 30 days (or 31-day supply if you are a long-term care resident) when you go to a network pharmacy. During this period, you can discuss alternative treatments with your doctor or use the plan's exception process if you wish to continue coverage of the drug after the temporary supply is finished. Our transition policy will not cover drugs that Medicare does not normally cover.

## For more information

For more detailed information about your Group BlueCHiP for Medicare prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Group BlueCHiP for Medicare, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit [www.medicare.gov](http://www.medicare.gov).

## Group BlueCHiP for Medicare's Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by Group BlueCHiP for Medicare. If you have trouble finding your drug in the list, turn to the Index that begins on page 109.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., NYMALIZE) and generic drugs are listed in lower-case italics (e.g., *lidocaine*).

The information in the Requirements/Limits column tells you if Group BlueCHiP for Medicare has any special requirements for coverage of your drug.

**B/D** indicates drugs that may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

**LA** stands for Limited Availability. This prescription may be available only at certain pharmacies.

For more information consult your Group Pharmacy Directory or call the BlueCHiP for Medicare Concierge Team at 401-277-2958 or 1-800-267-0439 (TTY users should call 711), seven days a week from October 1 to February 14, 8:00 a.m. to 8:00 p.m. From February 15 to September 30, you can call Monday through Friday, from 8:00 a.m. to 8:00 p.m. On Saturday and Sunday, call from 8:00 a.m. to noon. You can use our automated answering system outside of these hours, or visit [www.bcbsri.com](http://www.bcbsri.com).

**PA** stands for Prior Authorization. Refer to page II for more information.

**QL** stands for Quantity Limits. Refer to page II for more information.

**ST** stands for Step Therapy. Refer to page II for more information.
