

**EFFECTIVE DATE:** 12 | 1 | 2004

**POLICY LAST UPDATED:** 05 | 4 | 2015

## OVERVIEW

Prolonged service codes are add-on codes that are used when a physician or other qualified healthcare professional provides prolonged service involving direct patient contact that is provided beyond the usual service in either the inpatient or outpatient setting.

## MEDICAL CRITERIA

Not applicable as this is a reimbursement policy.

## PRIOR AUTHORIZATION

Prior authorization is not required.

## POLICY STATEMENT

Claims filed for prolonged services are covered when the documentation submitted with the claim validates that the time and documentation requirements have been met.

Claims filed for prolonged services (99354 - 99357), will automatically suspend for individual consideration review. The supporting documentation must be filed with the claim at the time of submission.

The documentation is reviewed to determine that all of the following are met:

- Documentation reflects the physician time spent having direct patient contact;
- Includes the start time and end time or the total time spent having direct patient contact.
- Sufficient documentation must be included in the medical record that the provider personally furnished the direct face-to-face time with the patient as specified in the CPT code definitions.
- The documentation should also meet the coding guidelines for the E&M service being provided. If time is used as a basis for selecting the appropriate level of E&M, then the medical record must indicate that counseling was the dominant service provided.

It is not appropriate to bill prolonged services for any the following:

- In the office setting, for time spent by office staff with the patient, or time the patient remains unaccompanied in the office
- With Preventive Medicine codes, 99381-99397
- With Emergency Medicine Department codes, 99281-99285
- With critical care codes, 99291-99292
- With Neonatal Intensive care codes, 99295-99298
- With prolonged E&M services before and/or after direct patient contact, 99358-99359

### **Prolonged Services Filed by Mid-Level Practitioners in Inpatient Setting:**

Mid-level practitioners (e.g., Nurse Practitioners, Physicians Assistants) will not be reimbursed when providing E&M prolonged services in the inpatient hospital setting

### **Prolonged Behavioral Health Services Provided to Children Under the Age of 18:**

BCBSRI recognizes that the evaluation of children/adolescents often takes longer than adults and requires additional collateral contacts that further differentiate this population. Effective, for dates of service on or after January 1, 2013, BCBSRI allows providers to file with a modifier “TU” Special Payment Rate, Overtime for extended psychiatric diagnostic interview examination ( 90791-TU and 90792-TU) for children under the age of 18. Extended services are defined as psychiatric diagnostic interview/examinations that extend longer than 75 minutes for our members under 18 years of age.

## **COVERAGE**

Benefits may vary between groups/contracts. Please refer to the appropriate Evidence of Coverage or Subscriber Agreement for the applicable doctors' hospital visits and office visits benefits/coverage.

## **BACKGROUND**

Blue Cross & Blue Shield of Rhode Island has created this policy to document the coding guidelines for reimbursement of prolonged services. These codes are used when a physician or other qualified healthcare professional provides prolonged service involving direct patient contact that is provided beyond the usual service in either the inpatient or outpatient setting.

Prolonged service in the office or other outpatient setting requires direct patient contact beyond the usual service. In the inpatient setting, direct patient contact is face-to-face and includes additional non-face-to-face services on the patient's floor or unit in the hospital or nursing facility during the same session. This service is reported in addition to the designated evaluation and management services at any level and any other services provided at the same session as evaluation and management services.

## **CODING**

### **BlueCHiP for Medicare and Commercial Products**

The following codes are covered when documentation requirements are met:

**99354** Prolonged service in the office or other outpatient setting requiring direct patient contact beyond the usual service; first hour (List separately in addition to code for office or other outpatient Evaluation and Management service)

**99355** Prolonged physician service in the office or other outpatient setting requiring direct (face-to-face) patient contact beyond the usual service; each additional 30 minutes (list separately in addition to code for prolonged service).

**99356** Prolonged service in the inpatient or observation setting, requiring unit/floor time beyond the usual service; first hour (list separately in addition to the code for inpatient Evaluation and Management service).

**99357** Prolonged service in the inpatient or observation setting, requiring unit/floor time beyond the usual service; each additional 30 minutes (list separately in addition to the code for prolonged service).

This medical policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your medical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this medical policy. For information on member-specific benefits, call the provider call center. If you provide services to a member which are determined to not be medically necessary (or in some cases medically necessary services which are non-covered benefits), you may not charge the member for the services unless you have informed the member and they have agreed in writing in advance to continue with the treatment at their own expense. Please refer to your participation agreement(s) for the applicable provisions. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice.
