Blue Cross Dental has outlined our coverage guidelines and clinical policies to promote our members’ health. We have based these guidelines on professional standards and the input of our Dental Constituency Advisory Committee (DCAC), which includes licensed, practicing Rhode Island dentists. DCAC gives significant input regarding clinical parameters of care and helps to define the dental community’s standard of care. We review our policies annually, and more frequently if needed, to determine clinical appropriateness.

This document utilizes the most current ADA Current Dental Terminology (CDT) coding. For each code, we have outlined coverage guidelines including frequency, age limitations, clinical criteria and relationship to other codes, when applicable. We have also noted:

- When procedures are **not covered** benefits and thus become billable to the member.
- When procedures are **considered integral** to a greater procedure and therefore a Blue Cross Dental participating dentist may not bill the member.
- Codes that require supporting documentation, including details on the documentation, for Dentist Advisor review. Participating dentists that are part of our Provider Off Review Program are exempt from these requirements with the exception of all Implant services (D6000-D6199) and Unlisted procedures (D x999).

Please note that member benefits are determined by our coverage guidelines and clinical policies and the terms of the member’s Subscriber Agreement. However, some employers customize their employees’ benefits, making it important to always check benefits and eligibility before performing services at My Patients’ Benefits on [www.unitedconcordia.com](http://www.unitedconcordia.com).

Additionally, coverage guidelines for qualified plans under the Affordable Care Act are set forth by the Federal government and may differ from Blue Cross Dental guidelines. Please refer to the Pediatric Dental Benefit section at the end of this guide.

Please use this guide to determine the correct code to describe the services you have provided to your patient. For additional information about billing, please refer to our Participating Dentist Administrative Manual at [www.bcbsri.com/providers/dental](http://www.bcbsri.com/providers/dental).
INTERNAL POLICY DESCRIPTION:

CODES:
D2971 - Additional procedures to construct new crown under existing partial denture framework

CRITERIA:

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:
1 per 5 years
Additional procedures within the 5 years are not covered and are member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 20165

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Amalgam and composite restorations are placed to restore functionality to a tooth that has been broken down by caries (decay) or fractured. Restorations may be made to permanent and/or primary teeth and may involve one to four or more surfaces of a tooth.

The placement of amalgam or composite restorations includes liners, base, pulp cap, bonding adhesive and polishing. Local anesthesia is considered to be part of the restorative procedure. Most subscriber contracts state that composite (white) restorations on posterior teeth are not a covered benefit; however, the allowance for the corresponding amalgam (silver) restoration (same tooth surfaces) is made for this restoration, with the patient responsible for payment of the difference between the amalgam allowance and the dentist's charge for the composite restoration.

When restorations with multiple surfaces on the same tooth are submitted, processing is as follows:

- For anterior and/or posterior teeth, a combination of occlusal (or incisal) surfaces and interproximal surfaces - pay as one multi-surfaced restoration with each submitted surface represented, (i.e., #3 MOB), each surface considered ONCE for a restoration.

The buccal surface on a posterior restoration may be considered as a separate one-surface restoration if it is NOT connected to the other restoration(s) and a different material is used.

CODES:

D2140 -Amalgam-one surface, primary or permanent
D2150 -Amalgam-two surfaces, primary or permanent
D2160 -Amalgam-three surfaces, primary or permanent
D2161 -Amalgam-four or more surfaces, primary or permanent
D2330 -Resin-based composite-one surface, anterior
D2331 -Resin-based composite-two surfaces, anterior
D2332 -Resin-based composite-three surfaces, anterior
D2335 -Resin-based composite-four or more surfaces or involving incisal angle (anterior)
D2390 -Resin-based composite crown, anterior
D2391 -Resin-based composite-one surface, posterior
D2392 -Resin-based composite-two surfaces, posterior
D2393 -Resin-based composite-three surfaces, posterior
D2394 -Resin-based composite-four or more surface, posterior

CRITERIA:

No review required.

LIMITATIONS:

DOCUMENTATION:
FREQUENCY:
Benefits for the replacement of an existing amalgam/composite restoration are payable after 12-24 months have passed since the previous placement the restoration. If a filling (same surfaces) is are replaced within 12-24-month period by same participating dentist/office, it is considered integral to the initial filling placement. A participating dentist may not bill the member.

INTERNAL POLICY DESCRIPTION

Local anesthesia is considered integral to part of the operative procedure(s) performed, and there is no separate benefit. A participating dentist may not bill a member for integral services. General anesthesia and intravenous sedation are a separate benefit when performed in conjunction with specific oral surgery procedures.

CODES:

- D9210: Local anesthesia not in conjunction with operative or surgical procedures: Integral to the greater procedure. A participating dentist may not bill the member. Not covered.
- D9211: Regional block anesthesia: Integral to the greater procedure. A participating dentist may not bill the member. Inclusive.
- D9212: Trigeminal division block anesthesia: Integral to the greater procedures. A participating dentist may not bill the member. Inclusive.
- D9215: Local anesthesia in conjunction with operative or surgical procedures: Integral to the greater procedure. A participating dentist may not bill the member.
- D9219: Evaluation for deep sedation or general anesthesia: Integral to administration of the anesthesia. A participating dentist may not bill the member. Not covered.
- D9220/9221: Limited to 60 minutes. Any charge exceeding 60 minutes is not covered and is considered member liability.
- D9223: Deep sedation/general anesthesia – each 15 min increments
- D9230: Inhalation of nitrous oxide / anxiolysis, analgesia – each 15 min increments
- D9243: Intravenous conscious sedation/analgesia – each 15 min increments
- D9248: Non-intravenous conscious sedation: Not covered and is considered member liability.

CRITERIA:

LIMITATIONS: Benefits for general anesthesia and IV sedation are limited to coverage only when performed in conjunction with the following procedure codes:
- D7210-D7251; D7260-D7261; D7280-D7286; D7290; D7340-D7350; D7471-D7473; D7485; D7520 & D7521; D7610-D7671; D7830; D7999 - if determined by Dental Consultant
- D9220/9221: Limited to 60 minutes. Any charge exceeding 60 minutes is not covered and is considered member liability.

If additional units are needed, consideration will be made for coverage on an individual basis with rationale and treatment notes.

FREQUENCY: N/A

DOCUMENTATION:

INTERNAL POLICY DESCRIPTION

Apexification and recalcification procedures are performed in circumstances of traumatic injuries to the apices, or incomplete closure of the apex/apices of a permanent tooth. X-rays and intra-canal medication are necessary in these cases.

CODES:
D3351 - Apexification/recalcification– initial visit (apical closure/calcific repair of perforations, root resorption, pulp space disinfection, etc.) "Includes opening tooth, preparation of canal spaces, first placement of medication and necessary radiographs. (This procedure may include first phase of complete root canal therapy.)"
D3352 - Apexification/recalcification - For visits in which the intra-canal medication is replaced with new medication and necessary radiographs. (This procedure may include first phase of complete root canal therapy)
D3353 - Apexification/recalcification-final visit (include completed root canal therapy-apical closure/calcific repair of perforations, root resorption, etc.)
D3355 - Pulpal regeneration - initial visit (includes opening tooth, preparation of canal spaces, placement of medication)
D3356 - Pulpal regeneration - interim medication replacement
D3357 - Pulpal regeneration - completion of treatment (does not include final restoration)

CRITERIA:
No review required.

LIMITATIONS:
Not covered on primary teeth and permanent teeth of members over under age 15.

DOCUMENTATION:
FREQUENCY:
D3355, D3356, D3357- Covered once per tooth per lifetime.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Root canal treatment will be be offset by the amount benefitted for pulpal regeneration when pulpal regeneration was done within 12 months prior to the root canal treatment.

PER ADA CDT 2016

BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
A core build-up provides a foundation upon which a crown will be fabricated. A tooth is deemed in need of a core build-up if it requires the replacement of missing tooth structure for the purpose of obtaining adequate resistance and retention for the crown. If the purpose of the restoration involves pulpal insulation, undercut elimination, cast bulk reduction, box formation or eliminating concave irregularities in the preparation, or for any other purposes other than obtaining adequate retention, the replacement of tooth structure should not be considered a core build-up.

CODES:
D2950 - Core buildup, including any pins

CRITERIA:
The Dentist Advisory Consultant will review for large restorations mesial-distal with substantial depth, or with little supporting tooth structure buccal-lingual, also validating the need for a core build-up. If a tooth has been fractured or decayed, leaving minimal tooth structure to adequately provide retention for crown placement, a core build-up is indicated.

LIMITATIONS:
Not covered for members under age 14 unless clinical rationale is provided and is considered member liability.
Not covered on primary teeth and is considered member liability.

DOCUMENTATION:
Pre-operative periapical xray and photo (if applicable and available)

FREQUENCY:
Replacement limited to once in 5 years
Replacements within the 5 years are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
PER ADA CDT 20165

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
This procedure is employed to allow access to sound tooth structure for a restorative procedure or crown placement for adequate crown height and/or margins. Crown lengthening requires reflection of a flap and bone removal, and is performed in a healthy periodontal environment, (as opposed to osseous surgery, which is performed in the presence of periodontal disease.) Where there are adjacent teeth, the flap design may involve a larger surgical area.

CODES:
D4249-Clinical crown lengthening-hard tissue

CRITERIA:
Two or more on same date of service requires Dentist Advisor review.

LIMITATIONS:

DOCUMENTATION:
Pre-operative periapical xray

FREQUENCY:
Benefit once per tooth per lifetime
Additional crown lengthening procedures on the same tooth are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Crown repairs are subject to individual consideration by Dental Consultant review. The review requires adequate clinical documentation.

CODES:

- D2980 - Crown repair necessitated by restorative material failure
- D2981 - Inlay repair necessitated by restorative material failure: Not covered
- D2982 - Onlay repair necessitated by restorative material failure
- D2983 - Veneer repair necessitated by restorative material failure: Not covered

CRITERIA:

The allowance for a crown repair will be determined by considering the time, difficulty and materials used in the process to repair the crown.

LIMITATIONS:

DOCUMENTATION:

X-rays, treatment notes, detailed narrative, photo if available, copy of the lab charges (if applicable)

FREQUENCY:

Considered integral to the crown benefit if performed within 12 months of insertion by the same dentist/dental office. A participating dentist may not bill the member. Thereafter, repairs are limited to once in 36 months. Additional repairs are not covered and are considered member liability, and should be considered inclusive with the crown benefit if performed within 60 months of insertion by the same dentist/dental office.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Blue Cross Dental recommends that the most conservative treatment should be attempted to restore a tooth. Crowns are covered when a tooth is decayed or fractured to the degree that an amalgam or composite filling is inadequate to restore the tooth's functionality. A tooth must have a sound endodontic and periodontal prognosis to be considered eligible for crown coverage.

Cementation/insertion date (delivered to the mouth) is considered the completion date for a crown and benefits are payable for that date of service (not prep date).

There is a five-year time limitation for replacement of a crown and/or other major restorative procedures. Study models and temporary crowns are considered part of the overall major restorative procedure. The benefit for a crown includes the preparation, impressions, insertion and post-operative care.

Recementation of a crown, within 12 months of delivery of the crown, is considered part of the comprehensive procedure and the patient is not responsible for payment.

Generally, crowns are allowed only on permanent teeth. In the case of a retained deciduous tooth without a permanent successor, consideration for a crown is given if the tooth has sufficient periodontal support. Individual consideration review by the Dental Consultant is required in these cases. A crown may be contractually denied with the patient responsible for payment if the following conditions exist:

- Treatment to restore tooth structure that is lost due to attrition, erosion and/or abrasion (unless imminent pulpal danger)
- Placement of a crown on a "peg lateral" for cosmetic reasons (consideration if fractured/decayed per guidelines)
- Placement of a crown on a tooth for reasons deemed cosmetic in nature
- Crowns placed solely to increase vertical dimension, restore occlusion, or correct congenital defects

Specialized procedures - Specialized procedures are considered non-covered by Blue Cross Dental and the patient is responsible for payment. These services are to be performed with the consent of the patient prior to initiation of treatment. Documentation of the patient’s acceptance of the treatment plan and payment responsibility is recommended. A porcelain labial margin (porcelain butt joint) is an example of a specialized restorative procedure.

CODES:

D2710 -Crown-resin-based composite (indirect)
D2712 -Crown-3/4 resin-based composite (indirect)
D2720 -Crown-resin with high noble metal
D2721 -Crown-resin with predominantly base metal
D2722 -Crown-resin with noble metal
D2740 -Crown-porcelain/ceramic substrate
D2750 -Crown-porcelain fused to high noble metal
CRITERIA:

**Dentist Advisory Consultant Review**

Specific criteria for crown treatment includes:

- Any large existing restorations must involve at least 50% of the tooth structure
- Additional surface exhibits large area of decay
- Cuspal fracture/incisal fracture (of at least 50% of incisal angle)
- Extensive recurrent decay
- Posterior teeth – existing restoration of at least three surfaces, leaving thin walls on other surfaces
- Anterior teeth – existing restoration of at least two surfaces or with proximity to the pulp
- Radiographic evidence of a poor endodontic prognosis will result in the denial of major restorative procedures (patient responsible for payment)
- If there is inadequate bone support (approximately 2/3’s or more loss at site) demonstrated in the x-ray(s), the treatment site will be considered at risk for a long-term periodontal prognosis and denied (patient responsible for payment) for major restorative procedures. Adequate bone support is evaluated based upon the following:
  - pocket depths
  - mobility
  - bone density
  - vertical and/or horizontal bone loss
  - length and condition of the roots
  - furcation involvement
  - on-going treatment by a periodontist
  - age of patient

Craze lines do not qualify as a “crack” in a tooth. **If a tooth has been diagnosed with “cracked tooth syndrome”, appropriate documentation must be submitted to demonstrate that the tooth is symptomatic.** Blue Cross Dental recommends submitting a detailed narrative and/or treatment chart denoting the history of symptoms.

If a tooth has undergone a hemisection, only one crown per tooth (not section of a tooth) is allowed.

Cerec crowns are considered a covered benefit and should be reported using code D2740 and indicated on the submission (notation at bottom) as “Cerec”.

LIMITATIONS:

Not covered for members under age 14 [unless clinical rationale is provided] and is considered member liability.
**DOCUMENTATION:**
Pre-operative periapical x-ray or if tooth is endodontically treated, a post-operative endo periapical x-ray showing all apices, detailed narrative (if applicable)

**FREQUENCY:**
One onlay OR crown per tooth in a five-year period.
*Replacements within the 5 years are not covered and are considered member liability.*

**RELATIONSHIP TO OTHER CODES:** (for payment purposes)
Study models and temporary crowns are *considered integral to the crown.* A participating dentist may not bill the member *inclusive.*
Recementation of a crown, within 12 months of delivery of the crown, is considered *integral to* part of the crown comprehensive procedure, and the patient is not responsible for payment. *A participating dentist may not bill the member.*

**PER ADA CDT 20165**
This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Periodontal charting and detailed narrative (for third cleaning)

FREQUENCY:
Two (2) cleanings per patient member per calendar year, 12 months

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Considered integral when performed on the same day, or within 45 days, by the same dentist, as two or more limited sites, or one or more quadrants of scaling and root planing.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

A rebase or reline to a complete or partial denture, performed within six months of delivery of the denture (exception: allowed for immediate denture D5130; D5140), is considered part of the initial fee for the denture and a participating dentist may not charge the member.

CODES:

Denture Rebase Procedures
- D5710 - Rebase complete maxillary denture
- D5711 - Rebase complete mandibular denture
- D5720 - Rebase maxillary partial denture
- D5721 - Rebase mandibular partial denture

Denture Reline Procedures
- D5730 - Reline complete maxillary denture (chairside)
- D5731 - Reline complete mandibular denture (chairside)
- D5740 - Reline maxillary partial denture (chairside)
- D5741 - Reline mandibular partial denture (chairside)
- D5750 - Reline complete maxillary denture (laboratory)
- D5751 - Reline complete mandibular denture (laboratory)
- D5760 - Reline maxillary partial denture (laboratory)
- D5761 - Reline mandibular partial denture (laboratory) No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:

Benefit for rebase or reline: once in a 36 month period, per arch.

Additional rebase or reline procedures within the 36 month period are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 2016
INTERNAL POLICY DESCRIPTION:
This procedure is performed in an edentulous area adjacent to a periodontally involved tooth. Gingival incisions are utilized to allow removal of a tissue wedge to gain access and correct the underlying osseous defect and to permit close flap adaptation.

CODES:
D4274- Distal or proximal wedge procedure (when not performed in conjunction with surgical procedures in the same anatomical area)

CRITERIA:
No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:
Once per site per 36 months.
When performed more than once per 36 months, distal wedge procedures (same site) are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Distal wedge procedure is considered denied as integral if performed on same day, same dentist as other periodontal treatment. A participating dentist may not bill the member, patient for the difference in the charges.

PER ADA CDT 2016

Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

Retreatment of a root canal, when performed by the same dentist as the original treatment, is considered integral to part of the original root canal for up to 12 months, and the patient cannot be charged for additional treatment during this period. A participating dentist may not bill the member.

CODES:
D3346 - Retreatment of previous root canal therapy - anterior
D3347 - Retreatment of previous root canal therapy - bicuspid
D3348 - Retreatment of previous root canal therapy – molar

CRITERIA:
Dentist Advisory Consultant Review required only when provided within 30 days prior to an extraction.

LIMITATIONS:
Once per tooth per lifetime.

DOCUMENTATION: Pre-operative, post-operative periapical xrays and narrative

FREQUENCY:
Benefits for retreatment of a root canal by a different dentist (than performed the original endodontic treatment) are allowed.
Retreatment by the same dentist (that performed the original root canal) is considered integral to the initial RCT if performed not allowed within 12 months. A participating dentist may not bill the member.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Exams, palliative treatment, pulp tests, apical curettage, x-rays (related to root canal retreatment), localized anesthetic are considered integral to the part of the treatment. A participating dentist may not bill the member.
Post removal (D2955) is considered integral to endodontic retreatment if performed on same day, by same dentist. A participating dentist may not bill the member.

PER ADA CDT 2016
This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents may supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

Blue Cross Dental covers endodontic treatment on permanent teeth only. Therefore, root canal therapy on primary teeth is not a covered benefit and is considered member liability.

Exception: If a primary tooth is in need of a root canal and there is no permanent successor to the primary tooth, consideration for benefits will be made. The Dental Consultant Advisor will review these exceptions.

CODES:
D3230 - Pulpal therapy (resorbable filling)-anterior, primary tooth (excluding final restoration): Not covered and is considered member liability.
D3240 - Pulpal therapy (resorbable filling)-posterior, primary tooth (excluding final restoration): Not covered and is considered member liability.

CRITERIA:
If a primary tooth is in need of a root canal and there is no permanent successor to the primary tooth, consideration for benefits will be made. The Dentist Advisor will review these exceptions.

LIMITATIONS:

DOCUMENTATION:
Preoperative periapical xray

FREQUENCY:
Once per tooth per lifetime when there is no permanent tooth to replace the primary tooth. N/A

INTERNAL POLICY DESCRIPTION:

Extractions include local anesthesia, suturing if needed, and routine post-operative care. If an attempt to extract a tooth fails, it is not considered a completed procedure and should not be submitted for benefits. The entire tooth and roots must be extracted to be considered for benefits.

CODES:
D7111 - Extraction, coronal remnants-deciduous tooth
D7140 - Extraction, erupted tooth or exposed root (elevation and/or forceps removal)

CRITERIA:
No review required.

LIMITATIONS:
Some groups may have coverage for simple extractions (non-surgical) only. The coverage may/may not apply an alternate benefit of a simple extraction allowance for surgical extractions-D7210 with the member liable for the difference in payment up to the dentist's charge for the surgical extraction.

DOCUMENTATION:

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)
D7111 is considered integral to extraction if reported by the same dentist who extracted the tooth. A participating dentist may not bill the member.

INTERNAL POLICY DESCRIPTION

No replacement of teeth beyond the normal complement if allowed. Benefits for a fixed bridge are applicable in one calendar year, and individual units of the bridge may not be applied to multiple calendar years. Benefits are payable upon insertion/delivery of the fixed bridge.

CODES:

Fixed Partial Denture Pontics
- D6205-Pontic-indirect resin based composite—(Not be used as a temporary or provisional prosthesis)
- D6210-Pontic-cast high noble metal
- D6211-Pontic-cast predominantly base metal
- D6212-Pontic-cast noble metal
- D6214-Pontic-titanium
- D6240-Pontic-porcelain fused to high noble metal
- D6241-Pontic-porcelain fused to predominantly base metal
- D6242-Pontic-porcelain fused to noble metal
- D6245-Pontic-porcelain/ceramic
- D6250-Pontic-resin with high noble metal
- D6251-Pontic-resin with predominantly base metal
- D6252-Pontic-resin with noble metal
- D6253-Provisional pontic—further treatment or completion of diagnosis necessary prior to final impression: Not covered and are considered member liability.

Fixed Partial Denture Retainers - Inlays/Onlays
- D6545-Retainer-cast metal for resin bonded fixed prosthesis
- D6548-Retainer-porcelain/ceramic for resin bonded fixed prosthesis
- D6549-Resin retainer- for resin bonded fixed prosthesis
- D6600-Inlay-porcelain/ceramic, two surfaces
- D6601-Inlay-porcelain/ceramic, three or more surfaces
- D6602-Inlay-cast high noble metal, two surfaces
- D6603-Inlay-porcelain/ceramic, three or more surfaces
- D6604-Inlay-cast predominantly base metal, two surfaces
- D6605-Inlay-cast predominantly base metal, three or more surfaces
- D6606-Inlay-cast noble metal, two surfaces
- D6607-Inlay-cast noble metal, three or more surfaces
**D6624-Inlay-titanium:** Porcelain/ceramic onlays are given an alternate benefit of an amalgam or metallic onlay, determined by the Dentist Advisoral Consultant review based on criteria for full crown coverage. Patient is responsible for difference in payment up to dentist’s charge.

**CRITERIA:**

**Dentist Advisoral Consultant Review**

The need for pontics will be evaluated based on the amount of space between the abutment teeth, and the number of natural teeth being replaced. Pontics are not benefitted when replacing teeth beyond the normal complement. Extra pontics are **not covered and are considered member liability**, a patient liability up to the dentist’s charge.

In the case where an abutment tooth does not appear to provide adequate support for the bridge in terms of crown/root ratio, the Dentist Advisoral Consultant may deny the entire bridge. Double abutments may be considered upon Dentist Advisoral Consultant review.

**LIMITATIONS:**

Not covered for members under age 14 unless clinical rationale is provided **and are considered member liability**.
DOCUMENTATION:
Preoperative periapical X-rays of the entire treatment site (all teeth in the treatment plan) are required for review. If the abutment tooth is endodontically treated, a post-operative endo periapical x-ray showing all apices.
If there are special circumstances related to the treatment, a detailed narrative is recommended. It is imperative that a “Request for Review” form is submitted with a predetermination or payment claim for a treatment plan that involves one (or more) of these exceptions to the five-year limitation for replacement.

FREQUENCY:
One per 60 months.
A bridge placed in the same treatment area within the 5 years will not be covered and is considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
See above.

This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

CODES:
D4355 - Full mouth debridement to enable comprehensive evaluation and diagnosis

CRITERIA:

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:
Once per lifetime

If additional debridement is performed (outside of the below exceptions), it is not covered and is considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Denied as integral if performed on same day, same dentist as prophylaxis (D1110) or scaling and root planing (D4341/D4342). A participating dentist may not bill the member.

Payment will not be made if reported on same day, same dentist as periodontal maintenance or within 12 months FOLLOWING routine prophylaxis, periodontal maintenance or scaling and root planing as this is inappropriate treatment sequence. A participating dentist may not bill the member.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
A soft tissue flap is reflected or resected to allow debridement of the root surface and the removal of granulation tissue. Osseous recontouring is not accomplished in conjunction with this procedure. May include open flap curettage, reverse bevel flap surgery, modified Kirkland flap procedure, and modified Widman surgery. This procedure is performed in the presence of moderate to deep probing depths, loss of attachment, need to maintain esthetics, need for increased access to the root surface and alveolar bone, or to determine the presence of a cracked tooth, fractured root, or external root resorption. Other procedure may be required concurrent to D4240/D4241 and should be reported separately using their own unique codes.

CODES:
D4240-Gingival flap procedure, including root planing-four or more contiguous teeth or tooth bounded spaces per quadrant
D4241-Gingival flap procedure, including root planing-one to three contiguous teeth or tooth bounded spaces per quadrant

CRITERIA:
Dentist Advisor Consultant review required.

LIMITATIONS:
Limited to once per 36 months per mouth area. Additional periodontal procedure(s) performed (same site) within the 36 months, are not covered and are considered member liability.

DOCUMENTATION:
Pre-treatment radiographs and periodontal charting and narrative. More than two quadrants provided on the same date require an explanation as to why services were provided on the same date.

FREQUENCY:
If submitted by the same dentist on the same date of service in the same mouth area as extractions, periodontal surgery (except soft tissue grafts), and oral surgery procedures, this procedure will be considered integral to the more comprehensive procedure for reimbursement purposes. A participating dentist may not bill the patient for the difference in the charges member. Not covered within 36 months following gingival flap, surgical procedures or scaling and root planing in the same mouth area and is considered member liability.
RELATIONSHIP TO OTHER CODES: (for payment purposes)

| PER ADA CDT 20165 |

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
Gingivectomy involves the excision of gingiva by an internal or external bevel or laser therapy. This procedure will assist in the elimination of suprabony pockets, and/or allow access for the placement of restorations. In cases of gingival enlargement, a gingivectomy may be performed to restore normal architecture to the soft tissues and may also be referred to as "gingivoplasty".

A gingivectomy is performed when there is evidence of gingival hyperplasia and/or diseased soft tissue conditions which require excision to restore the health of the tissue or access to sound tooth structure. Both gingivectomy and gingivoplasty procedures are surgical procedures and are usually performed in the early stages of periodontal disease to prevent progression to more serious periodontal conditions.

CODES:
D4210 -Gingivectomy or gingivoplasty-four or more contiguous teeth or tooth bounded tooth spaces per quadrant
D4211 -Gingivectomy or gingivoplasty-one to three contiguous teeth or tooth bounded tooth spaces per quadrant
D4212 -Gingivectomy or gingivoplasty to allow access for restorative procedure, per tooth: Not covered and is considered member liability.

CRITERIA:
D4210, D4211 - Requires Dentist Advisory Consultant review (as applicable)

LIMITATIONS:
Periapical xray,
Periodontal charting,
Detailed clinical narrative including diagnosis

FREQUENCY:
One treatment per site/area in a 36-month period
If additional periodontal procedure(s) are performed (same site) within the 36 months, the gingivectomy is not covered and is considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
If performed in the same treatment area, on the same date of service as periodontal scaling and root planing, osseous surgery or flap surgery, the gingivectomy is considered integral to part of the more comprehensive procedure and will not be a separate benefit. A participating dentist may not bill the member not charge the patient separately.

A gingivectomy is not benefitted at the same treatment site as a crown lengthening procedure. If a restoration (filling, crown, etc.) is performed at the same treatment site, on the same date of service as D4211, no separate benefit is allowed. A participating dentist may not bill the member.

PER ADA CDT 20165

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Gold foil restorations and inlays are considered alternative restorations. Gold foil restorations are not covered and are considered member liability. Metallic and composite inlays are restorations that may be composed of precious metals, semi-precious metals, non-precious metals, or composite materials. These restorations are not a covered benefit, however, the allowance for the corresponding amalgam restoration (same tooth surfaces) is made for this restoration, with the patient responsible for payment of the difference of reimbursement up to the dentist’s charge for the inlay. These services should be performed with the consent of the patient prior to the initiation of treatment. Documentation of the patient’s acceptance of the treatment plan and payment responsibility is recommended.

CODES:

- D2410 - Gold foil-one surface: Not covered and is considered member liability.
- D2420 - Gold foil-two surface: Not covered and is considered member liability.
- D2430 - Gold foil-three surface: Not covered and is considered member liability.
- D2510 - Inlay-metallic-one surface
- D2520 - Inlay-metallic-two surfaces
- D2530 - Inlay-metallic-three or more surfaces
- D2610 - Inlay-porcelain/ceramic-one surface
- D2620 - Inlay-porcelain/ceramic-two surfaces
- D2630 - Inlay-porcelain/ceramic-three or more surfaces
- D2650 - Inlay-resin-based composite-one surface
- D2651 - Inlay-resin-based composite-two surfaces
- D2652 - Inlay-resin-based composite-three or more surface

CRITERIA:

No review required

LIMITATIONS:

DOCUMENTATION:

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
A membrane is placed over the root surfaces or defect area following surgical exposure and
debridement. The mucoperiosteal flaps are then adapted over the
membrane and sutured. The membrane is placed to exclude epithelium and gingival connective tissue
from the healing wound. This procedure may require subsequent surgical procedures to correct the
gingival contours. Guided tissue regeneration may also be carried out in conjunction with bone
replacement grafts to correct deformities resulting from inadequate faciolingual bone width in an
edentulous area. When guided tissue regeneration is used in association with a tooth, each site on a
specific tooth should be reported separately. Other procedures may be required concurrent
to D4266/D4267 and should be reported using their own unique codes.

CODES:
D4266 - Guided tissue regeneration - resorbable barrier, per site: This procedure does not include flap
entry and closure, or when indicated, wound debridement, osseous contouring, bone replacement
grafts, and placement of biologic materials to aid in osseous regeneration. This procedure can be used
for periodontal and peri-implant defects.
D4267 - Guided tissue regeneration - nonresorbable barrier, per site: This procedure does not include
flap entry and closure, or when indicated, wound debridement, osseous contouring, bone replacement
grafts, and placement of biologic materials to aid in osseous regeneration. This procedure can be used
for periodontal and peri-implant defects.

CRITERIA:
Covered to treat specific periodontal defects.

LIMITATIONS:

DOCUMENTATION:
Current pre operative radiographs,
Periodontal charting,
Detailed narrative.

FREQUENCY:
Allow once per site per lifetime,
Additional GTR performed in the same site is not covered and considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Not covered in conjunction with extraction, cyst removal, apicoectomy or implants and is considered
member liability.
Not covered when provided in conjunction with a soft tissue graft for root coverage and is considered member liability. Guided tissue regeneration provided in conjunction with peri-radicular surgery should be reported under D3432.

PER ADA CDT 20165

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

Hemisection involves the separation of a multi-rooted tooth into separate sections containing the root and overlying portion of the crown. It may include the removal of one or more of those sections. Replacement of the missing section of the tooth with a crown or pontic is not a covered benefit and is considered member liability.

CODES:
D3920-Hemisection (including any root removal), not including root canal therapy

CRITERIA:

Dentist Advisoral Consultant Review
The Dentist Advisoral Consultant evaluates the treatment site to determine if the remaining tooth structure has a sound periodontal prognosis, and generally a good long-term prognosis.

LIMITATIONS:

DOCUMENTATION:
Predetermination: Pre-operative periapical xray.
Claim for services: Pre-operative and post-operative periapical xray.

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)
A root amputation performed on the same day/same tooth by the same dentist as a hemisection is considered integral. A participating dentist may not bill the member. Cannot perform hemisection on same tooth as a root amputation.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
For immediate dentures, benefits for one laboratory reline is allowed within six months of insertion of the denture.
Insertion date (delivered to the mouth) is considered the completion date for a partial denture and benefits are payable for that date of service (not impression date).
Specialized procedures - Specialized procedures are considered non-covered by Blue Cross Dental and the patient is responsible for payment. These services are to be performed with the consent of the patient prior to initiation of treatment. Documentation of the patient’s acceptance of the treatment plan and payment responsibility is recommended.

CODES:
D5130 - Immediate denture-maxillary
D5140 - Immediate denture-mandibular

CRITERIA:
No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:
Once per arch in a 5-year period.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
One removable partial denture, complete or immediate denture or replacement of all teeth and acrylic on a cast metal framework (D5670, D5671) is allowed per arch per five-year period

INTERNAL POLICY DESCRIPTION:

MOVED TO IMPLANT SERVICES

Implant services are not a covered benefit unless specified in the group contract. If a group purchases an Implant Rider, there is a $3,500 lifetime maximum benefit for implant services. Coverage is at 50% and all implant services are subject to Dental Consultant review for all dentists.

Plans with prosthodontic coverage may include benefits for single-tooth implants only. These benefits are allowed in cases where only one natural tooth requires replacement and is an alternate treatment plan to a three-unit bridge.

CODES:

D6056 - Prefabricated abutment includes modification and placement
D6057 - Custom fabricated abutment includes placement
D6051 - Interim abutment: Not covered
D6052 - Semi-precision attachment abutment: Not covered

CRITERIA:

Dental Consultant Review
The implant will be evaluated for successful placement.

LIMITATIONS:

DOCUMENTATION:
Postoperative X-ray and a narrative describing any special circumstances related to the service.

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)

The listed procedure codes are covered if there is an implant rider:

CODES:

- D6010 - Surgical placement of implant body: endosteal implant
- D6011 - Second stage implant surgery
- D6012 - Surgical placement of interim implant body for transitional prosthesis: endosteal implant
- D6013 - Surgical placement: mini implant
- D6040 - Surgical placement: eposteal implant
- D6050 - Surgical placement: transosteal implant
- D6051 - Interim abutment
- D6052 - Semi-precision attachment abutment
- D6055 - Connecting bar – implant supported or abutment supported Utilized to stabilize and anchor a prosthesis.
- D6056 - Prefabricated abutment—includes modification and placement
- D6057 - Custom fabricated abutment—includes placement
- D6068 - Abutment supported retainer for porcelain/ceramic FPD
- D6069 - Abutment supported retainer for porcelain fused to metal FPD (high noble metal)
- D6070 - Abutment supported retainer for porcelain fused to metal FPD (predominantly base metal)
- D6071 - Abutment supported retainer for porcelain fused to metal FPD (noble metal)
- D6072 - Abutment supported retainer for cast metal FPD (high noble metal)
- D6073 - Abutment supported retainer for cast metal FPD (predominantly base metal)
- D6074 - Abutment supported retainer for cast metal FPD (noble metal)
- D6075 - Implant supported retainer for ceramic FPD
- D6076 - Implant supported retainer for porcelain fused to metal FPD (titanium, titanium alloy or high noble metal)
- D6077 - Implant supported retainer for cast metal FPD (titanium, titanium alloy or high noble metal)
- D6080 - Implant maintenance procedures, when prostheses are removed and reinserted, including cleansing of prosthesis and abutments
- D6090 - Repair implant supported prosthesis, by report
- D6091 - Replacement of semi-precision attachment (male or female component) of implant/abutment supported prosthesis, per attachment
- D6092 - Recement implant/abutment supported crown
- D6093 - Recement implant/abutment supported fixed partial denture D6095 - Repair implant abutment, by report
D6100 - Implant removal, by report
D6101 - Debridement of periimplant defect and surface cleaning of exposed implant surfaces, including flap entry and closure
D6102 - Debridement and osseous contouring of periimplant defect; includes surface cleaning of exposed implant surfaces and flap entry and closure
D6103 - Bone graft for repair of periimplant defect - not including entry and closure or, when indicated, placement of a barrier membrane or biologic materials to aid in osseous regeneration
D6104 - Bone graft at time of implant placement
D6110 - Implant/abutment supported removable denture for edentulous arch-maxillary
D6111 - Implant/abutment supported removable denture for edentulous arch-mandibular
D6112 - Implant/abutment supported removable denture for partially edentulous arch-maxillary
D6113 - Implant/abutment supported removable denture for partially edentulous arch-mandibular
D6114 - Implant/abutment supported fixed denture for edentulous arch-maxillary
D6115 - Implant/abutment supported fixed denture for edentulous arch-mandibular
D6116 - Implant/abutment supported fixed denture for partially edentulous arch-maxillary
D6117 - Implant/abutment supported fixed denture for partially edentulous arch-mandibular
D6190 - Radiographic/surgical implant index, by report
D6194 - Abutment supported retainer crown for FPD (titanium)

CRITERIA:

Successful implant placement to support/stabilize the prosthesis. The Dentist Advisoral Consultant reviews removal of an implant on an individual consideration (IC) basis. Individual consideration is given for time, degree of difficulty and materials used to complete the procedure.

DOCUMENTATION:

Post-operative panorex or set of periapical X-rays

FREQUENCY:

Five-year limitation for replacement

There is a five-year limitation for replacement of the abutment supported retainers for fixed bridges. Replacement within the five years is not covered and is considered member liability.

LIMITATIONS:

RELATIONSHIP TO OTHER CODES: (for payment purposes)

If replacing an existing conventional prosthesis, allowance may be reduced if within the five-year limitation.

INTERNAL POLICY DESCRIPTION

Perforation repairs, (recalciification), should be considered integral to as part of the overall root canal treatment if the perforation occurred during the root canal treatment (iatrogenic occurrence), and is being performed by the same dentist. A participating dentist may not bill the member for integral procedures.

Treatment of a natural resorptive defect (due to natural resorption or decay), would be considered as a separate benefit. In these cases, the perforation repair is an attempt to allow the periodontal ligament to re-attach and allow bone healing in the area. (This is differential between perforation repair and apexification in an immature tooth that is an attempt to form an apical calcium bridge.)

CODES:
D3333 - Internal root repair of perforation defects

CRITERIA:
Dentist Advisoral Consultant Review
I.C. review based on specific scenario (above), time, materials used and difficulty of treatment. If extenuating circumstances are identified, the Endodontic Specialty Consultant will conduct the review.

LIMITATIONS:

INTERNAL POLICY DESCRIPTION:

CODES:

D4263 - Bone replacement graft - first site in quadrant - This procedure involves the use of osseous autografts, osseous allografts, or non-osseous grafts to stimulate periodontal regeneration when the disease process has led to a deformity of the bone. This procedure does not include flap entry and closure, wound debridement, osseous contouring, or the placement of biologic materials to aid in osseous tissue regeneration or barrier membranes. Other separate procedures may be required concurrent to D4263 and should be reported using their own unique codes.

D4264 - Bone replacement graft - each additional site in quadrant - This procedure involves the use of osseous autografts, osseous allografts, or non-osseous grafts to stimulate periodontal regeneration when the disease process has led to a deformity of the bone. This procedure does not include flap entry and closure, wound debridement, osseous contouring, or the placement of biologic materials to aid in osseous tissue regeneration or barrier membranes. This code is used if performed concurrently with D4263 and allows reporting of the exact number of sites involved.

D4265 - Biologic materials to aid in soft and osseous tissue regeneration: Not covered and is considered member liability.

CRITERIA:

Dentist advisory consultant review required for multiple bone grafts on the same day by the same dentist.

A single site for reporting bone replacement grafts consists of one contiguous area regardless of the number of teeth involved. Another site on the same tooth is considered part of the first site reported. Non-contiguous areas involving different teeth may be reported as additional sites.

LIMITATIONS:

DOCUMENTATION:

Current periapical xrays
Current periodontal charting

FREQUENCY:

1 per site per 36 months
Not covered within 36 months following periodontal surgery in the same mouth area and is considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

Bone grafts provided on other than natural teeth should be reported with the appropriate codes:
D3428, D3429 – Bone graft in conjunction with periradicular surgery
D6103 – Bone graft for repair of peri-implant defect
D6104 – Bone graft at time of implant placement.
D7950 – Osseous, osteoperiosteal or cartilage graft of the mandible or maxilla
D7953 – Bone replacement graft for ridge augmentation
D7955 – Repart of maxillofacial soft and/or hard tissue defect

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

A nightguard is a removable dental appliance that has been designed to minimize the effects of bruxism (grinding), and other occlusal factors, on the dentition. This appliance would be covered when evidence of clenching and/or grinding has damaged the dentition to reduce further damage/breakdown.

Occlusal guards are covered only when specified by the group/plan. If covered, occlusal guards are limited to once in a 5 year period.

This appliance also does not serve as an athletic mouthguard or orthodontic retainer. Athletic mouthgards are not covered and are considered member liability. Benefits may be available for an orthodontic retainer if the member has orthodontic coverage.

CODES:

D9940 - Occlusal guard, by report: Not covered (unless group/plan-specified) and is considered member liability.

CRITERIA:

No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:

Once in a 5 year period (if covered).

If covered, replacement within 5 years is not covered and is considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Onlays are used as restorations on posterior teeth and involve coverage of at least one cusp. Teeth must have three surfaces involved in order to qualify for an onlay benefit. There is a five-year time limitation for replacement of an onlay and/or other major restorative procedures. Benefits for an onlay or a crown per tooth are allowed in a five-year period. Additional crown or onlay (same tooth) within the 5 year period is not covered and are considered member liability.

Cementation/insertion date (delivered to the mouth) is considered the completion date for an onlay and benefits are payable for that date of service (not prep date.) Study models and temporary restorations are considered part of the overall integral to the major restorative procedure. A participating dentist may not bill the member. This benefit also includes preparation, impressions, insertion and post-operative care. Recementation of an onlay, within 12 months of delivery of the onlay, is considered integral to part of the comprehensive procedure. A participating dentist may not bill the member, and the patient is not responsible for payment.

Onlays are allowed only on permanent teeth. An onlay may be contractually not covered/denied, with the patient-member responsible for payment, if the following conditions exist:

- Treatment to restore tooth structure that is lost due to attrition, erosion and/or abrasion (unless imminent pulpal danger)
- Onlay placed solely to increase vertical dimension, restore occlusion, or correct congenital defects.

CODES:

D2542 - Onlay-metallic-two surfaces: Not covered; may receive alternate benefit of amalgam.
D2543 - Onlay-metallic-three surfaces
D2544 - Onlay-metallic-four or more surfaces
D2642 - Onlay-porcelain/ceramic-two surfaces: Not covered; may receive alternate benefit of amalgam.
D2643 - Onlay-porcelain/ceramic-three surfaces
D2644 - Onlay-porcelain/ceramic-four or more surfaces
D2662 - Onlay-resin-based composite-two surfaces: Not covered; may receive alternate benefit of amalgam.
D2663 - Onlay-resin-based composite-three surfaces
D2664 - Onlay-resin-based composite-four or more surfaces

CRITERIA:

Dentist Advisory Consultant Review

The advisorconsultant will consider for benefits when a tooth is decayed or fractured to the degree that an amalgam or composite filling is inadequate to restore the tooth. A tooth must have a sound endodontic and periodontal prognosis to be considered eligible for crown coverage. Specific guideline criteria for a crown must be met to qualify for this service.
Craze lines do not qualify as a "crack" in a tooth. If a tooth has been diagnosed with "cracked tooth syndrome", appropriate documentation must be submitted to demonstrate that the tooth is symptomatic. Blue Cross Dental recommends submitting a detailed narrative and/or treatment chart denoting a history of symptoms.

LIMITATIONS:

DOCUMENTATION:
A pre-operative periapical x-ray or bitewing x-ray (if tooth is not endo-treated), detailed narrative (if applicable)

FREQUENCY:
One onlay OR crown per tooth in a five-year period. Additional crown or onlay (same tooth) within the 5 year period are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Recementation of an onlay, within 12 months of delivery of the onlay, is considered integral to the part of the comprehensive procedure. A participating provider may not bill the member, and the patient is not responsible for payment.

INTERNAL POLICY DESCRIPTION

Most groups cover one (1) oral examination per calendar year (first oral evaluation code received for processing in the calendar year) performed by a general dentist (to include pedodontists and prosthodontists). Exams by other specialists are not covered and are considered member liability. Some groups may vary and include coverage for two (2) exams in per 12 months.

CODES:
D0120 - Periodic oral evaluation-established patient: one (1) per 12 months
D0140 - Limited oral evaluation-problem focused: one (1) per 12 months
D0145 - Oral evaluation for a patient under three years of age and counseling with primary caregiver: one (1) per 12 months if under 3 years of age
D0150 - Comprehensive oral evaluations-new or established patient: full allowance if the patient has no history of active treatment (including exams) by the same dentist/dental office in the past 3 years; if patient has had treatment in this time period, allowance will be equal to that of a periodic oral evaluation and the participating dentist cannot charge the patient for the difference.
D0160 - Detailed and extensive oral evaluation-problem focused: Not Covered and is considered member liability.
D0170 - Re-evaluation-limited, problem focused (established patient; not post-operative visit): Considered integral to initial procedure. A participating dentist may not bill the member. Not Covered
D0171 - Re-evaluation - post operative visit: Not covered Considered integral to initial procedure. A participating dentist may not bill the member.
D0180 - Comprehensive periodontal evaluation-new or established patient: usually performed by a specialist -Not Covered and is considered member liability.
D0190 - Screening of a patient - A screening, including state or federally mandated screenings, to determine an individual's need to be seen by a dentist for diagnosis - Not Covered and is considered member liability.
D0191 - Assessment of a patient - A limited clinical inspection that is performed to identify possible signs of oral or systemic disease, malformation, or injury, and the potential need for referral for diagnosis and treatment - Not Covered and is considered member liability.

CRITERIA:
Exams are covered by general dentists (to include pedodontists and prosthodontists). Exams by other specialists are not covered and are considered member liability.

LIMITATIONS: N/A

FREQUENCY: Once per calendar year 12 months, unless otherwise specified by contract.
This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. INTERNAL POLICY DESCRIPTION

The procedure codes listed are generally performed in a pathology laboratory and do not include the removal of a tissue sample from the patient, therefore are not covered procedures and are considered member liability.

CODES:

D0472 - Accession of tissue, gross examination, preparation and transmission of written report: Not covered
D0473 - Accession of tissue, gross and microscopic examination, preparation and transmission of written report: Not covered
D0474 - Accession of tissue, gross and microscopic examination, including assessment of surgical margins for presence of disease, preparation and transmission of written report: Not covered
D0480 - Accession of exfoliative cytologic smears, microscopic examination, preparation and transmission of written report: Not covered
D0486 - Accession of transepithelial cytologic sample, microscopic examination, preparation and transmission of written report: Pathological analysis, and written report of findings, of cytologic sample of disaggregated transepithelial cells: Not covered.
D0475 - Decalcification procedure: Not covered
D0476 - Special stains for microorganisms: Not covered
D0477 - Special stains, not for microorganisms: Not covered
D0478 - Immunohistochemical stains: Not covered
D0479 - Tissue in-situ hybridization, including interpretation: Not covered
D0481 - Electron microscopy-diagnostic: Not covered
D0482 - Direct immunofluorescence: Not covered
D0483 - Indirect immunofluorescence: Not covered
D0484 - Consultation on slides prepared elsewhere: Not covered
D0485 - Consultation, including preparation of slides from biopsy material supplied by a referring source: Not covered
D0502 - Other oral pathology procedures, by report: Not covered
D0999 - Unspecified diagnostic procedure, by report: I.C. review (individual consideration) may be made.

CRITERIA:

LIMITATIONS: N/A
FREQUENCY: N/A

Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

Dependents up to the age of 19 are eligible for orthodontic benefits if the specific contract includes orthodontic coverage. Benefits continue until December 31st in the year of the member’s 19th birthday, and is subject to a separate lifetime orthodontic maximum allowance. Adult orthodontic coverage may be available, but is group specific and not part of the customary orthodontic benefits. Initial payment for orthodontic services will be made upon receipt of initial banding date. Orthodontic payments are generally based on the length of treatment. If the length of treatment is six months or less, Blue Cross Dental’s allowance will be made in one payment. Lump sum payments may be made on treatment plans over six months in length if Blue Cross Dental’s total liability is $1000 or less. In most cases, orthodontic treatment will involve an initial payment followed by quarterly payments. Quarterly payments are processed automatically and no further claims are required.

Payments are generally issued as follows (contractual or group specific exceptions may apply):

• 25% of the total amount payable by Blue Cross Dental will be paid upon placement of the bands or appliance as the initial payment.
• The remaining 75% is paid by Blue Cross Dental in equal quarterly payments and one final payment based on the estimated length of treatment and the patient’s benefits.
• The subscriber/patient must be enrolled with Blue Cross Dental during each month that payment is made.
• Quarterly payments are automatically processed- it is not necessary to submit claims for quarterly payments.
• If the patient’s lifetime maximum has been met before the payment schedule has been completed, further payments are discontinued.

Orthodontic treatment “in progress” is calculated the following ways:

• New Enrollee
  o The subscriber/patient must be enrolled on the date of banding or appliance placement to receive payment for these services.
  o If the patient is enrolled after appliance placement, they may be eligible to receive quarterly payments for treatment “in progress”.
  o As soon as the patient becomes eligible for Blue Cross Dental orthodontic benefits, a claim should be submitted for the orthodontic treatment “in progress” including diagnosis, treatment plan, total fee, banding or appliance date and estimated total duration of treatment on the claim.
  o Blue Cross Dental then calculates the amount the plan will cover for the remaining treatment in quarterly payments. The Dental Explanation of Benefits indicates the amount the plan will cover for the remainder of the “in progress” treatment.

• Transferring from another Dentist
If the patient transfers from a different dentist, the new dentist must submit a claim to Blue Cross Dental indicating the total remaining months of treatment, total fee and the banding date if the patient was rebanded.

- Payments for services provided by the new dentist will be calculated based on the remaining orthodontic benefits and remaining length of treatment.
- It is the dentist's and the patient's responsibility to notify Dental Customer Service if orthodontic treatment is discontinued, completed sooner than anticipated or if the patient transfers to another dentist.
- When rebanding a transfer patient, it should be indicated that the patient was rebanded and the rebanding date.
- If the patient was not rebanded, it should be indicated the date that the new dentist assumed responsibility for the treatment plan.

Automatic payments are generated to participating dentists providing the orthodontic treatment. The initial payment, most commonly 35% of the total allowance calculated for the treatment, is made based on the banding date. The monthly payments are determined by dividing the remainder of the total allowance by the number of months estimated to complete treatment. The automatic payments end when the benefits are exhausted and the dentist should notify BCBSRI if treatment is terminated. Changes in benefits or member eligibility may also cause termination of the payments. Payment for all orthodontic treatment cases will be generated quarterly.

If a member has started orthodontic treatment with coverage by another carrier and the group is acquired by BCBSRI, the benefit maximum for ortho services is usually carried over from the previous carrier. Example: Previous insurer has paid $900 towards orthodontic services, and BCBSRI has a lifetime maximum limit for orthodontics of $1,200. BCBSRI will pay an additional $300 towards the orthodontic treatment.

The fee for orthodontic treatment includes appliances and post-treatment stabilization (retainer).

**CODES:**
- D8010 - Limited orthodontic treatment of the primary dentition
- D8020 - Limited orthodontic treatment of the transitional dentition
- D8030 - Limited orthodontic treatment of the adolescent dentition
- D8040 - Limited orthodontic treatment of the adult dentition
- D8050 - Interceptive orthodontic treatment of the primary dentition
- D8060 - Interceptive orthodontic treatment of the transitional dentition
- D8070 - Comprehensive orthodontic treatment of the transitional dentition
- D8080 - Comprehensive orthodontic treatment of the adolescent dentition
- D8090 - Comprehensive orthodontic treatment of the adult dentition
- D8210 - Removable appliance therapy
- D8220 - Fixed appliance therapy
- D8660 - Pre-orthodontic treatment visit: Not covered and is considered member liability.
- D8670 - Periodic orthodontic treatment visit (as part of contract): Considered integral to complete orthodontic treatment. A participating dentist may not bill a member. Not covered.
- D8680 - Orthodontic retention (removal of appliances, construction and placement of retainer(s))
- D8681 – Removable orthodontic retainer adjustment: Not covered and is considered member liability.
- D8690 - Orthodontic treatment (alternative billing to a contract fee)
- D8691 - Repair of orthodontic appliance: Not covered and is considered member liability.
- D8692 - Replacement of lost or broken retainer: Not covered and is considered member liability.
- D8693 - Rebonding or recementing of fixed retainers: Not covered and is considered member liability.
D8694 - Repair of fixed retainers, includes reattachment: Not covered and is considered member liability.

CRITERIA:

LIMITATIONS:
Periodic orthodontic treatment visits are considered integral to the complete orthodontic treatment plan.
All retention and case finishing procedures are considered integral to the total case fee.
Observations and adjustments are considered integral to the payment for retention appliances.
A participating dentist may not bill a member for integral services.

DOCUMENTATION:

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Payment for diagnostic services in conjunction with orthodontic services is applied to the member’s orthodontic maximum.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Osseous surgery is a benefit when a patient exhibits moderate to advanced periodontal disease. It is performed to modify the bony support of teeth by reshaping the alveolar process in order to achieve a more physiologic form.

CODES:

D4260 - Osseous surgery (including flap entry and closure)-four or more contiguous teeth or tooth bounded spaces per quadrant
D4261 - Osseous surgery (including flap entry and closure)-one to three contiguous teeth or tooth bounded spaces per quadrant

CRITERIA:

Dentist AdvisorConsultant review required.

Pocket depths of 5mm or more and radiographic evidence of interproximal bone loss and/or vertical bone loss support the need for osseous surgery. The number of teeth within a quadrant, with qualifying pocket depths and radiographic evidence of bone loss, determines the appropriate code, D4260 or D4261.

LIMITATIONS:

DOCUMENTATION:

Current periodontal charting and x-rays
More than 2 quadrants performed on the same day requires explanation as to why services were provided on the same date.

FREQUENCY:

Once per mouth area per 36 months.
Not covered Denied if performed within 36-months of osseous surgery, grafting or guided tissue regeneration in the same mouth area and member is liable for payment. Patient not liable for payment if performed by the same dentist/dental office; patient liable if different dentist/dental office. Once per mouth area per 36 months.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

Crown lengthening procedures performed by the same dentist on the same date of service as osseous surgery (same treatment site) are considered integral inclusive and to the osseous surgery. Aa participating dentist may not bill the member separately for these services.

If performed within 36 months of gingival flap or gingivectomy (same treatment site), payment for osseous surgery will be offset with gingival flap or gingivectomy.

PER ADA CDT 20165
This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

CODES:
D7280 - Surgical access of an unerupted tooth
D7283 - Placement of device to facilitate eruption of impacted tooth
D7291 - Transseptal fiberotomy/ supra crestal fiberotomy, by report
D7970 - Excision of hyperplastic tissue - per arch
D7971 - Excision of pericoronal gingiva

CRITERIA:
No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:
Allowed once per procedure per tooth per lifetime. Additional procedures (same procedure, same tooth) are not covered and are considered member liability.
Fiberotomy (D7291) limited to permanent anterior teeth and first bicuspid. D7291 in other areas is not covered and is considered member liability.
D7971 will be considered integral to endodontic and/or periodontal surgical procedures on the same date, same dentist, same mouth area. A participating dentist may not bill a member.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

PER ADA CDT 20165

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. INTERNAL POLICY DESCRIPTION:
Additional posts used in conjunction with post and cores for bridge abutments are considered part of the comprehensive service and there is no additional benefit. Participating dentists may not charge the member. Repairs to fixed partial dentures are reviewed on an I.C. basis by the Dental Consultant and consideration for time, materials and degree of difficulty is given to determine benefits.

CODES:
- D6920 - Connector bar: Not covered and is considered member liability.
- D6940 – Stress breaker: Not covered and is considered member liability.
- D6980 - Fixed partial denture repair necessitated by restorative material failure: IC Review
- D6985 - Pediatric partial denture, fixed: Not covered and is considered member liability.

CRITERIA:
Dentist Advisoral Consultant Review
D−6980: Individual consideration is given for time, degree of difficulty and materials used to complete the procedure.

LIMITATIONS:

DOCUMENTATION:
Narrative and copy of laboratory charges (if applicable)
Pre-operative periapical, if available

FREQUENCY:
D6980 is considered integral within 1260 months of insertion. After 1260 months, allowed once per 3642 months per tooth. Additional repairs are not covered and are considered member liability.

Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

Palliative treatment is emergency treatment of dental pain involving a minor procedure. The dentist must provide treatment to alleviate the member’s problem. If the only service provided is to evaluate the member to another dentist and/or prescribe medication, it will be considered a limited oral evaluation – problem focused (D0140).

Allow palliative treatment same date of service as an emergency exam and/or x-rays. If any definitive procedure is performed on the same date of service as palliative treatment, the palliative will be considered integral to inclusive of the definitive procedure, with no separate allowance, and a participating dentist may not bill charge the member for the palliative treatment.

CODES:
- D9110 - Palliative (emergency) treatment of dental pain-minor procedure

CRITERIA:
- No review required; if submitted with a narrative, reason for palliative is recorded for tracking/audit purposes.

LIMITATIONS:
- N/A
- One palliative treatment per date of service

FREQUENCY:
- 2 per calendar year - in combination with pulpal debridement (D3221). Only two of either of these procedures are covered in a calendar year. Additional procedures are not covered and are considered member liability 12 months.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
- Inclusive of any definitive treatment performed same date of service. A participating dentist may not bill the member.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Benefits for partial dentures include adjustments, reline/rebase or repair within six months following the delivery of the partial denture to the patient. Flexible base partial dentures are considered an alternative covered treatment to a conventional partial denture. Benefits are made for additional teeth that must be added to a partial due to tooth loss. Insertion date (delivered to the mouth) is considered the completion date for a partial denture and benefits are payable for that date of service (not impression date).

CODES:

- D5211 - Maxillary partial denture-resin base (including any conventional clasps, rest and teeth)
- D5212 - Mandibular partial denture-resin base (including any conventional clasps, rest and teeth)
- D5213 - Maxillary partial denture-cast metal framework with resin denture bases (including any conventional clasps, rest and teeth)
- D5214 - Mandibular partial denture-cast metal framework with resin denture bases (any conventional clasps, rest and teeth)
- D5221 - Immediate maxillary partial denture- resin base (including any conventional clasps, rest and teeth)
- D5222 - Immediate mandibular partial denture- resin base (including any conventional clasps, rest and teeth)
- D5223 - Immediate maxillary partial denture- cast metal framework with resin denture bases (including any conventional clasps, rest and teeth)
- D5224 - Immediate mandibular partial denture- cast metal framework with resin denture bases (including any conventional clasps, rest and teeth)
- D5225 - Maxillary partial denture-flexible base (including any clasps, rests and teeth)
- D5226 - Mandibular partial denture-flexible base (including any clasps, rests and teeth)
- D5281 - Removable unilateral partial denture-one piece cast metal (including clasps and teeth)

CRITERIA:

No review required.

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:

- Once per arch per five-year period.
- Additional dentures during the five-year period are not covered and are considered member liability.
- One removable partial denture, complete or immediate denture or replacement of all teeth and acrylic on a cast metal framework (D5670-D5671) is allowed per arch per five-year period.
RELATIONSHIP TO OTHER CODES: (for payment purposes)
One removable partial denture, complete or immediate denture or replacement of all teeth and acrylic on a cast metal framework (D5670, D5671) is allowed per arch per five-year period.

PER ADA CDT 2015

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

This procedure is instituted following periodontal therapy and continues at varying intervals, determined by the clinical evaluation of the dentist, for the life of the dentition or any implant replacements. It includes removal of the bacterial plaque and calculus from supragingival and subgingival regions, site specific scaling and root planing where indicated, and polishing the teeth. If new or recurring periodontal disease appears, additional diagnostic and treatment procedures must be considered.

CODES:
D4910-Periodontal maintenance

CRITERIA:
No review required.

LIMITATIONS:
Allowed under periodontal benefit, if available.

DOCUMENTATION:
If previous perio treatment not in Blue Cross Dental history, chart notes demonstrating history of previous periodontal services

FREQUENCY:
Limited to two (2) services in a calendar year 12-month period.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
At least one of the following procedures must be in patient's history to qualify for perio maintenance: osseous surgery, gingivectomy/gingivoplasty by quadrant, flap procedures, tissue grafts, root planing and scaling.

Routine prophylaxis (D1110) should not be performed on the same day and will be considered integral. A participating dentist may not bill the member.

D4910 will be considered integral to scaling and root planing or surgical periodontal procedures on same day, same dentist. A participating dentist may not bill the member.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

This is the most frequently reported non-surgical adjunctive periodontal procedure. Plaque and calculus are removed from the crown and root surfaces of teeth through instrumentation as a therapeutic approach to periodontal disease. Root planing involves the removal of cementum and dentin that is rough and may have calculus, toxins or microorganisms attached to the surfaces. Some soft tissue debridement may occur during scaling and root planing; however, this is incidental curettage of the soft tissues. Scaling and root planing has been shown to reduce pocket depth and gingival inflammation associated with periodontal disease.

Periodontal scaling and root planing may be subject to Dentist Advisory Consultant review.

CODES:
D4341 - Periodontal scaling and root planing-four or more teeth per quadrant
D4342 - Periodontal scaling and root planing-one to three teeth per quadrant

CRITERIA:
Pocket depths of 4mm or more and radiographic evidence of calculus and interproximal bone loss) for scaling and root planing. The number of teeth within a quadrant with qualifying pocket depths and demonstrated bone loss determines the appropriate code, D4341 or D4342.

LIMITATIONS:

DOCUMENTATION:
Current periodontal charting and x-rays

FREQUENCY:
Allow one (1) D4341 or D4342 per quadrant within 36 months.
If the procedure is performed within 36 months (same site) of SCRP or surgical periodontal procedures, it is not covered and the member is liable for payment.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
If periodontal scaling and root planing is performed on the same day as periodontal surgery, it is considered integral to part of the more comprehensive procedure and is not paid separately. A participating dentist may not bill the member.
When periodontal scaling and root planing (D4341) is billed with a prophylaxis (D1110) on the same date of service, and by the same provider, reimbursement will not be made for D1110. All will be considered integral. A participating dentist may not bill the member.
D4342 in one site performed on the same day, same dentist as D1110 will be considered integral. A participating dentist may not bill the member.
Prophylaxis is considered integral when performed on the same day, or within 45 days, by the same dentist, as two or more limited sites or one or more quadrants of scaling and root planing.

When one limited site (D4342) is provided on same day, same dentist as a prophylaxis (D1110), D1110 is integral to D4342. Consideration will be made by a dentist advisory consultant for D1110 on same day, same dentist as two limited sites of D4342.

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
A post and core provides a foundation upon which a crown will be fabricated. A tooth is deemed in need of a post and core if it has been endodontically treated and requires the replacement of missing tooth structure for the purpose of obtaining adequate resistance and retention for the crown. Additional posts (indirectly fabricated or prefabricated) are considered part of the comprehensive procedure of integral to the post and core. A participating dentist may not charge the patient for additional pins as a separate procedure. bill the member.

CODES:
D2952 -Post and core in addition to crown, indirectly fabricated
D2953 -Each additional indirectly fabricated post -same tooth: Considered integral to D2952. A participating dentist may not bill the member.
D2954 -Prefabricated post and core in addition to crown
D2957 -Each additional prefabricated post -same tooth: Considered integral to D2954. A participating dentist may not bill the member.

CRITERIA:
Dental Consultant Advisor Review
The Dental Consultant Advisor evaluates the endodontic treatment (well-condensed, complete fill, etc.) and the periodontal condition of the treatment site to assure the tooth is periodontally sound to support a crown. Most teeth, once endodontically treated, will qualify for the post and core.

LIMITATIONS:
Not covered for members under age 14 (unless clinical rationale is provided) and is considered member liability.

DOCUMENTATION:
Endodontic post-operative periapical x-ray

FREQUENCY:
One post and core per tooth in a five-year period. Replacements within the 5 years are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Core build-up on same date of service as a post and core is considered integral to the post and core. A participating dentist may not bill the member with no additional benefits.
Additional pins and posts required for a post and core are considered **inclusive integral to with** the comprehensive procedure. **A participating dentist may not bill the member.**

**D2952 will be allowed as D2954.**

**PER ADA CDT 20165**

Always inclusive.

PER ADA CDT 2016
INTERNAL POLICY DESCRIPTION

Therapeutic pulpotomy is performed on primary or permanent teeth with the goal to maintain the vitality of the tooth. This procedure involves the removal of pulpal tissue from the chamber/coronal area, with no instrumentation of the canals, and is very effective in relieving pain. While the intention is to maintain the vitality of the tooth, a root canal may be required at a later date.

Pulpal debridement is performed to relieve acute pain prior to conventional root canal therapy. If performed on the same date of service as a root canal, or within three (3) months 90 days, by the same dentist/dental office, it is considered part of integral to the fee for the root canal procedure. Participating dentists may not bill the member charge the patient separately for this procedure in these cases.

CODES:
D3220 – Therapeutic pulpotomy (excluding final restoration)-removal of pulp coronal to the dentinocemental junction and application of medicament - Pulpotomy is the surgical removal of a portion of the pulp with the aim of maintaining the vitality of the remaining portion by means of an adequate dressing.
- To be performed on primary teeth.
- This is not to be construed as the first stage of root canal therapy
- Not to be used for apexogenesis

D3221 – Pulpal debridement, primary and permanent teeth - Pulpal debridement for the relief of acute pain prior to conventional root canal therapy. This procedure is not to be used when endodontic treatment is completed on the same day.

D3222 – Partial pulpotomy for apexogenesis-permanent tooth with incomplete root development - Removal of a portion of the pulp and application of a medicament with the aim of maintaining the vitality of the remaining portion to encourage continued physiological development and formation of the root. This procedure is not to be construed as the first stage of root canal therapy.

CRITERIA:
No review required.
Pre and post operative periapical

LIMITATIONS:
D3220 – applicable only to primary teeth
D3221 – two per calendar year in combination with palliative treatment (D9110). Only two of either of these procedures are covered in a calendar year. Additional procedures are not covered and are considered member liability.
D3222 - applicable only to permanent teeth with incomplete root development
FREQUENCY:
D3222- Once per tooth per lifetime

RELATIONSHIP TO OTHER CODES: (for payment purposes)
If a pulpotomy is performed within a 90-day period prior to a root canal, or same date of service, by
the same dentist/dental office, it is considered part of integral to the root canal. A participating
provider may not bill the member, and is not separately reimbursed.
If partial pulpectomy for apexogenesis is performed within 90-days prior to a root canal, or same
date of service, by the same dentist/dental office, it is considered part of integral to the root canal
and is not separately reimbursed. A participating provider may not bill the member.
Frequency for pulpal debridement is considered in combination with palliative treatment (D9110).

PER ADA CDT 2016

This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member’s subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION

X-rays should be taken only for clinical necessity and must be of acceptable diagnostic quality, properly identified (tooth#, L/R side) and dated. As part of the patient’s clinical record, original images should be retained by the dentist, and copies submitted for use to fulfill claim review requirements. BCBSRI does not reimburse for copying costs for any part of clinical records. It is reasonable to expect that X-rays submitted for claims review are taken within a year of the treatment.

A full-mouth series of X-rays (FMX) includes ten (10) or more periapical films and a set of bitewing X-rays. Most groups cover a FMX or a panoramic film once in 60 months. However, some groups vary in their time limitations, allowing either a FMX or panorex once in 24, 36 or 60 months. The specific subscriber coverage should be checked for the applicable time limitation. In all cases, the need for full mouth radiographs should be determined by the patient’s oral condition, rather than the contract benefit.

A panoramic film and bitewing X-rays taken within the same calendar year are benefitted up to the allowance for a FMX. If the pano and bwx are taken by the same dentist/dental office, a participating dentist cannot charge the member for the difference in payment. If taken by a different dentist, the member is liable for the difference.

Periapical X-rays taken on the same date of service, by the same dentist as a panorex are considered integral and not payable as a separate procedure.

Most plans have a limit of one (1) set of bitewings in a calendar year 12-month period for members under age 19 and one (1) set per 18 month period for members age 19 and older, but may vary with specific group coverage. Bitewing X-rays taken on the same date of service/within the same calendar year as a FMX (D0210) are considered part of the FMX, and not payable as a separate procedure.

A maximum of four (4) periapical X-rays are payable in a 12-month period calendar year. X-rays taken in addition to, or in excess of the limits as outlined in this policy are not covered and are considered will be member liability.

CODES:
D0210 - Intraoral-complete series of radiograph images (including bitewings): one (1) in 60 months-varies by contract (or one (1) panorex taken in that same time period)
D0220 - Intraoral-periapical first radiographic images: four (4) periapical X-rays are payable in a per 12-month period calendar year.
D0230 - Intraoral-periapical each additional radiographic image: four (4) periapical X-rays are payable in a per 12-month period calendar year.
D0240 - Intraoral-occlusal radiographic image: limited to two (2) occlusal films in a 24-month period under age 7
D0250 - Extraoral-first radiographic image: Not covered and are considered member liability.
D0251 – Extraoral-posterior dental radiographic image: Not covered and is considered member liability.
D0260 - Extraoral - each additional radiographic image: Not covered and is considered member liability.
D0270 - Bitewing - single radiographic image: One set of BWX per calendar year
D0272 - Bitewings - two radiographic images: One set of BWX per calendar year
D0273 - Bitewings - three radiographic images: One set of BWX per calendar year
D0274 - Bitewings - four radiographic images: One set of BWX per calendar year
D0277 - Vertical bitewings - 7 to 8 radiographic images: One set of BWX per calendar year
D0290 - Posterior-anterior or lateral skull and facial bone survey radiographic image: Not covered and is considered member liability.
D0310 - Sialography: Not covered and is considered member liability.
D0320 - Temporomandibular joint arthrogram, including injection: Not covered and is considered member liability.
D0321 - Other temporomandibular joint films, by report: Not covered and is considered member liability.
D0322 - Tomographic survey: Not covered
D0330 - Panoramic radiographic image: one (1) in 60 months - varies by contract (or one (1) FMX in the same time period).
D0340 - Cephalometric radiographic image: one (1) per lifetime.
D0350 - Oral/facial photographic images obtained intraorally or extraorally: Not covered and is considered member liability.
D0351 – 3D Photographic Image: Not covered and is considered member liability.
D0364 - Cone beam CT capture and interpretation with field of view of one full dental arch - less than one whole jaw: Not covered and is considered member liability.
D0365 - Cone beam CT capture and interpretation with field of view of one full dental arch - mandible: Not covered and is considered member liability.
D0366 - Cone beam CT capture and interpretation with field of view of one full dental arch - maxilla, with or without cranium: Not covered and is considered member liability.
D0367 - Cone beam CT capture and interpretation with field of view of both jaws; with or without cranium: Not covered and is considered member liability.
D0368 - Cone beam CT capture and interpretation for TMJ series including two or more exposures: Not covered and is considered member liability.
D0369 - Maxillofacial MRI capture and interpretation: Not covered and is considered member liability.
D0370 - Maxillofacial ultrasound capture and interpretation: Not covered and is considered member liability.
D0371 - Sialoendoscopy capture and interpretation: Not covered and is considered member liability.
D0380 - Cone beam CT capture with limited field of view - less than one whole jaw: Not covered and is considered member liability.
D0381 - Cone beam CT capture with field of view of one full dental arch - mandible: Not covered and is considered member liability.
D0382 - Cone beam CT capture with field of view of one full dental arch - maxilla, with or without cranium: Not covered and is considered member liability.
D0383 - Cone beam CT capture with field of view of one full dental arch - mandible: Not covered and is considered member liability.
D0384 - Cone beam CT capture for TMJ series including two or more exposures: Not covered and is considered member liability.
D0385 - Maxillofacial MRI capture: Not covered and is considered member liability.
D0386 - Maxillofacial ultrasound capture: Not covered and is considered member liability.
D0391 - Interpretation of diagnostic image by a practitioner not associated with capture of the image, including report: Not covered and is considered member liability.
D0393 - Treatment simulation using 3D image volume: Not covered and is considered member liability.
D0394 - Digital subtraction of two or more images or image volumes of the same modality: Not covered and is considered member liability.
D0395 - Fusion of two or more 3D image volumes of one or more modalities: Not covered and is considered member liability.

CRITERIA:
No review required.

LIMITATIONS:
Members under age 6 are not eligible for more than 2 BWX (not eligible D0273; D0274) in a calendar year.
D0240 limited to members age 7 and younger, 2 films per 24 month period
D0330 – for members under age 5, rationale must be submitted for consideration for payment

FREQUENCY:
Specific to the type of radiograph and the member contract

DOCUMENTATION:

RELATIONSHIP TO OTHER CODES: (for payment purposes):
See above.
A full-mouth series of X-rays (FMX) includes ten (10) or more periapical films and a set of bitewing X-rays. Periapical radiographs taken on the same day, by the same dentist as a full mouth series are considered integral to the FMX. A participating dentist may not bill the member.
Bitewing X-rays taken on the same date of service/within the same calendar year as a FMX (D0210) are considered integral to part of the FMX, and not payable as a separate procedure. A participating dentist may not bill the member.

For benefit purposes, bitewings taken as part of a full mouth series are considered an occurrence of bitewings.

A panoramic film and bitewing X-rays taken within 30 days of each other are benefitted up to the allowance for a FMX. If the pano and bwx are taken by the same dentist/dental office, a participating dentist may not bill the member for the difference of allowance for FMX and charge for pano and bwx. If taken by a different dentist, the member is liable for the difference.

Radiographs taken as a post operative film, as part of root canal treatment or the fabrication and insertion of prosthetic procedures are considered integral to the greater procedure. A participating dentist may not bill the member.

INTERNAL POLICY DESCRIPTION

MOVED TO RECEMENTATIONS
Recementation for fixed bridges are considered part of the initial comprehensive procedure if performed within twelve (12) months of the insertion (delivery date) by the same dentist. A participating dentist may not charge a member for a recementation within twelve months of insertion. If a different dentist/dental office performs the recementation in this time period, a benefit for the procedure will be made. After the twelve-month time period, the benefit is for one recementation of a bridge in a 36-month period. Additional recementations within the 36-month time frame are a member liability.

CODES:
D6930-Recement fixed partial denture

CRITERIA:
No review required.

LIMITATIONS:

FREQUENCY:
One recementation per fixed bridge in a 36-month period

RELATIONSHIP TO OTHER CODES: (for payment purposes)

INTERNAL POLICY DESCRIPTION

Root amputations are usually performed to preserve a tooth that has a large bony defect and loss of periodontal support around one root of a multi-rooted tooth. A root amputation may be appropriate treatment when one root appears to be cracked and the others are healthy. To be considered successful, the crown of the tooth and at least one healthy root of the tooth must remain intact. Total success of this treatment is difficult to assess immediately. "Complete" healing may require 6-12 months, and the area of the root amputation would exhibit bone healing, minimal pocketing/tissue inflammation.

CODES:
D3450 - Root amputation - per root

CRITERIA:
Dental Consultant Review
The Dental Consultants evaluates the treatment site to determine if the remaining tooth structure has a sound periodontal prognosis, and generally a good long-term prognosis.
The treatment site will be evaluated for removal of a root and to confirm that the crown and at least one healthy root remains intact.

LIMITATIONS:

DOCUMENTATION:
Predetermination: Pre-operative periapical.
Claim for services: Pre-operative and post-operative periapical xray.

FREQUENCY:
One retrograde filling per root.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Considered integral to a hemisection if performed on same tooth/same day by the same dentist. A participating dentist may not bill the member Cannot perform hemisection on same tooth as a root amputation.

PER ADA CDT 20165

This procedure is should be considered integral to a component of the root canal procedure.

CODES:
D3331 – Treatment of root canal obstruction; non-surgical access

CRITERIA:

LIMITATIONS:

DOCUMENTATION:

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)

CWill be considered integral to part of a root canal treatment when performed by the same
dentist/dental office. A participating dentist may not bill the member.

PER ADA CDT 2016
INTERNAL POLICY DESCRIPTION

Root canals are performed to treat a diseased, injured or non-vital pulp in a tooth. Patients may experience varying levels of pain when a root canal is needed, some requiring immediate treatment. This procedure involves removing the pulp canal, cleaning, shaping and filling the canals. Final restoration of an endodontically-treated tooth may include an amalgam, composite, post & core and/or often, a crown.

Root canals include all procedures required to complete the service. Exams (performed by specialists), palliative treatment, pulp test, extirpation of pulp, pulpotomy, and pulpal debridement performed 90 days within the date of service of the root canal, and all pre-operative, working and post-operative x-rays, and local anesthetic by the same dentist, are considered inclusive and integral to the root canal.

Pre-operative, working and post-operative x-rays, and local anesthetic performed on the same date of service as the root canal are inclusive. A participating dentist may not bill the member. The final restoration is excluded. Benefits are payable upon completion of the root canal and based on the tooth treated, not the number of canals treated, (i.e., anterior, bicuspid, molar).

Root canals that are performed only to accommodate use of a precision attachment, (or other device), are not a covered benefit and are considered member liability.

CODES:
D3310 - Endodontic therapy, anterior tooth (excluding final restoration)
D3320 - Endodontic therapy, bicuspid tooth (excluding final restoration)
D3330 - Endodontic therapy, molar (excluding final restoration)

CRITERIA:

Dental Consultant Review
The treated tooth is evaluated for the following:

- Complete fill to the apex of each canal, checked for a fill that is extremely short of the apex; has visible patent canal space left unfilled, has poorly condensed fill, excessive over-extension of filling material
- Calcification in the canals that prevent complete fill to apex
- A sound periodontal prognosis

LIMITATIONS:

Group Limitations: Some groups may have coverage for root canals on anterior (front) teeth only. The coverage may/may not apply an alternate benefit of an anterior root canal allowance for root canals.
performed on posterior teeth, with the member liable for the difference in allowance payment and up to the dentist’s charge.

**DOCUMENTATION:**
- Pre-operative, post-operative periapical x-rays

**FREQUENCY:**
- Once per tooth per lifetime. (Additional procedures on the same tooth will be considered retreatment).

**RELATIONSHIP TO OTHER CODES:** (for payment purposes)
- Exams, palliative treatment, pulp tests, pulpotomy, pulpal debridement, x-rays (related to root canal), local anesthetic are considered integral part of the root canal treatment. A participating dentist may not bill the member.
- Benefits for retreatment of a root canal by a different dentist (than who performed the original endodontic treatment) are allowed.
- Retreatment by the same dentist (that performed the original root canal) is considered integral to the initial RCT if performed within 12 months. A participating dentist may not bill the member.

**Group Limitations:**
- Some groups may have coverage for root canal on anterior (front) teeth only. The coverage may not apply an alternate benefit of an anterior root canal allowance for root canals performed on posterior teeth, with the member liable for the difference in payment up to the dentist’s charge.

Root canal treatment will be offset by the amount benefitted for pulpal regeneration when pulpal regeneration was done within 12 months prior to the root canal treatment.

**PER ADA CDT 2016**

INTERNAL POLICY DESCRIPTION:
A single tooth implant may be covered if the member has prosthodontic coverage, the procedure is being performed as an alternative to a three-unit fixed bridge and meets the BCBSRI criteria for dental necessity.

CODES:
D6010-Surgical placement of implant body: endosteal implant
D6056-Prefabricated abutment-includes placement
D6057-Custom abutment-includes placement

CRITERIA:
Dentist Advisor Consultant Review (All providers)
The treatment site is evaluated for the following:

• Only one missing tooth in treatment area; two adjacent teeth present. (A conventional three-unit bridge could also be placed in this area).
• This benefit does not apply for replacement of a single tooth that is the most distal tooth in the quadrant as two adjacent teeth are not present.
• Remaining adjacent teeth and periodontal tissues appear to be healthy; no indication, in x-rays or other clinical documentation reviewed, that adjacent teeth are in need of major dental services, i.e., major restorative or periodontal services, or extraction
• Bone and surrounding periodontal tissues at treatment site are healthy, and existing conditions indicate a single tooth implant can be supported.

Implants in treatment sites that do not meet this criteria (in the absence of an Implant Rider) are not covered and are considered member liability.

LIMITATIONS:
Limited to replacement of a single missing tooth where natural teeth are present on either side.

DOCUMENTATION:
Predetermination: Pre-operative periapical xray or panorex, a narrative, if applicable.
Payment of claim: Post-operative periapical xray or panorex, narrative, if applicable.

FREQUENCY:
Limited to a five-year replacement of the implant services

RELATIONSHIP TO OTHER CODES: (for payment purposes)

INTERNAL POLICY DESCRIPTION:

Space maintainers are a covered benefit for patients through age 13. The removal of a space maintainer is covered if the removal is performed by a different dentist/dental office that placed the space maintainer. If performed by the same dentist/dental office that placed the appliance, the benefit is considered integral to the initial placement. A participating dentist may not bill the member, denied and the patient cannot be charged for the removal. The removal is considered part of the overall procedure in this case if performed by the inserting dentist. If a space maintainer is lost, the replacement is not covered and is considered member liability, a patient responsibility.

CODES:

- D1510 - Space maintainer-fixed-unilateral
- D1515 - Space maintainer-fixed-bilateral
- D1520 - Space maintainer-removable-unilateral
- D1525 - Space maintainer-removable-bilateral
- D1550 - Re-cementation of space maintainer
- D1555 - Removal of fixed space maintainer

CRITERIA:

No review required.

LIMITATIONS:

Covered through age 13
Limited to premature loss of primary molars and permanent first molars, or primary molars and permanent first molars that have not/will not develop.
Repairs are not covered and are considered member liability.

DOCUMENTATION:

FREQUENCY:

Once appliance per site in a 5 year period. Additional appliances (same site) are not covered and are considered member liability.
Re-cementation is considered integral within 6 months of initial placement if re-cemented by the same dentist/office that delivered the appliance. Thereafter, covered once in a 6-month period. More frequent recommantations are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)
This dental policy is made available to you for informational purposes only. It is not a guarantee of payment or a substitute for your clinical judgment in the treatment of your patients. Benefits and eligibility are determined by the member's subscriber agreement or member certificate and/or the employer agreement, and those documents will supersede the provisions of this dental policy. For information on member-specific benefits, call the provider call center. This policy is current at the time of publication; however, medical practices, technology, and knowledge are constantly changing. BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:
The stainless steel and pre-fabricated crowns (listed) are covered only when a tooth cannot be restored by a filling. Some of the crowns are specifically for deciduous teeth and limited to coverage for patients to 14 years of age. Other specific limitations are listed with each code, as applicable. Stainless steel crowns, unlike other crowns, are considered a minor restorative procedure and are benefitted at the same level as amalgam and resin composite restoration coverage.

CODES:
D2929 - Prefabricated porcelain/ceramic crown-primary tooth
D2930 - Prefabricated stainless steel crown-primary tooth
D2931 - Prefabricated stainless steel crown-permanent tooth
D2932 - Prefabricated resin crown
D2933 - Prefabricated stainless steel crown with resin window
D2934 - Prefabricated esthetic coated stainless steel crown-primary tooth

CRITERIA:
Dentist Advisor will consider coverage for a retained deciduous tooth for members age 14 and older with a pre-operative periapical x-ray to evaluate long term prognosis.

LIMITATIONS:
One per tooth per lifetime. Covered to age 14. D2932, D2933, D2934 eligible on primary teeth C-H and M-R. All other teeth will be allowed benefit of D2930, D2931 and subject to same benefit limitation of regular stainless steel crown with the member liable for the difference of allowance and dentist’s charge.

DOCUMENTATION:
FREQUENCY:
Once per tooth per lifetime. Replacements within the 5 years are not covered and are considered member liability. All of the crowns listed are subject to once per lifetime, per tooth.

BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

Blue Cross Dental treatment guidelines for each specific extraction/impaction procedure code are in accordance with the CDT descriptors for extractions and impactions.

General anesthesia and IV sedation are covered benefits with specified oral surgery procedures (see anesthesia policy). Local anesthetic, elevation of the flap, bone removal, sectioning of tooth, removal of the tooth structure, closure and suturing, suture removal and routine post-operative care are included in the global fee for the surgical extraction or the impaction. Treatment for dry socket is considered postoperative care and is included in the benefit for the surgical procedure - for three visits.

If an attempt to extract a tooth fails, it is not considered a completed procedure and should not be submitted for benefit consideration. The entire tooth must be extracted.

Removal of residual roots (root is encased in bone) requires incision into the gingiva area, and possibly bone, to access the root for extraction and is considered integral if performed by the same dentist who extracted the tooth.

CODES:

D7210 - Surgical removal of erupted tooth requiring removal of bone and/or sectioning of tooth, and including elevation of mucoperiosteal flap if indicated" "Includes related cutting of gingiva and bone, removal of tooth structure, minor smoothing of socket bone and closure
D7220-Removal of impacted tooth - soft tissue
D7230-Removal of impacted tooth - partially bony
D7240-Removal of impacted tooth - completely bony
D7241-Removal of impacted tooth - completely bony, with unusual surgical complications
D7250-Surgical removal of residual tooth roots (cutting procedure)
D7251- Coronectomy – intentional partial tooth removal

Intentional partial tooth removal is performed when a neurovascular complication is likely if the entire impacted tooth is removed.

CRITERIA:

Dentist Advisory Consultant Review required for the following procedures for members under age 15 or over age 30.

D7230 - part of crown covered by bone; requires flap elevation and bone removal
D7240 - most or all of crown is covered by bone; requires flap elevation and bone removal
D7241 - most or all of crown covered by bone; unusually difficult or complicated due to factors such as nerve dissection, separate closure of maxillary sinus required, or aberrant tooth position

Dental consultant review required for all members:
D7241 - most or all of crown covered by bone; unusually difficult or complicated due to factors such as nerve dissection, separate closure of maxillary sinus required,
or aberrant tooth position

D7251- Coronectomy – intentional partial tooth removal Intentional partial tooth removal is performed when a neurovascular complication is likely if the entire impacted tooth is removed.

LIMITATIONS:
Third molar partial and complete bony impaction removal is not routinely covered for members under age 15 or over age 30. Documentation can be submitted for consideration.
Coronectomy (D7251) only eligible on impacted teeth.

DOCUMENTATION:
D7241 - Pre-treatment radiographs and narrative required for all patients. 
Bony impactions for members 14 and under/over age 30 – pre-treatment radiographs and narrative. 
D7251 – Pre and post treatment xray, clinic notes and operative report. 
On a pre-payment basis: Pre-operative periapical radiographs of the entire treatment site. 
For a claim for actual services: Pre-operative and post-operative radiograph, copy of the clinical notes describing the specific symptoms and copy of the operative report.

FREQUENCY:

RELATIONSHIP TO OTHER CODES: (for payment purposes)
Surgical removal of roots (D7250) is considered integral to the extraction if performed by the same dentist that that performed extraction. A participating dentist may not bill the member.

See anesthesia policy.

INTERNAL POLICY DESCRIPTION:

MOVED TO IMPLANT SERVICES

Implant services are not a covered benefit unless specified in the group contract. If a group purchases an Implant Rider, there is a $3,500 lifetime maximum benefit for implant services. Coverage is at 50% and all implant services are subject to Dental Consultant review for all dentists. Plans with prosthodontic coverage may include benefits for single-tooth implants only. These benefits are allowed in cases where only one natural tooth requires replacement with an implant as an alternative treatment to a three-unit bridge. (See specific policy)

Crowns over implants are covered if the contract includes prosthodontic coverage and should be submitted with the appropriate implant crown code(s). The benefit is at 50% and replacement of these crowns has a five-year limitation.

CODES:

D6010 Surgical placement of implant body: endosteal implant

CRITERIA:

Dental Consultant Review

The periodontal condition of the treatment site is evaluated for predeterminations to assist the Dental Consultant in the assessment. A post-operative X-ray demonstrating successful placement of the implant and a narrative describing any special circumstances related to the service are required for review of a payment claim.

LIMITATIONS:

DOCUMENTATION:

Predetermination: Pre-operative periapical X-ray. If a bone graft is required, a narrative describing the treatment plan is recommended.
Payment of Claim: Post-operative periapical x-ray and narrative describing any special circumstances related to the service

FREQUENCY:

BCBSRI reserves the right to review and revise this policy for any reason and at any time, with or without notice. Blue Cross & Blue Shield of Rhode Island is an independent licensee of the Blue Cross and Blue Shield Association.
INTERNAL POLICY DESCRIPTION:

These procedures are performed on teeth that have inadequate or no attached gingiva, to cover an exposed root, eliminate a gingival defect, eliminate the pull of frena and muscle attachments, to extend the vestibular fornix or to correct localized gingival recession.

These procedures are reimbursed by the number of “sites” treated. The following information is related to CDT defined “sites”:

- If three contiguous teeth have areas of soft tissue recession, each area of recession is a single site.
- If three contiguous teeth have adjacent but separate osseous defects, each defect is a single site.
- If three contiguous teeth have a communicating interproximal osseous defect, it should be considered a single site.
- All non-communicating osseous defects are single sites.
- All edentulous non-communicating tooth positions are single sites.
- Depending on the dimensions of the defect, up to three contiguous edentulous tooth positions may be considered a single site.

Tooth Bounded Space is defined as a space created by one or more missing teeth that has a tooth on each side.

CODES:

- D4270 - Pedicle soft tissue graft procedure
- D4273 - Subepithelial connective tissue graft procedures, per tooth
- D4275 - Soft tissue allograft
- D4276 - Combined connective tissue and double pedicle graft, per tooth
- D4277 - Free soft tissue graft procedure (including donor site surgery), first tooth or edentulous tooth position in graft
- D4278 - Free soft tissue graft procedure (including donor site surgery), each additional contiguous tooth or edentulous tooth position in the same graft
- D4283 - Autogenous connective tissue graft procedure (used with D4273)
- D4285 - Non-autogenous connective tissue graft procedure (used with D4275)

CRITERIA:

Dentist Advisory Consultant review required.

LIMITATIONS:

DOCUMENTATION:

Current periodontal charting
Narrative
**FREQUENCY:**
Denied\[Not covered\] if performed within 36-months on the same treatment sites.

If the service is performed within 36 months, the member is liable for payment.

**RELATIONSHIP TO OTHER CODES:** (for payment purposes)
Considered integral if performed on the same day, same site, same dentist, as osseous surgery. A participating dentist may not bill the member.

Not covered in conjunction with an implant (either to accommodate the placement of the implant or anytime thereafter) and is considered member liability.

Connective tissue grafts, combined connective tissue grafts are allowed as free grafts. The member is liable for the difference between the allowance and the dentist’s charge. Distal wedge procedure is considered denied as integral if performed on same day, same site, same dentist as other periodontal treatment. A participating dentist may not bill the member.

INTERNAL POLICY DESCRIPTION:

Benefits for vestibuloplasty are limited to once in a lifetime, per arch (maxillary/mandibular).

CODES:

D7340 - Vestibuloplasty-ridge extension (secondary epithelialization)
D7350 - Vestibuloplasty-ridge extension (including soft tissue grafts, muscle reattachment, revision of soft tissue attachment and management of hypertrophied and hyperplastic tissue)

CRITERIA:

Complex vestibuloplasty and vestibuloplasty reported with removal of hyperplastic tissue requires Dentist Advisory Consultant review.

LIMITATIONS:

DOCUMENTATION:

Operative notes

FREQUENCY:

Once per lifetime, per arch. Additional procedures are not covered and are considered member liability.

RELATIONSHIP TO OTHER CODES: (for payment purposes)

Considered integral if submitted with periodontal surgery in the same mouth area, same day, same dentist. It is considered integral. A participating dentist may not bill the member.

OVERVIEW

Effective January 1, 2014, Pediatric Services including oral care has been defined as an Essential Health Benefit. For those plans that have coverage for essential health benefits, this policy defines the oral care services that will be covered for children from the ages of 0 up to the child's 19th birthday.

DENTAL REVIEW CRITERIA

Please refer to the coding section for the specific service that requires dental consultant review. If review is required, refer to the corresponding category of service below for the documentation requirements.

Major Restorative Services
Criteria:
- Periodontically and endodontically sound permanent tooth
- Sufficient breakdown as demonstrated on a radiograph

Required documentation:
- Pre-operative periapical xray
- Intra-oral photo (if available)
- Detailed narrative (if applicable)

Endodontic Services
Criteria:
- Sound periodontal prognosis
- If post service review:
  - Complete fill to the apex of each canal or calcification that prevent complete fill

Required documentation:
- Pre-operative and post-operative periapical xrays.
- A working film may not be substituted for a post-operative film.

Periodontal Services
Criteria:
- Scaling and root planning – Pocket depths of 4mm or more or radiographic evidence of calculus and interproximal bone loss (the number of teeth with qualifying pocket depths determine the appropriate code D4341; D4342)
- Osseous surgery - Pocket depths of 5mm or more and radiographic evidence of interproximal bone loss (the number of teeth with qualifying pocket depths determine the appropriate code D4260; D4261)
- Tissue grafts – 2mm of less of attached gingiva per treatment site
Required documentation:
- Periapical xrays of treatment area
- Full mouth periodontal chart
- Detailed narrative (if applicable)

Removable Prosthodontic Services
Required documentation:
- Detailed narrative.

Implant Services
Criteria:
- If an arch can be restored with a standard prosthesis or restoration, no benefits will be allowed for the implant or implant related services.

Required documentation:
- Pre-operative panorex or intraoral complete series
- Detailed narrative.
- If payment of claim: Post-operative film of implant, with above documentation is required for review.

Fixed Prosthodontics
Criteria:
- Periodontically and endodontically sound permanent abutment teeth

Required documentation:
- Pre-operative periapical xrays of entire treatment site
- If there are special circumstances related to the treatment, a detailed narrative is recommended.

Oral Surgery
Required documentation:
- Pre-operative xray of treatment site
- Narrative (if applicable)

Orthodontic Services
*Services will not be covered when the dentition contains any more primary teeth than the primary second molars.

In addition: One of the following criteria must be met for services to be covered under this benefit:

- Maxillary/Mandibular incisor relationship: overjet of 9 mm or more with impingement where the lower incisors are impinging the palate.
- Anterior crossbite equal to or greater than 5mm (short term, interceptive therapy covered only)
- Anterior open bite (canine to canine)
- More than 1 impacted permanent tooth when the dentition contains no more primary teeth than the primary second molars.
- Posterior-unilateral crossbite involving three or more adjacent, permanent teeth, one of which must be a molar (no eruption/dentition requirements for this qualifier).
- Cleft palate deformities submitted by the surgical team.
• Treatment for skeletal deformities will be considered on an individual basis and must be submitted by the surgical team.

**Required Documentation** for dental consultant review:

• Extra-oral photos – including frontal and profile
• 5 Intra-oral photos – R/L buccal, U/L occlusal, and front incisor view
• Panoramic film
• Lateral cephalometric film
• Frontal cephalometric film (for surgical cases)
• Consultation report with diagnosis and treatment plan

**Major Restorative Services**
- The following services are limited to 1 tooth per 60 months
  - onlay metallic
  - core buildup
  - prefabricated post and core
  - crowns

**Endodontic Services**
- Therapeutic pulpotomy (excluding final restoration) – If a root canal is performed within 90 days of the pulpotomy, the pulpotomy is not a covered service and will be considered part of the root canal procedure
- Partial pulpotomy for apexogenesis – permanent tooth with incomplete root formation: If a root canal is performed within 90 days of the pulpotomy, the pulpotomy is not a covered service and will be considered part of the root canal procedure
- Pulpal therapy (resorbable filling) – anterior, primary tooth (excluding final restoration) – Up to age 6 for primary incisors, Up to age 11 for primary canines - Limited to once per tooth per lifetime
- Pulpal therapy (resorbable filling) – posterior, primary tooth (excluding final restoration) – Up to age 11 for primary molars – Limited to once per tooth per lifetime

**Periodontal Services**
- Gingivectomy or gingivoplasty – four or more teeth
- Gingivectomy or gingivoplasty – one to three teeth
- Gingival flap procedure, including root planing, four or more teeth
- Clinical crown lengthening-hard tissue
- Osseous surgery (including flap entry and closure), four or more contiguous teeth or bounded teeth spaces per quadrant
- Pedicle soft tissue graft – Limited to once, per site, per 36 months
- Subepithelial connective tissue graft procedures- Limited to once per site, per 36 months
- Periodontal scaling and root planning-four or more teeth per quadrant-Limited to once per site per 24 months
- Periodontal scaling and root planning-one to three teeth per quadrant-Limited to once per site per 24 months
- Full mouth debridement to enable comprehensive evaluation and diagnosis-Limited to one per lifetime
- Periodontal maintenance – Limited to 4 per 12 months
Implant Services
- Implants and related services are allowed once, per type of service (i.e. endosteal OR eposteal, porcelain OR metal crown), per treatment site per 60 months.

Fixed Prosthodontics
- One fixed partial denture per treatment area per 60 months.

Oral Surgery

Orthodontic Services
- Orthodontic services are not covered for:
  - Repair of damaged orthodontic appliances
  - Replacement of lost or missing appliances
  - Services to alter vertical dimension and/or restore or maintain the occlusion, such as procedures that include, but are not limited to, equilibration, periodontal splinting, full mouth rehabilitation and restoration for misalignment of teeth.

PRIOR AUTHORIZATION
Dental Consultant review required

POLICY STATEMENT
Pediatric oral care services listed in this policy are covered as part of the members medical coverage for children from the ages of 0 up to child's 19th birthday when the benefit plan includes coverage for essential health benefits

No coverage is available under the members medical coverage for services not listed in this policy. These procedures would be considered not covered and are the member's responsibility up to the dentist's charge.

Orthodontic Services
- Orthodontic services are not covered for:
  - Repair of damaged orthodontic appliances
  - Replacement of lost or missing appliances
  - Services to alter vertical dimension and/or restore or maintain the occlusion, such as procedures that include, but are not limited to, equilibration, periodontal splinting, full mouth rehabilitation and restoration for misalignment of teeth.

If a member has started orthodontic treatment with coverage by another carrier, or no insurance coverage at all, and the treatment meets BCBSRI medical criteria for coverage, the benefit maximum for orthodontic services will be prorated according to the length of time remaining in the treatment plan. Example: The member has completed 12 months of a 24 month orthodontic treatment plan before becoming enrolled. BCBSRI will pay 50% (12 months remaining/24 months total) of the allowable fee towards the orthodontic treatment.

For members who began orthodontic treatment with coverage under a BCBSRI dental plan and transitioned to the Pediatric Dental Benefit without coverage disruption, orthodontic payments will be made in accordance with the terms of the plan that was in place when treatment began. Should additional orthodontic benefits be requested, the dental necessity criteria for coverage under the EHB-Pediatric Dental Benefit must be met. Payment will never exceed the Blue Cross Dental allowance for treatment rendered.
**COVERAGE**

Benefits may vary between groups/contracts. Please refer to the appropriate Subscriber Agreement for applicable pediatric dental benefits/coverage.

**BACKGROUND**

Effective January 1, 2014, Qualified Health Plans (QHPs) are required to cover Essential Health Benefits (EHBs), as defined in Section 1302(b) of the Patient Protection and Affordable Care Act. Pediatric Services including oral and vision care has been defined as essential Health Benefits. This policy defines the oral care services that will be covered for members from the ages of 0 up to the members 19th birthday. [http://www.ncsl.org/issues-research/health/state-ins-mandates-and-aca-essential-benefits.aspx](http://www.ncsl.org/issues-research/health/state-ins-mandates-and-aca-essential-benefits.aspx)

As groups renew in 2014, most benefit plans will need to include these EHBs (some exceptions may apply to certain large groups; consult your Subscriber Agreement or Benefit Booklet for details).

**CODING**

Claims are filed on CDT forms and if approved, will be processed under the members medical benefit.

**DIAGNOSTIC SERVICES**

o D1525  Space maintainer-removable-bilateral (under age 14- primary molars and permanent first molars only) (once per tooth per 5 years)
o D1550   Re-cementation of fixed space maintainer
D1555  Removal of fixed spaced maintainer

MINOR RESTORATIVE SERVICES (Once per surface, per tooth per 24 months)
o D2140 Amalgam-one surface, primary or permanent
o D2150  Amalgam-two surface, primary or permanent
o D2160 Amalgam-three surface, primary or permanent
o D2161 Amalgam-four or more surfaces, primary or permanent
o D2330 Resin-based composite-one surface, anterior
o D2331 Resin-based composite-two surface, anterior
o D2332 Resin-based composite-three surface anterior
o D2335 Resin-based composite-four or more surfaces or involving incisal angle (anterior)
  D2391 Resin-based composite – once surface, posterior (allowed at amalgam allowance)
  D2392 Resin-based composite- two surface, posterior (allowed at amalgam allowance)
  D2393 Resin-based composite – three surface, posterior (allowed at amalgam allowance)
  D2394 Resin-based composite – four or more surfaces, posterior (allowed at amalgam allowance)
o D2940 Protective restoration
o D2951 Pin retention-per tooth, in addition to restoration

MAJOR RESTORATIVE SERVICES  (allowed once per tooth per 5 years) (Dental Consultant review required for all major restorative services)
o D2510 Inlay-metallic-one surface (allowed at amalgam restoration allowance)
o D2520 Inlay-metallic-two surfaces (allowed at amalgam restoration allowance)
o D2530 Inlay-metallic-three surfaces (allowed at amalgam restoration allowance)
o D2542 Onlay-metallic-two surfaces (allowed at amalgam restoration allowance)
o D2543 Onlay-metallic-three surfaces
o D2544 Onlay-metallic-four or more surfaces
o D2740 Crown-porcelain/ceramic substrate
o D2750 Crown-porcelain fused to high noble metal
o D2751 Crown-porcelain fused to predominantly base metal
o D2752 Crown-porcelain fused to noble metal
o D2780 Crown-3/4 cast high noble metal
o D2781 Crown-3/4 cast predominantly base metal
o D2783 Crown-3/4 porcelain/ceramic
o D2790 Crown-full cast high noble metal
o D2791 Crown-full cast predominantly base metal
o D2792 Crown-full cast noble metal
o D2794 Crown-titanium
  D2910 Re-cement or re-bond inlay, onlay, veneer or partial coverage restoration
  D2920 Re-cement or re-bond crown
  D2929 Prefabricated porcelain/ceramic crown-primary tooth
  D2930 Prefabricated stainless steel crown – primary tooth (once per tooth per lifetime)
  D2931 Prefabricated stainless steel crown – permanent tooth (once per tooth per lifetime)
  D2932 Prefabricated resin crown (allowed at stainless steel allowance)
  D2933 Prefabricated stainless steel crown with resin window (allowed at stainless steel allowance)
D2934  Prefabricated esthetic coated stainless steel crown – primary tooth
D2950  Core buildup, including any pins (not covered on primary teeth)
D2954  Prefabricated post and core, in addition to crown (not covered on primary teeth)
D2980  Crown repair necessitated by restorative material failure
D2981  Inlay repair necessitated by restorative material failure
D2982  Onlay repair necessitated by restorative material failure
D2983  Veneer repair necessitated by restorative material failure
D2990  Resin infiltration of incipient smooth surface lesions

ENDODONTIC SERVICES
- D3220  Therapeutic pulpotomy (excluding final restoration)
- D3222  Partial pulpotomy for apexogenesis – permanent tooth with incomplete root formation
- D3230  Pulpal therapy (resorbable filling) – (anterior, primary tooth under age 6; posterior primary tooth under age 11) (once per tooth per lifetime)
- D3240  Pulpal therapy (resorbable filling) – posterior, primary tooth (excluding final restoration) (anterior, primary tooth under age 6; posterior primary tooth under age 11) (once per tooth per lifetime)
- D3310  Endodontic therapy, anterior tooth (excluding final restoration) (once per tooth per lifetime) (Dental Consultant review required)
- D3320  Endodontic therapy, bicuspid tooth (excluding final restoration) (once per tooth per lifetime) (Dental Consultant review required)
- D3330  Endodontic therapy, molar (excluding final restoration) (once per tooth per lifetime) (Dental Consultant review required)
- D3346  Retreatment of previous root canal therapy-anterior (once per tooth per lifetime) (Dental Consultant review required)
- D3347  Retreatment of previous root canal therapy-bicuspid (once per tooth per lifetime) (Dental Consultant review required)
- D3348  Retreatment of previous root canal therapy-molar (once per tooth per lifetime) (Dental Consultant review required)
- D3351  Apexification/recalcification/pulpal regeneration – initial visit (apical closure/ calcific repair of perforations, root resorption, pulp space disinfection, etc.)
- D3352  Apexification/recalcification/pulpal regeneration – interim medication replacement
- D3353  Apexification/recalcification/pulpal regeneration – final visit (includes completed root canal therapy- apical closure/ calcific repair of perforations, root resorption, etc)
- D3355  Pulpal regeneration – initial visit
- D3356  Pulpal regeneration – interim medication replacement
- D3357  Pulpal regeneration – completion of treatment (eligible on permanent teeth only, under age 15) (once per tooth per lifetime)
- D3410  Apicoectomy/periradicular surgery – anterior
- D3420  Apicoectomy/periradicular surgery – bicuspid (first root)
- D3425  Apicoectomy/periradicular surgery – molar (first root)
- D3426  Apicoectomy/periradicular surgery – (each additional root)
- D3450  Root amputation-per root (Dental Consultant review required)
- D3920  Hemisection (including any root removal)-not including root canal therapy (Dental Consultant review required)
PERIODONTAL SERVICES  (allowed once per area of the mouth per 36 months) (Dental Consultant review required for periodontal services)
  o D4210  Gingivectomy or gingivoplasty – four or more teeth  
  o D4211  Gingivectomy or gingivoplasty – one to three teeth  
  o D4212  Gingivectomy or gingivoplasty to allow access for restorative procedure, per tooth  
  o D4240  Gingival flap procedure, including root planing, four or more teeth  
  o D4241  Gingival flap procedure, including root planing—one to three contiguous teeth or tooth bounded spaces per quadrant  
  o D4249  Clinical crown lengthening-hard tissue  
  o D4260  Osseous surgery (including flap entry and closure), four or more contiguous teeth or bounded teeth spaces per quadrant  
  o D4261  Osseous surgery (including flap entry and closure), one to three contiguous teeth or tooth bounded spaces per quadrant  
  o D4266  Guided tissue regeneration- resorbable barrier, per site  
  o D4267  Guided tissue regeneration – non-resorbable barrier, per site (includes membrane removal)  
  o D4270  Pedicle soft tissue graft  
  o D4273  Subepithelial connective tissue graft procedures  
  o D4277  Free soft tissue graft procedure (including donor site surgery), first tooth or edentulous tooth position in a graft  
  o D4278  Free soft tissue graft procedure (including donor site surgery), each additional contiguous tooth or edentulous tooth position in same graft site  
  o D4283  Autogenous connective tissue graft procedure (including donor and recipient surgical sites) – each additional contiguous tooth, implant or edentulous tooth position in same graft site  
  o D4340  Periodontal scaling and root planning-four or more teeth per quadrant  
  o D4341  Periodontal scaling and root planning-one to three teeth per quadrant  
  o D4355  Full mouth debridement to enable comprehensive evaluation and diagnosis (one per lifetime)  
  o D4910  Periodontal maintenance (4 per 12 months)

PROSTHODONTIC SERVICES  (Prostheses limited to once per arch per 5 years)
  o D5110  Complete denture-maxillary  
  o D5120  Complete denture-mandibular  
  o D5130  Immediate denture-maxillary  
  o D5140  Immediate denture-mandibular  
  o D5211  Maxillary partial denture-resin base (including any conventional clasps, rests and teeth)  
  o D5212  Mandibular partial denture-resin base (including any conventional clasps, rests and teeth)  
  o D5213  Maxillary partial denture-cast metal framework with resin denture base (including any conventional clasps, rests and teeth)  
  o D5214  Mandibular partial denture-cast metal framework with resin denture base (including any conventional clasps, rests and teeth)  
  o D5221  Immediate maxillary partial denture-resin base  
  o D5222  Immediate mandibular partial denture – resin base  
  o D5223  Immediate maxillary partial denture – cast metal framework with resin denture bases  
  o D5224  Immediate mandibular partial denture - cast metal framework with resin denture bases  
  o D5281  Removable unilateral partial denture-one piece cast metal (including clasps and teeth)  
  o D5410  Adjust complete denture-maxillary  
  o D5411  Adjust complete denture-mandibular  
  o D5421  Adjust partial denture-maxillary
- D5422 Adjust partial denture-mandibular
- D5510 Repair broken complete denture base
- D5520 Replace missing or broken teeth-complete denture (each tooth)
- D5610 Repair resin denture base
- D5620 Repair cast framework
- D5630 Repair or replace broken clasp
- D5640 Replace broken teeth-per tooth
- D5650 Add tooth to existing partial denture
- D5660 Add clasp to existing partial denture
- D5710 Rebase complete maxillary denture-Limited to once per 36 months
- D5711 Rebase complete mandibular denture-Limited to once per 36 months
- D5720 Rebase maxillary partial denture – Limited to once per 36 months
- D5721 Rebase mandibular partial denture- Limited to once per 36 months
- D5730 Reline complete maxillary denture (chairside)-Limited to once per 36 months
- D5731 Reline complete mandibular denture (chairside)- Limited to once per 36 months
- D5740 Reline maxillary partial denture (chairside)- Limited to once per 36 months
- D5741 Reline mandibular partial denture (chairside)- Limited to once per 36 months
- D5750 Reline complete maxillary denture (laboratory)- Limited to once per 36 months
- D5751 Reline complete mandibular denture (laboratory)- Limited to once per 36 months
- D5760 Reline maxillary partial denture (laboratory)- Limited to once per 36 months
- D5761 Reline mandibular partial denture (laboratory) – Limited to once per 36 months

**IMPLANT SERVICES** (limited to one per tooth/site per 5 years) (Dental Consultant review required)
- D6010 Endosteal implant (once per tooth per lifetime)
  - D6011 Second stage implant surgery (once per tooth per lifetime)
- D6013 Surgical placement of mini implant (once per tooth per lifetime)
- D6040 Eposteal Implant (once per tooth per lifetime)
- D6050 Transosteal Implant, including hardware (once per tooth per lifetime)
- D6055 Connecting bar – implant or abutment supported
- D6056 Prefabricated abutment
- D6058 Abutment supported porcelain ceramic crown
- D6059 Abutment supported porcelain fused to high noble metal crown
- D6060 Abutment supported porcelain fused to predominantly base metal crown
- D6061 Abutment supported porcelain fused to noble metal crown
- D6062 Abutment supported cast high noble metal crown
- D6063 Abutment supported cast predominantly base metal crown
- D6064 Abutment supported cast noble metal crown
- D6065 Implant supported porcelain ceramic crown
- D6066 Implant supported porcelain fused to high noble metal crown
- D6067 Implant supported metal crown
- D6068 Abutment supported retainer for porcelain /ceramic fixed partial denture
- D6069 Abutment supported retainer for porcelain fused to high noble metal fixed partial denture
- D6070 Abutment supported retainer for porcelain fused to predominantly base metal fixed partial denture
- D6071 Abutment supported retainer for porcelain fused to noble metal fixed partial denture
- D6072 Abutment supported retainer for cast high noble metal fixed partial denture
- D6073 Abutment supported retainer for cast predominantly base metal fixed partial denture
- D6074 Abutment supported retainer for cast noble metal fixed partial denture
D6075 Implant supported retainer for ceramic fixed partial denture
D6076 Implant supported retainer for porcelain fused to high noble metal fixed partial denture
D6077 Implant supported retainer for cast metal fixed partial denture
D6080 Implant maintenance procedures
D6090 Repair implant supported prosthesis
D6091 Replacement of semi-precision or precision attachment
D6095 Repair implant abutment
D6100 Implant removal
D6101 Debridement of periimplant defect or defects surrounding a single implant
D6102 Debridement and osseous contouring of a periimplant defect or defects surrounding a single implant
D6103 Bone graft for repair of peri-implant defect
D6104 Bone graft at time of implant placement
D6110 Implant/abutment supported removable denture for edentulous arch-maxillary
D6111 Implant/abutment supported removable denture for edentulous arch – mandibular
D6112 Implant/abutment supported removable denture for partially edentulous arch-maxillary
D6113 Implant/abutment supported removable denture for partially edentulous arch-mandibular
D6114 Implant/abutment supported fixed denture for edentulous arch-maxillary
D6115 Implant/abutment supported fixed denture for edentulous arch-mandibular
D6116 Implant/abutment supported fixed denture for partially edentulous arch-maxillary
D6117 Implant/abutment supported fixed denture for partially edentulous arch-mandibular
D6190 Radiographic/surgical implant index, by report

FIXED PROSTHODONTICS (limited to one per tooth per 5 years) (Dental Consultant review required)
D6210 Pontic-cast high noble metal
D6211 Pontic-cast predominantly base metal
D6212 Pontic-cast noble metal
D6214 Pontic-titanium
D6240 Pontic-porcelain fused to high noble metal
D6241 Pontic-porcelain fused to predominantly base metal
D6242 Pontic-porcelain fused to noble metal
D6245 Pontic-porcelain/ceramic
D6548 Retainer-porcelain/ceramic for resin bonded fixed prosthesis
D6549 Resin retainer – porcelain/ceramic for resin bonded fixed prosthesis
D6600 Inlay - porcelain/ceramic, two surfaces
D6601 Inlay - porcelain/ceramic, three or more surfaces
D6602 Inlay – cast high noble metal, two surfaces
D6603 Inlay – cast high noble metal, three or more surfaces
D6604 Inlay – cast predominantly base metal, two surfaces
D6605 Inlay – cast predominately metal, three or more surfaces
D6606 Inlay – cast noble metal, two surfaces
D6607 Inlay – cast noble metal, three or more surfaces
D6608 Onlay – porcelain/ceramic, two or more surfaces
D6609 Onlay - porcelain/ceramic, three or more surfaces
D6610 Onlay – cast high noble metal, two surfaces
D6611 Onlay – cast high noble metal, three or more surfaces
D6612 Onlay – cast predominantly base metal, two surfaces
D6613 Onlay – cast predominantly base metal, three or more surfaces
D6614 Onlay – cast noble metal, two surfaces
D6615 Onlay – cast noble metal, three or more surfaces
D6740 Crown-porcelain/ceramic
D6750 Crown-porcelain fused to high noble metal
o D6751 Crown-porcelain fused to predominantly base metal
o D6752 Crown-porcelain fused to noble metal
o D6780 Crown-3/4 cast high noble metal
o D6781 Crown-3/4 cast predominantly base metal
o D6782 Crown-3/4 cast noble metal
o D6783 Crown-3/4 porcelain/ceramic
o D6790 Crown-full cast high noble metal
o D6791 Crown-full cast predominantly metal
o D6792 Crown-full cast noble metal
o D6930 Recement fixed partial denture
D6980 Fixed partial denture repair necessitated by restorative material failure

ORAL SURGERY (Dental Consultant review required)
  o D7140 Extraction, erupted tooth or exposed root (elevation and/or forceps removal)
  o D7210 Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth
  o D7220 Removal of impacted tooth-soft tissue
  o D7230 Removal of impacted tooth-partially bony
  o D7240 Removal of impacted tooth-completely bony
  o D7241 Removal of impacted tooth-completely bony with unusual surgical complications
  o D7250 Surgical removal of residual tooth roots (cutting procedure)
  o D7251 Coronectomy-intentional partial tooth removal
  o D7270 Tooth reimplantation and/or stabilization of accidentally avulsed or displaced tooth
  o D7280 Surgical access of an unerupted tooth
  o D7310 Alveoloplasty in conjunction with extractions-per quadrant
  o D7311 Alveoloplasty in conjunction with extractions-one to three teeth or tooth spaces, per quadrant
  o D7320 Alveoloplasty not in conjunction with extractions-per quadrant
  o D7321 Alveoloplasty not in conjunction with extractions-one to three teeth or tooth spaces, per quadrant
  o D7471 Removal of lateral exostosis (maxilla or mandible)
  o D7510 Incision and drainage of abscess- intraoral soft tissue
  o D7910 Suture of recent small wounds-up to 5 cm
  o D7921 Collection and application of autologous blood concentrate product (once per 36 months)
  o D7971 Excision of pericoronal gingival

ADJUNCTIVE SERVICES
  o D9110 Palliative (emergency) treatment of dental pain-minor procedure
  o D9223 Deep sedation/general anesthesia – 15 min increments – Limited to 60 minutes
    D9230 Inhalation of nitrous oxide/analgesia, anxiolysis (eligible under age 13 when medically necessary)
    D9243 Intravenous conscious sedation/analgesia – 15 min increments – Limited to 60 minutes
    D9248 Non-intravenous moderate (conscious) sedation (eligible under age 13 when medically necessary)
  o D9310 Consultation- diagnostic service provided by a dentist or physician other than requesting dentist or physician (1 per patient per provider per 12 months for specialties other than pedodontist or orthodontist)
  o D9610 Therapeutic drug injection, by report
ORTHODONTIC SERVICES (Dental Consultant review required)
The following services are covered under medical only when the services meet the criteria for coverage in this policy (see above)
  D0340 Cephalometric radiographic image
  o D8010 Limited orthodontic treatment of the primary dentition
  o D8020 Limited orthodontic treatment of the transitional dentition
  o D8030 Limited orthodontic treatment of the adolescent dentition
  o D8040 Limited orthodontic treatment of the adult dentition
  o D8050 Interceptive orthodontic treatment of the primary dentition
  o D8060 Interceptive orthodontic treatment of the transitional dentition
  o D8070 Comprehensive orthodontic treatment of the transitional dentition
  o D8080 Comprehensive orthodontic treatment of the adolescent dentition
  o D8090 Comprehensive orthodontic treatment of the adult dentition
  o D8210 Removable appliance therapy
  o D8220 Fixed appliance therapy
  o D8670 Periodic orthodontic treatment visit *
  o D8680 Orthodontic retention (removal of appliances, construction and placement of retainers)
  o D8999 Unspecified orthodontic procedure, by report

* these services are typically reimbursed as part of the global services
